NOTICE OF PUBLIC REVIEW AND INTENT TO ADOPT A PROPOSED MITIGATED NEGATIVE DECLARATION

Pursuant to the State of California Public Resources Code and the "Guidelines for Implementation of the California Environmental Quality Act of 1970" as amended to date, this is to advise you that the Contra Costa County Department of Conservation and Development, Community Development Division, has prepared an initial study evaluating the potential environmental impacts of the following project:

1. Project Title: Delta Bay Solar-Canopy RV & Boat Storage

2. County File Number: CDLP22-02019

3. Lead Agency: Contra Costa County, Department of Conservation and

Development

4. Lead Agency Contact Person: Adrian Veliz, Senior Planner

(925) 655-2879 /Adrian.veliz@dcd.cccounty.us

5. Project Location: 3777 Bixler Road, Byron, CA, 94514, in Contra Costa

County.

(Assessor's Parcel Numbers: 011-210-030)

6. Applicant's Name, Address, and Scott Clare

Phone Number: 362 La Questa Drive

Danville, CA 94526 (925) 719-0614

7. **Project Description:** The applicant is requesting approval of land use permits for the purpose of constructing a solar-covered boat & recreational vehicle storage facility and commercial

solar energy generating facility on the subject property. The Project includes six covered parking canopies providing a total of 592 paved parking stalls for recreational vessels. The parking canopies would double as the support structure for ground-mounted solar panels comprising the proposed commercial solar energy generation land use. The aggregate area for the solar canopies/solar panel arrays is 349,494 square feet. The project would generate an estimated 10 Megawatts of clean energy per year which would be sold directly to residents and businesses in the County via either PG&E or the Marin Clean Energy (MCE) Feed-in-Tarriff program. The project would interconnect to Pacific Gas and Electric Company's (PG&E's) pre-existing electrical distribution system via existing utility poles located within the Bixler Road right-of-way to export solar energy generated on site into the existing utility grid.

The project includes an exception request from collect and convey requirements specified in Chapter 914-2 of the County Subdivision Ordinance for each Land Use Permit approval. The exception requests would allow the existing drainage pattern to remain, where collection and conveyance, without diversion and within an adequate storm drainage system, to an adequate natural watercourse having a definable bed and banks or to an existing adequate public storm drainage system which conveys the storm water to an adequate natural watercourse is required.

8. Surrounding Land Uses and Setting: The project site is a ±38.6-acre agricultural-zoned parcel bounded by Bixler Road to the west and State Route 4 to the north, in the Byron area of unincorporated Contra Costa County. The overall topography of the subject property is flat, with elevations ranging from 12 to 16 feet above sea level. The project proposal is located within a southerly 16-acre portion of the subject property. The largely undeveloped site (APN: 011-121-030) predominantly consists of fallow cropland. Existing development on site includes several barn and shed buildings in the southwestern corner of the project site, which would be removed to accommodate the proposed facility. Vehicular access to the site exists via Bixler Road.

The surrounding areas consists of lands zoned Heavy Agricultural (A-3) and are presently used for farming, grazing, and/or single-family residential purposes. An unrelated boat and RV storage facility exists on a 30-acre parcel west of the project site on the opposite side of Bixler Road. The communities of Byron and Discovery Bay are located immediately south and north of the subject property respectively.

9. Determination: The County has determined that without mitigation the project may result in significant impacts to the environment. Therefore, pursuant to California Code of Regulations Section 15070, a Mitigated Negative Declaration/Initial Study has been prepared, which identifies mitigation measures to be incorporated into the project that will reduce those impacts to less than significant levels. Prior to adoption of the Mitigated Negative Declaration, the County will be accepting comments on the Mitigated Negative Declaration/Initial Study during a 30-day public comment period.

The mitigated negative declaration can be viewed online at the following link: https://www.contracosta.ca.gov/4841/CEQA-Notifications or upon request by contacting the project planner. Any documents referenced in the index can be provided upon request by contacting the project planner.

Page 2

Public Comment Period – The period for accepting comments on the adequacy of the environmental document will **begin January 16, 2024, and extend to 4:00 P.M., Thursday, February 15, 2024.** Any comments should be submitted in writing to the following address:

Contra Costa County
Department of Conservation & Development
Attn: Adrian Veliz
30 Muir Road
Martinez, CA 94553

or;

via email to adrian.veliz@dcd.cccounty.us

The proposed Mitigated Negative Declaration will be considered for adoption at a meeting of the County Zoning Administrator. The hearing date before the County Zoning Administrator has not yet been scheduled. Hearing notices with instructions on how and/or where to attend the meeting will be sent out prior to the finalized hearing date.

Additional Information – For additional information on the Mitigated Negative Declaration and the proposed project, you can contact me by email at adrian.veliz@dcd.cccounty.us or by telephone at (925) 655-2879.

Sincerely

Adrian Veliz Senior Planner
