

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: El Dorado County Department of Transportation Routine Maintenance Agreement Project

Lead Agency: El Dorado County

Contact Name: Jon Balzer, P.E., Senior Civil Engineer

Email: dotengineering@edcgov.us Phone Number: 530-621-5900

Project Location: Various Locations within Unincorporated El Dorado County
City *County*

Project Description (Proposed actions, location, and/or consequences).

The El Dorado County Department of Transportation's (Department) intends to enter into a 12-year Routine Maintenance Agreement (RMA) with the California Department of Fish and Wildlife (CDFW) to conduct the Department's routine maintenance of the private and public facilities integral to the El Dorado County Road System. The Department performs routine maintenance work to maintain functional and structural integrity of their facilities with the ultimate goal of the preservation of infrastructure and public safety. The Department's proposed RMA would cover routine maintenance in areas where maintenance would result in the modification of a lake or stream's bed, bank, or channel. This routine maintenance work is divided into 10 categories: (1) Removal, Replacement, or Repair of Facilities; (2) Debris and Obstruction Removal; (3) Vegetation Control in Channels or on Banks; (4) Repair of Previous Erosion Control Work; (5) Minor Erosion Control Work; (6) Channel Alignment Maintenance; (7) Road Maintenance and Storm Water Runoff Systems (MS-4) Maintenance; (8) Minor Bridge Maintenance; (9) Silt, Sand, or Sediment Removal; and, (10) Maintenance of Existing Recreational Facilities.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

El Dorado County's 12-year Routine Maintenance Agreement (RMA) does not present or result in any significant effects. All items of work to be conducted are maintenance of existing infrastructure. Construction/ maintenance activities may introduce changes but will not alter the character of the work areas within the project area. Overall, the existing conditions of the maintenance sites along County road right-of-ways and associated areas (including drainage ways), subject to the routine maintenance work are expected to remain intact and consistent with the original infrastructure being maintained. This project has the potential to impact special-status species. Mitigation measures applicable to each species are listed in the IS/MND. The proposed project would be required to comply (as applicable) with the County's Phase II MS4 NPDES permit, the USACE Section 404 Nationwide 3 Maintenance Permit, the County's 2007 Stormwater Management Plan, and the County's Grading, Erosion and Sediment Control Ordinance as well as the conditions of the Department's proposed RMA with the CDFW, which require erosion control BMPs to be implemented. Project impacts would be considered less than significant.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Not applicable.

Provide a list of the responsible or trustee agencies for the project.

El Dorado County Department of Transportation.
