## **Summary Form for Electronic Document Submittal**

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Dogwood Geothermal Energy Project	
Lead Agency: Imperial County Planning and Development Service	ces Department
Contact Name:	
luisvalenzuela@co.imperial.ca.us Email:	Phone Number:
	Imperial
Project Location:	County
Project Description (Proposed actions, location, and/or conseque	,
Ormat has filed three separate Conditional Use Permits (CUP) a construction and operation of various facilities. The three CUP application and operation of various facilities. The three CUP applications are replied in the Project. Collectively, these three CUP applications are referred project includes a 25-megawatt (MW) geothermal energy storage tanks, a 7 MW solar photovoltaic field, and a medium volthe proposed geothermal plant. The cable would be co-located a Solar Energy Project would be a 15 MW solar photovoltaic field (power plant. The Heber Field Company Geothermal Wells and P productions wells, one new injection well, and interconnecting bridges.	oplications consist of the following: 1) Dogwood d 3) Heber Field Company Geothermal Wells and eferred as the the "project". The Dogwood Geothermal of facility, two 20,000 gallon aboveground isopentane tage distribution line from the proposed solar facility to long an existing above ground pipeline. The Heber 2 that would connect directly to the Heber 2 geothermal ipeline Project would include three new geothermal
Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.	
Aesthetics; Agricultural Resources; Air Quality; Biological Resour Gas Emissions/Climate Change; Hazards and Hazardous Materi Cultural Resources; Utilities and Service Systems including wate	als; Hydrology/Water Quality; Transportation; Tribal

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.
None have been expressed at this time.
Provide a list of the responsible or trustee agencies for the project.
