State of California - Department of Fish and Wildlife
2024 ENVIRONMENTAL DOCUMENT FILING FEE
CASH RECEIPT
 DFW 753.5a (REV. 01/01/24) Previously DFG 753.5a

NOTICE

Each project applicant shall remit to the county clerk the environmental filing fee before or at the time of filing a Notice of Determination (Pub. Resources Code, § 21152; Fish & G. Code, § 711.4, subdivision (d); Cal. Code Regs., tit. 14, § 753.5). Without the appropriate fee, statutory or categorical exemption, or a valid No Effect Determination issued by the California Department of Fish and Wildlife (CDFW), the Notice of Determination is not operative, vested, or final, and shall not be accepted by the county clerk.

COUNTY DOCUMENTARY HANDLING FEE

The county clerk may charge a documentary handling fee of fifty dollars (\$50) per filing in addition to the environmental filing fee (Fish & G. Code, § 711.4, subd. (e); Cal. Code Regs., tit. 14, § 753.5, subd. (g)(1)). A county board of supervisors shall have the authority to increase or decrease the fee or charge, that is otherwise authorized to be levied by another provision of law, in the amount reasonably necessary to recover the cost of providing any product or service or the cost of enforcing any regulation for which the fee or charge is levied (Gov. Code, § 54985, subd. (a)).

COLLECTION PROCEDURES FOR COUNTY GOVERNMENTS

Filing Notice of Determination (NOD):

- Collect environmental filing fee or copy of previously issued cash receipt. *(Do not collect fee if project applicant presents a No Effect Determination signed by CDFW. An additional fee is required for each separate environmental document. An addendum is not considered a separate environmental document. Checks should be made payable to the county.)*
- Issue cash receipt to project applicant.
- Attach copy of cash receipt and, if applicable, previously issued cash receipt, to NOD.
- Mail filing fees for **CRP** document to CDFW prior to filing the NOD or equivalent final approval (Cal. Code Regs. Tit. 14, § 753.5 (b)(5)). The CRP should request receipt from CDFW to show proof of payment for filing the NOD or equivalent approval. Please mail payment to address below made attention to the Cash Receipts Unit of the Accounting Services Branch.

If the project applicant presents a **No Effect Determination** signed by CDFW, also:

- Attach No Effect Determination to NOD *(no environmental filing fee is due).*

Filing Notice of Exemption (NOE) *(Statutorily or categorically exempt project (Cal. Code Regs., tit. 14, §§ 15260-15285, 15300-15333))*

- Issue cash receipt to project applicant.
- Attach copy of cash receipt to NOE *(no environmental filing fee is due).*

Within 30 days after the end of each month in which the environmental filing fees are collected, each county shall summarize and record the amount collected on the monthly State of California Form No. CA25 (TC31) and remit the amount collected to the State Treasurer. Identify the remittance on Form No. CA25 as "Environmental Document Filing Fees" per Fish and Game Code section 711.4.

The county clerk shall mail the following documents to CDFW on a monthly basis:

- ✓ A photocopy of the monthly State of California Form No. CA25 (TC31)
- ✓ CDFW/ASB copies of all cash receipts (including all voided receipts)
- ✓ A copy of all CDFW No Effect Determinations filed in lieu of fee payment
- ✓ A copy of all NODs filed with the county during the preceding month
- ✓ A list of the name, address and telephone number of all project applicants for which an NOD has been filed. If this information is contained on the cash receipt filed with CDFW under California Code of Regulations, title 14, section 753.5, subdivision (e)(6), no additional information is required.

DOCUMENT RETENTION

The county shall retain two copies of the cash receipt (for lead agency and county clerk) and a copy of all documents described above for at least 12 months.

RECEIPT NUMBER

- # The first two digits automatically populate by making the appropriate selection in the County/State Agency of Filing drop down menu.
- # The next eight digits automatically populate when a date is entered.
- # The last three digits correspond with the sequential order of issuance for each calendar year. For example, the first receipt number issued on January 1 should end in 001. If a county issued 252 receipts for the year ending on December 31, the last receipt number should end in 252. CDFW recommends that counties and state agencies 1) save a local copy of this form, and 2) track receipt numbers on a spreadsheet tabbed by month to ensure accuracy.

