Environmental Fillings
12400 E. Imperial Hwy., Room 1201
Norwalk, CA 90650

Exemption Number: CE23-163

Project Title (Application Number): PLNE56419

Project Location – Specific: 5440 Del Amo Boulevard

Project Location – City/County: **City of Long Beach, Los Angeles County, California**

Description of Nature, Purpose and Beneficiaries of Project:

Project involves establishing a medical-use cannabis distribution use within an existing structure located at the address mentioned above.

Public Agency Approving Project: **City of Long Beach, California**

Person or Agency Carrying Out Project: 2388 Anaheim Industries LLC

Exempt Status: **(Check One)**

Ministerial (Sec 21080(b)(1); 15268);

Declared Emergency (Sec 21080(b)(3); 15269(a));

Emergency Project (Sec 21080(b)(4); 15269(b)(c));

Categorical Exemption. State type and section number: Existing Facilities, Section 15301

Statutory Exemption. State code number: _____

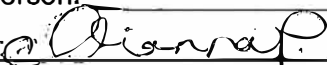

Reasons why project is exempt:

The existing business of a medical-use cannabis distribution business is permitted as a matter of right within the existing building. No expansion of the building is proposed.

EXEMPTION DETERMINATION**

5440 Del Amo Boulevard, Suite 102

PLNE56419

CE23-163

January 3, 2024

Section 15300 through 15333 of the California Environmental Quality Act (CEQA) establishes certain classes of projects as categorically exempt from the provisions of CEQA because they do not ordinarily result in a significant effect on the environment.

Lead Agency: City of Long Beach Community Development Department

Applicant Entity/Business Name: 2338 Anaheim Industries LLC

License Type(s): Business License for Medical Cannabis Distribution License

Project Description:

The project is located at 5440 Del Amo Boulevard, Long Beach, CA 90808 within Los Angeles County (Figure 1 – Vicinity & Aerial Map). The site is on the southern side of 5440 Del Amo Boulevard between Autry Avenue and North Bellflower Boulevard. The nearest intersection is Del Amo Boulevard and North Bellflower Boulevard. The site Assessor's Parcel Number, 7180-015-029, features an area of 15,967 square-feet.

The 15,967 square-foot subject site and surrounding properties are located on relatively flat lots. There are no natural features in the immediate, quarter-mile vicinity.

The subject site is within the Community Commercial Automobile-Oriented (CCA) Zoning District and has a General Plan Land Use PlaceType designation of Community Commercial (CC).

The subject site is currently developed with a 7,880 square-foot commercial building and is approximately 17' 5" in height. The proposed Medical Cannabis Distribution License would include the entire 7,880 square-foot building. The site features a curb cut along Del Amo Boulevard and abuts an alley to the west and south.

The project proposes minor interior and exterior improvements to the commercial building. Interior improvements include removing and adding partition walls, installation of new suspended ceilings, new full accessible restrooms, new roof top equipment and roof screening, and new channel letter signs.

The project has obtained city approved permits which include a building permit, health permits, and a business license.

The primary operations will occur entirely within the enclosed structures and pose limited potential for environmental impacts on neighboring uses. All medical-use cannabis facilities are subject to stringent rules and regulations governed by Long Beach Municipal Code Title 5 – Regulation of Businesses, Trades, and Professions.

1. Is the project site currently operating as a cannabis cultivation site or a similar use, or has it recently operated for this purpose?

The site was previously used for retail use, which was a school supply store. The site is in an existing commercial zoning district that is served with existing public infrastructure which includes sewer, water, electrical and gas services. The previous use dates to 2001 and was licensed until 4/24/2023. Distribution is identified as a commercial use by the Long Beach Municipal Code.

2. Does the project involve an expansion of existing structures that would be considered only minor?

The existing 7,880 square-foot unit footprint will not be expanded. Minor improvements proposed include minor interior and exterior alterations, plumbing, and similar typical minor tenant improvements.

