Project Title: Lake Wildwood Sediment Removal Project

Project Applicant: Lake Wildwood Association

Project Location (include county): Lake Wildwood, Nevada County. Latitude: 39.239559° Longitude: -121.193886°

Project Description:

The Project will remove sediment from various drainage inlets around Lake Wildwood and dispose of the excavated sediment on nearby rural parcels in order to maintain recreational use of the lake. The lake will be drawn down by approximately 10 to 12 feet, displacing roughly 3,000 acre-feet of water, by increasing water releases into lower Deer Creek from the outlet at the Anthony House Dam over a period of several weeks. Once the lake-bed is exposed, sediment is excavated over a period of two to three weeks to avoid the start of the rainy season. Sediment removal operations are undertaken every 3 to 4 years.

This is to advise that the Central Valley Regional Water Quality Control Board has approved the above
 (Lead Agency or Responsible Agency)

described project on 26 June 2024 and has made the following determinations regarding the above
 (date)
 described project.

1. The project [will will not] have a significant effect on the environment.
2. An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA.
 A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures [were were not] made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan [was was not] adopted for this project.
5. A statement of Overriding Considerations [was was not] adopted for this project.
6. Findings [were were not] made pursuant to the provisions of CEQA.

This is to certify that the final EIR with comments and responses and record of project approval, or the negative Declaration, is available to the General Public at:

The Nevada County Planning Department, 950 Maidu Avenue, Suite 170, Nevada City, CA 95959