DO NOT COMBINE THE ENVIRONMENTAL FEES WITH THE STATE SHARE OF FISH AND WILDLIFE FEES.

Mail to:

California Department of Fish and Wildlife
 Accounting Services Branch
 P.O. Box 944209
 Sacramento, California 94244-2090

Project Title: Countywide Sidewalk Connectivity Plan

Project Location: See attached vicinity map

Description of Nature, Purpose, and Beneficiaries: See attached project description

Public Agency Approving Project: San Joaquin County Public Works Department

Name of Agency Carrying Out Project: San Joaquin County Public Works Department

This is to advise that the San Joaquin County Public Works Department has approved the above described project on 10/24/2023 and has made the determination that the project is exempt due to the following:

Exempt Status (check one):

- Ministerial (Sec. 21080 (b) (1); 15268)
- Declared Emergency (Sec. 21080 (b) (3); 15269(a))
- Emergency Project (Sec. 21080 (B) (4); 15269(b) (c))
- Categorical Exemption: Information Collection (Sec. 15306)
- Statutory Exemption (Sec. 15282(l))

Reason(s) why project is exempt: The Project will not involve constructing any physical infrastructure. The Project will only entail information gathering, and planning.

COUNTYWIDE SIDEWALK CONNECTIVITY PLAN

Project Description

Project Location:

Unincorporated San Joaquin County. **See attached Vicinity Map.**

Project Justification:

The Countywide Sidewalk Connectivity Plan (Plan) will recommend sidewalk improvements based on the creation of a comprehensive database of sidewalk coverage at targeted locations throughout unincorporated San Joaquin County (County), and community outreach. The Plan will also assess and track the condition and Americans with Disabilities Act (ADA) compliance of the existing sidewalk infrastructure. Ultimately the goal is to analyze present existing conditions of over 325 miles of roadway in the unincorporated County and recommend improvements to increase connectivity, accessibility, and safety of the sidewalk network.

The Plan will provide the foundation needed for further efforts to increase active transportation and mode shift, therefore, reducing air pollution and improving community health. The development of pedestrian facilities is a social equity effort in itself, as it improves the quality of life by supporting lower-cost transportation modes in comparison to owning and operating a vehicle. A key component of this Plan includes robust community engagement through a variety of public outreach methods such as public meetings, open houses at local community centers, working with elementary and middle schools in the area, ongoing discussions with Walkability Work Group, project website, and surveys. The primary goals of public outreach include inter-agency coordination and involvement, reaching disadvantaged/low-income communities across San Joaquin County, and facilitating community consensus building.

Scope of Work:

The project will consist of:

1. Developing goals based on existing documents and new initiatives, as well as developing objectives (measures of effectiveness), and policies (action statements).
2. Conducting public meetings to seek input on existing pedestrian facilities and provide information on the planning process. Subsequent meetings will present findings and recommendations for feedback.
3. Distributing media releases for each of these meetings to individuals and groups identified by the Project team.
4. Compiling existing sidewalk information, such as presence of sidewalk, sidewalk conditions, measurements, and ADA compliance. Additional data may be collected based on public feedback.
5. Developing a database that is simple and efficient for data collection efforts, while also comprehensive in including all required attributes. The database will be compatible with ESRI-based GIS.
6. Utilizing aerial photography to measure the sidewalks and take note of sidewalk information such as presence of sidewalk, sidewalk conditions, and ADA compliance.
7. Recording the location of existing curb-cuts/ramps, obstructions along the sidewalk segments, and availability of on-street parking along each roadway segment.
8. Creating an ArcGIS Online database to display the data spatially.

COUNTYWIDE SIDEWALK CONNECTIVITY PLAN

Project Description

9. Developing and refining the methodology to prioritize sidewalk gap improvements. Sidewalk gap analysis will consider gap length ratio, connectivity value, and disadvantaged score.
10. Develop and refine the methodology to prioritize addressing ADA barriers, which will consider missing sidewalks, missing curb cut/ramps, and obstructions on sidewalks.

