Project Title: Emergency Erosion Repairs at Grand Caribe

Project Location – Specific: South Portion at Grand Caribe Shoreline Park, 598 Grand Caribe Causeway
Coronado, CA 92118 (Port Parcel ID: 046-011)

Project location – City: Coronado

Project Location – County: San Diego

Description of Nature, Purpose, and Beneficiaries of Project: This project is for emergency repairs to the shoreline at Grand Caribe Shoreline Park. District staff was notified of a main irrigation line break at south Grand Caribe (in the natural shoreline park) that occurred over the weekend (January 6 and 7, 2024). This break has resulted in significant scouring of the shoreline, exposed irrigation pipes, and presents an immediate need for action to protect the natural shoreline. Compounding the issue, the region is experiencing King Tides this week, which will exacerbate the erosion. High tides on Thursday, January 11, and Friday, January 12, 2024, will be approximately 7.15 feet in the morning, draining out to a negative tide in the afternoon.

District staff evaluated the conditions and determined a temporary solution, which would include:

- Install temporary fence at the top of the scoured edge for pedestrian/public safety.
- Disconnect, remove and/or abandon in-place irrigation lines on the southern portion of Grand Caribe. At this time, it has been determined that irrigation is not critical in this area.
- At present time, it is anticipated that 240 burlap sandbags (14-inches-by-26 inches in size), each filled with 35 to 40 pounds of sand (1/2- to 2/3-full) will be arranged along 12 linear feet (NOM) of the eroded bluff. The bags will be stacked six feet high (NOM) against the eroded material and the remaining shoreline bluff.
- District General Services will coordinate and implement the sandbag installation, pursuant to the specifications provided above.
- Coordinate materials and method for deployment of sandbags.
- Deploy sandbags, anticipated to be completed by Wednesday, January 10, 2024, pending direction provided by District Engineering.
- Monitoring the site for any further irrigation line breaks, scouring of the shoreline, and environmental or public safety hazards.

Due to its nature and limited scope, construction of the proposed project would generate a minor amount of vehicle trips and would require limited use of equipment. Therefore, impacts related to air quality, greenhouse gas emissions, and transportation and traffic are not anticipated to occur. Furthermore, the Applicant would be

responsible for complying with all applicable federal, state, and local laws regarding construction demolition debris, hazards and hazardous materials, and stormwater.

The following categorical determinations are based on the project submittal and all project information known to the District, as of the date of this determination.

Name of Public Agency Approving Project: *San Diego Unified Port District (SDUPD)*

Name of Person or Agency Carrying Out Project: San Diego Unified Port District, 3165 Pacific Highway San Diego, CA 92101 (619) 686-6200

- Exempt Status:** (Check one):
- Ministerial (Sec. 21080(b)(1); 15268);
 - Declared Emergency (Sec. 21080(b)(3); 15269(a));
 - Emergency Project (Sec. 21080(b)(4); 15269(b)(c));
 - Categorical Exemptions: *Existing Facilities (SG § 15301) (Class 1), New Construction or Conversion of Small Structures (SG § 15303) (Class 3), and Minor Alterations to Land (SG § 15304) (Class 4), Information Collection (SG § 15306) (Class 6), Actions by Regulatory Agencies for Protection of Natural Resources (SG § 15307) (Class 7), and Actions by Regulatory Agency for Protection of the Environment (SG § 15308) (Class 8)***
 - Statutory Exemption. State code number:

Reason Why Project is Exempt: The proposed project is determined to be Categorically Exempt pursuant to the CEQA Guidelines and the Sections of the District's Guidelines for Compliance with CEQA as identified above. The proposed work responds to an emergency that requires immediate action to preserve the shoreline and bluff during King Tides, at this location. Further, these Exemptions are appropriate for the proposed project because it: 1) would involve no expansion of use beyond that previously existing and would not result in a significant cumulative impact due to the continuation of the existing use; 2) would consist of construction, or installation, and location of new, small facilities/structures (fencing) that would result in no permanent effects on the environment, and would not involve the removal of mature, scenic trees; 3) is for the purpose of basic data collection/research/experimental management/resource evaluation activities, which would not result in a serious or major disturbance to an environmental resource; 4) is for the purpose of the maintenance, restoration or enhancement of a natural resource, where the regulatory process involves procedures for the protection of the environment; and 5) is for the purpose of the maintenance, restoration, enhancement, or protection of the environment, where the regulatory process involves procedures for protection of the environment. The District has determined none of the six exceptions to the use of a categorical exemption apply to this project (CEQA Guidelines Section 15300.2). *Section 3.a. of the District's CEQA Guidelines is as follows:*

- 3.a. Existing Facilities (SG § 15301) (Class 1): Includes operation, repair, maintenance, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that previously existing, including but not limited to:
- (7) Existing facilities used to provide electric power, natural gas, sewerage, or other public utility service.
 - (8) Existing highways, streets, sidewalks, bicycle and pedestrian trails, and similar facilities, except where the activity will involve removal of a scenic resource including a stand of trees, a rock outcropping, or an historic building.
 - (12) Maintenance of existing landscaping, native growth, and water supply reservoirs.
 - (13) Maintenance of wildlife habitat areas, stream flows, springs, waterholes and stream channels to

protect wildlife resources.

AND/OR

3.c. New Construction or Conversion of Small Structures (SG § 15303) (Class 3): Includes construction of limited numbers of new, small facilities or structures; installation of small new equipment and facilities in small structures; and conversion of existing small structures from one use to another with minor modifications to the exterior of the structure. Examples of this exemption include:

- (2) Accessory (appurtenant) structures and mechanical equipment including, but not limited to, garages, sheds, railway spur tracks, pilings, temporary trailers, industrial equipment enclosures, fences, parking, on-site roadways, walkways and health and safety devices.
- (3) Water, sewer, electrical, gas, telephone, and other utility structures or facilities.

AND/OR

3.d. Minor Alterations to Land (SG § 15304) (Class 4): Includes minor alterations in the condition of land, water and/or vegetation not involving removal of mature, scenic trees, including, but not limited to:

- (2) Minor placement of revetment or other shore protection structures on eroded shoreline to protect the public safety, public or private structures or facilities, or to provide or reestablish bank alignment.

AND/OR

3.f. Information Collection (SG § 15306) (Class 6): Includes basic data collection, research, experimental management, and resource evaluation activities which do not result in a serious or major disturbance to an environmental resource. These may be for information gathering purposes, or as part of a study leading to an action which has not yet been approved, adopted or funded.

AND/OR

3.g. Actions by Regulatory Agencies for Protection of Natural Resources (SG § 15307) (Class 7): Includes actions taken by regulatory agencies to assure the maintenance, restoration or enhancement of a natural resource where the regulatory process involves procedures for the protection of the environment.

AND/OR

3.h. Actions by Regulatory Agency for Protection of the Environment (SG § 15308) (Class 8): Includes actions taken by regulatory agencies to assure the maintenance, restoration, enhancement, or protection of the environment where the regulatory process involves procedures for protection of the environment.
