Present Land Use/Zoning/General Plan Designation:

Zoning: RC, General Plan: Ag

Project Description: (please use a separate page if necessary)

The California Department of General Services (DGS) Gray Lodge Wildlife Solar Project (Proposed Project) is a solar Photovoltaic (PV) power generation system that would include 468 ground-mounted solar arrays that would occupy 35,000 square-feet. The Proposed Project will convert sunlight to Direct Current (DC) electrical power which would then be converted to Alternating Current (AC) by string inverters before being delivered to the PG&E distribution system. The total system is expected to be approximately 204 kilowatts. The Proposed Project would support energy reduction goals, the Global Warming Solutions Act, and Governor's Green Building Order S-20-04.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
