**EXEMPT STATUS (CHECK ONE):**

- Ministerial (Sec. 21080(b)(1); 15268);
- Declared Emergency (Sec. 21080(b)(3); 15269(a));
- Emergency Project (Sec. 21080(b)(4); 15268(b)(c));
- Categorical Exemption. State type and California Environmental Quality Act Guidelines (CEQAG) section number:

This approval is not a project for the purposes of California Environmental Quality Act (Pub. Res. Code, § 21000, et seq.) ("CEQA") pursuant to section 15061(b)(3) of the CEQA Guidelines (California Code of Regulations, Title 14, section 15000, et seq.), as it can be seen with certainty that this approval will not result in any significant effect on the environment as there will be no change in vehicle miles traveled nor any significant change in existing conditions at the primary and/or back up recycling facilities. To the extent this approval is a project within the meaning of CEQA, it is categorically exempt pursuant to sections 15301, 15307, and 15308 of the CEQA Guidelines. CEQA Guideline Section 15301 ("Existing Facilities") exempts actions involving negligible expansions in use of existing private facilities. Due to the comparatively small volume of recyclable materials requiring processing under the Agreement, this approval will result in only a negligible expansion of the existing processing services provided at either the primary or back up recycling facilities. CEQA Guideline

Sections 15307 ("Actions by Regulatory Agencies for Protection of Natural Resources") and 15308 ("Actions by Regulatory Agencies for Protection of the Environment") exempt actions taken by regulatory agencies to assure the maintenance, restoration, or enhancement of a natural resource and/or protection of the environment, where the regulatory process involves procedures for protection of the environment. As this approval assures the diversion of recyclables from landfills, which promotes the conservation of finite natural resources and decreases pollution, green house gas emissions, and energy use associated with extracting and processing new materials, this approval is exempt from further environmental review.

Statutory Exemptions. State code number:

**REASONS WHY PROJECT IS EXEMPT:** This consent does not add a significant number of new truck trips or vehicle miles traveled, consolidates materials recycling in one place rather than two, and will reduce activities at the Whitehall Lane facility. The project does not result in changes to the environment or significant changes or expansion of existing facility use.