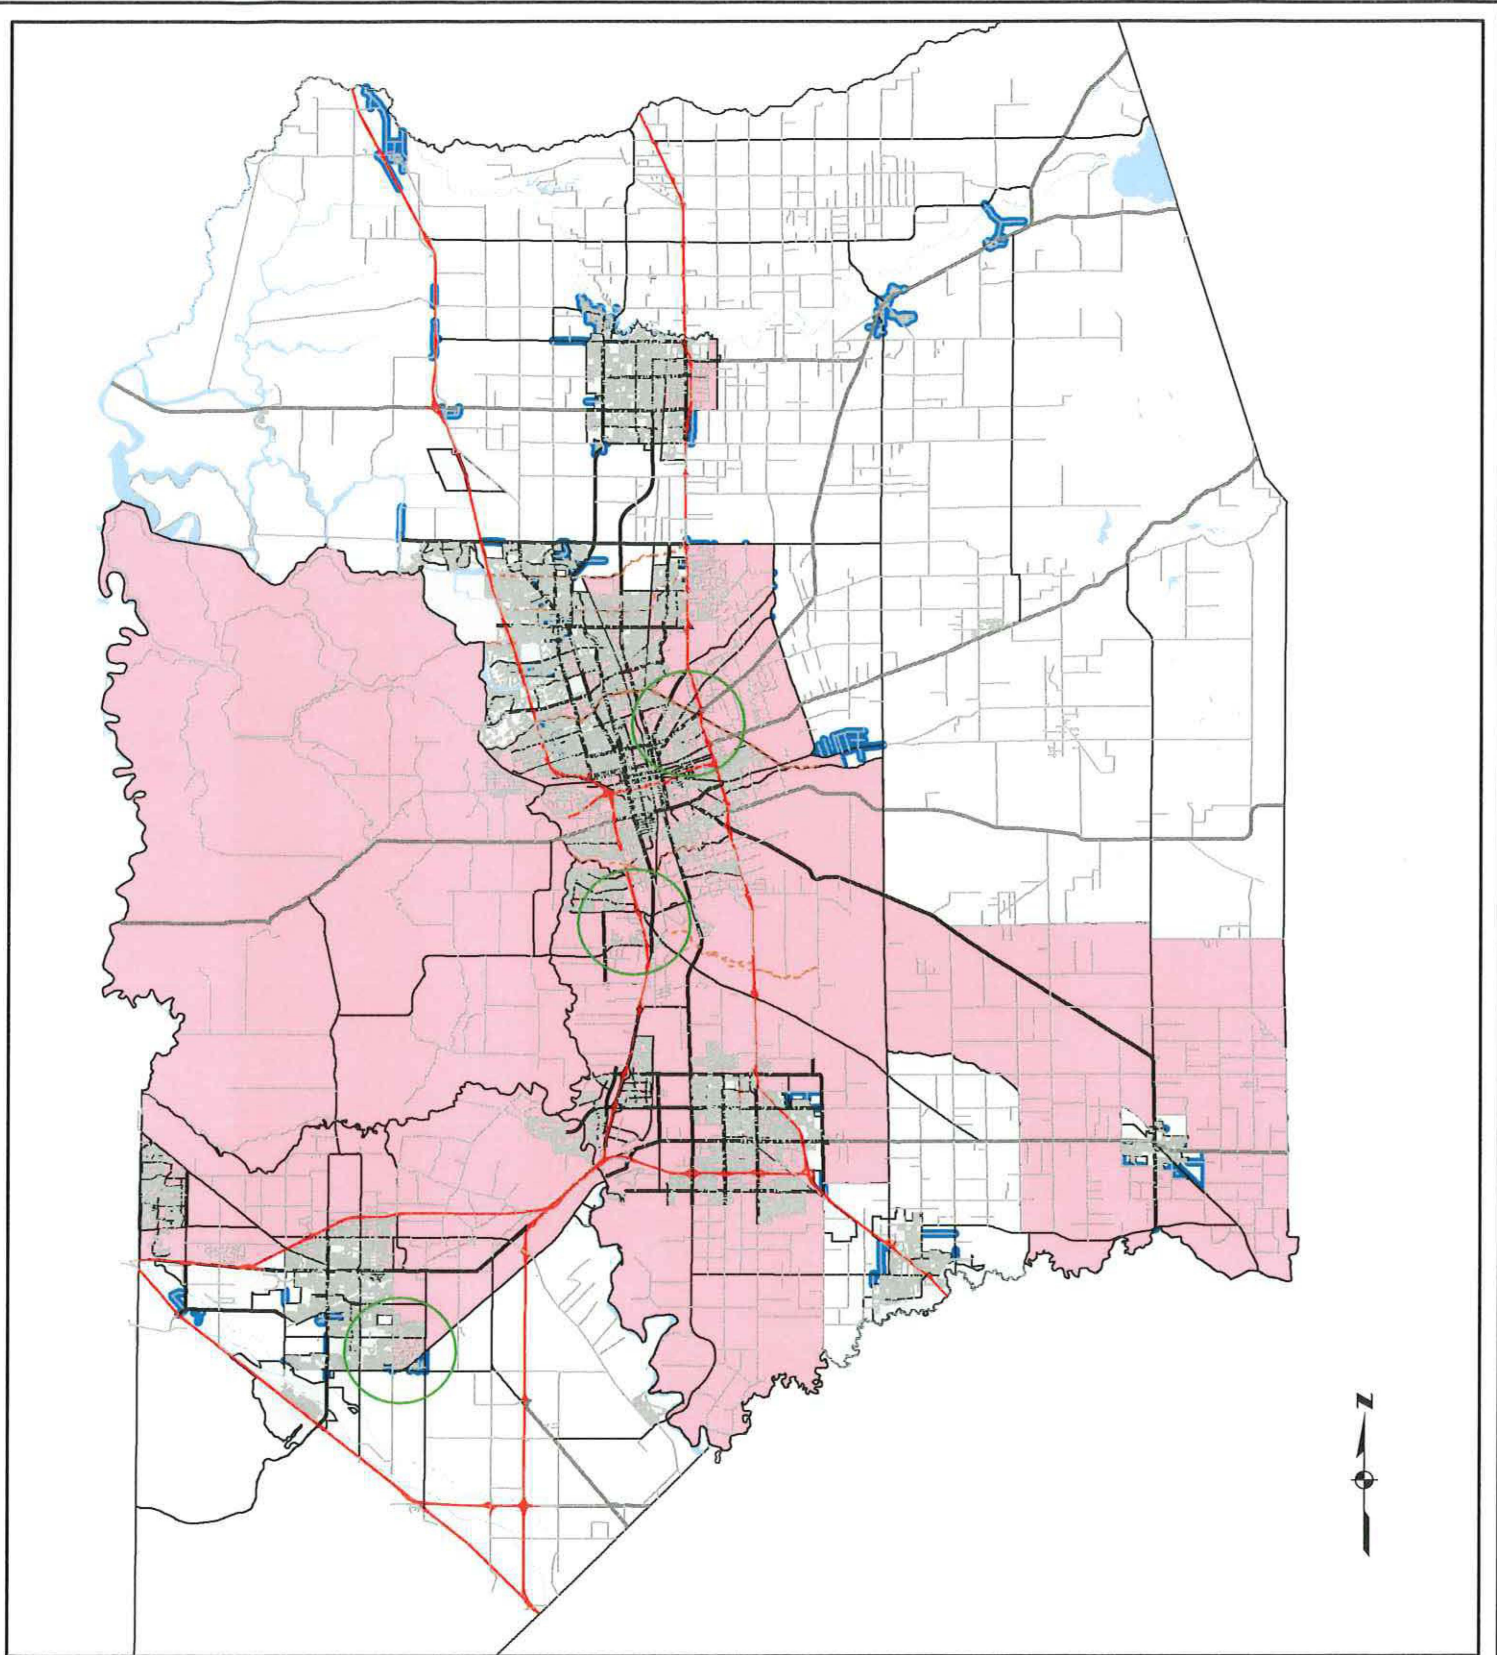

Environmental Setting:

Land usage varies throughout the unincorporated County.

There are many large trees adjacent to the project area. However, the Plan will only recommend sidewalks improvements. No physical infrastructure will be constructed during the project's lifespan. Projects identified within the plan will undergo environmental clearance once the County decides to move forward. As such, no pre-construction survey is needed.

Beneficiaries:

The public will see increased proactivity in reducing gaps in sidewalk infrastructure.