3. Project Expansion:

Size of expansion in square feet:

This question is not applicable as this project consists of only interior and exterior tenant improvements to an existing 7,880 square-foot commercial unit.

4. Is the project site served by all public services sufficient to serve the project (e.g., water, sewer, electricity, and gas)? The preparer should indicate which public services serve the site.

The project site is currently served by all city public services which include sewer, water, and gas infrastructure as confirmed by the current internal GIS city-data accessed on December 28, 2023. The site is also serviced by Southern California Edison (SCE) for electrical needs as confirmed by SCE's service territory map, accessed December 28, 2023. As a condition of approval on the project, the applicant will be required to confer with applicable infrastructure departments to obtain approvals for any improvements on private property.

<https://www.sce.com/about-us/who-we-are/leadership/our-service-territory>

5. Is there evidence that the project site is located in an environmentally sensitive area?

This project is not located in an environmentally sensitive area as verified on the GeoTracker website on December 28, 2023. The built-out site itself is located in a commercial zoning district which allows for retail and service uses and not in any proximity to any important mineral resources; protected aquatic habitats, including wetlands; environmentally sensitive wildlife habitat; or areas known to include cultural, paleontological, and/or historical resources.

<https://geotracker.waterboards.ca.gov/map/?myaddress=California&from=header&cqid=9041135489>

6. Does the project require a water right permit or another environmental permit that could result in physical changes to the environment?

This project does not require a water right permit or another environmental permit. The project is fully developed and served by existing utilities as detailed in response 4.

EXCEPTIONS TO EXEMPTIONS

7. Scenic Highways

This is not applicable as this project is not near nor visible from an official State Scenic Highway as confirmed from the Long Beach General Plan Mobility Element and the Caltrans website verified on December 28, 2023.

<https://dot.ca.gov/programs/design/lap-landscape-architecture-and-community-livability/lap-liv-i-scenic-highways>

8. Is the project located on a site included on any list compiled pursuant to Government Code § 65962.5 (Cortese List)?

The California Department of Toxic Substances Control does not identify this site as a hazardous site (calepa.ca.gov/sitecleanup/) as confirmed on December 28, 2023.

9. Would the project result in a substantial adverse change in the significance of a historic resource?

This project is not located in an area of significant historic resources as verified in the city's GIS system that listed historical database the National Register of Historic Places as verified on December 28, 2023. This existing 7,880 square-foot commercial building is not a recognized historic landmark nor a historic building.

<https://www.nps.gov/maps/full.html?mapId=7ad17cc9-b808-4ff8-a2f9-a99909164466>

10. Is there evidence of the potential for the project to contribute to a significant cumulative impact?

This project proposes to reuse an existing 7,880 square-foot industrial building for medical cannabis distribution. The operations of this facility do not provide evidence of the potential for the project to contribute to a significant cumulative impact as the use is located in a commercial zoning district which allows for distribution type uses. The proposed project is a use anticipated by the City of Long Beach General Plan and Land Use Element and would not contribute to a significant cumulative impact that was not previously analyzed. The Long Beach General Plan Program Environmental Impact Report (PEIR) was adopted in December of 2019 (State Clearinghouse No. 2015051054). The project's impacts are furthermore mitigated by conditioned compliance with applicable code requirements which include, but not limited to, noise, discharges, and material handling.

11. Is there evidence of a reasonable possibility of a significant environmental impact due to unusual circumstances?

The project does not contain any unusual aspects in the ongoing operations that may lead to a more substantial impact. The proposed use consistent with commercial uses allowed in the zoning district.

Eligibility Determination

Based on information contained in the administrative record, as reflected in the answers provided to Questions 1-11 above, the project or project element(s) are eligible for a Class 1 categorical exemption. The project or project element(s) fit(s) within the parameters included in CEQA Guidelines Section 15301, and none of the exceptions to this exemption defined in Section 15300.2 apply.
