***SUBJECT: Filing of Notice of Determination pursuant to Public Resources Code section 21108***

**State Clearinghouse Number:** 2024010128

**Project Title:** EA 03-1J630\_SR 99 PM 6.04 & 7.06 Willow Slough Bridge Replacement (Streambed Alteration Agreement EPIMS Notification No. SAC-49817-R2)

**Project Location (include county):** The project is located at Willow Slough between Post Mile (PM) 6.04 and PM 7.06 in the County of Sacramento, State of California; Latitude 38.332371, Longitude -121.330700 (WGS 84 datum, decimal degrees).

**Project Description:** The California Department of Fish and Wildlife (CDFW) has executed Streambed Alteration Agreement EPIMS Notification Number SAC-49817-R2, pursuant to section 1602 of the Fish and Game Code to the project Applicant, California Department of Transportation, as represented by Daniel Kwong.

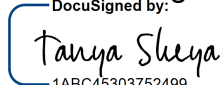

The project is limited to the replacement of the existing reinforced concrete, continuous slab southbound bridge (Bridge No. 24-0046L) with a new press brake steel tub girder structure. The new southbound bridge will be raised in profile to match the existing northbound bridge (Bridge No. 24-0046L), and the median gap will be reduced. Bridge replacement activities will include construction of approach slabs, joint seals, and a concrete median barrier to separate the north and southbound traffic lanes. The old southbound structure including all six of its existing piers will be demolished after the first half of the new structure is built, but prior to the placement of the second half of the new bridge. An existing, abandoned pipe culvert, which spans the right-of-way along the existing northerly earthen fill of both the northbound and southbound bridges, will be cut and removed for construction. Clearing and grubbing of vegetation including mature riparian trees will be required as indicated by the marked trees in the exhibit of the Agreement. Mature riparian trees not marked for removal will be avoided.

This is to advise that CDFW, acting as a Responsible Agency, executed the above Streambed Alteration Agreement on the date signed below and has made the following determinations regarding the project pursuant to California Code of Regulations section 15096, subdivision (i):

**Notice of Determination**

1. The project will not have a significant effect on the environment. This determination is limited to effects within CDFW's permitting jurisdiction as a Responsible Agency.
2. CDFW considered the negative declaration prepared by the Lead Agency for this project pursuant to California Code of Regulations section 15096, subdivision (f).
3. Mitigation measures were made a condition of CDFW's approval of the project.
4. A mitigation reporting or monitoring plan was not adopted by CDFW for this project.
5. A statement of overriding considerations was not adopted by CDFW for this project.
6. Findings were not made by CDFW pursuant to California Code of Regulations section 15091.

The final environmental impact report prepared for the project is available to the general public at the office location listed above for the Lead Agency. CDFW's record of execution of the above Streambed Alteration Agreement as Responsible Agency is available at CDFW's regional office.
