

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Tiger Creek Regulator Dam Spillway Replacement Project

Lead Agency: State Water Resources Control Board

Contact Name: Eric Bradbury

Email: Eric.Bradbury@waterboards.ca.gov

Phone Number: (916) 327-8449

Project Location: Unincorporated Amador County

City

County

Project Description (Proposed actions, location, and/or consequences).

The Proposed Project is located in Amador County approximately 24 miles northeast of Jackson. Construction will take place at the Tiger Creek Regulator Dam and Reservoir on Tiger Creek. The Proposed Project includes a new spillway along the Dam's right abutment and abandoning-in-place the old spillway infrastructure along the Dam's left abutment. The purpose of the Proposed Project is to update the Dam to safely pass a flood event of up to 6,000 cubic feet per second. New spillway construction includes: a new spillway intake (crest structure), new notch through the existing dam, new concrete chute, new flip bucket splitter blocks, and new plunge pool. Other associated features of the Proposed Project include a permanent access road to the new spillway, a temporary construction access road with four temporary bridges across Tiger Creek, a temporary 240-foot-long cofferdam in the Reservoir to facilitate new spillway construction, a new 450-foot single span log boom and anchor blocks, new lighting on the Dam, and three staging areas. The IS/MND is being recirculated because on May 9, 2024, PG&E revised the Proposed Project description to move the concrete batch plant from the Cedar Mill staging area to the Spur 1 staging area.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Hydro.: Water Qual. Protection Measures and Erosion and Sediment Ctrl. Plans; Spur 1 Staging Area Water Qual. Protection Measures; Sediment Ctrl. Measures along Downstream Edge of Existing Plunge Pool prior to Rock Slope Protection; Develop and Implement a Water Qual. Monitoring and Adaptive Management Plan | Bio. Resources: Worker Environmental Awareness Training; Pre-construction Survey for Northwestern Pond Turtle at Cedar Mill Staging Area; Evaluate Trees for Removal and Implement Protective Measures to Avoid/Min. Injury/Mortality of Special-status Roosting Bats; Min. the Introduction and Spread of Invasive Plants; Avoid/Min. Disturbance of WOTUS/State; Compensate for the Temp. and Permanent Losses of WOTUS/State; Flow Pumping System and Water Drafting Requirements; Rescue and Relocate Fish from Affected Habitat; Pre-construction Survey for Nesting Birds and Protective Buffers around Active Nests | Geology: Educate Construction Personnel in Recognizing Fossil Material; Stop Work if Substantial Fossil Remains are Encountered during Construction | Air Qual.: Fugitive Dust Abatement Measures | GHGs: BMPs to Mitigate Tree Loss and Reduce Construction Generated GHG Emissions | Hazards: Hazardous Materials Ctrl. Measures | Cultural Resources: Mandatory Cultural Resources Awareness Training for All Project Personnel; Stop Work if Previously Unidentified Archaeological Resources are Encountered until a Qualified Archaeologist Assesses the Find and Native American Consultation Has Been Conducted; Stop Work in Case of Accidental Discovery of Buried Human Remains until Procedures in PRC Section 5097 have been Completed. | Transportation: Traffic Control Plan | Wildfire: Fire Hazard Prevention Measures

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

There are no known areas of controversy.

Provide a list of the responsible or trustee agencies for the project.

Responsible agencies: None (federally preempted)

Trustee agencies: California Department of Fish and Wildlife, University of California, State Lands Commission, California Department of Parks and Recreation.
