Notice of Exemption

To: Riverside County Clerk
2724 Gateway Drive
Riverside, CA 92507

Project Title: HWFP Bollfilter Replacement
Project Location: Hemet Water Filtration Plant – 1283 N. Kirby Street
City: Hemet
County: Riverside

Description of Nature, Purpose, and Beneficiaries of Project:

Eastern Municipal Water District (EMWD) owns and operates the Hemet Water Filtration Plant (HWFP). The HWFP uses ultrafiltration membrane technology to treat unfiltered water from the Stat Water Project. Automatic Self-Cleaning Strainer Filters (Bollfilters) are part of the pretreatment process. The Bollfilters remove particulates from the raw water, safeguarding downstream processes and protecting the membranes from abrasion. The existing Bollfilters were installed in 2005 and are nearing the end of their useful life.

The HWFP Bollfilter Replacement Project (project) involves the installation of new Bollfilter units, installation of adjoining piping and associated components; in addition to any demolition, electrical, mechanical, and structural work needed to ensure the Bollfilters are fully operational and seamlessly integrated within the existing treatment facility.

Public Agency Approving and Carrying Out Project: Eastern Municipal Water District

Exempt Status:

Categorical Exemption. 15301(b)

Reasons why project is exempt:

This class of exemption covers repair, maintenance, or minor alteration of existing public structures, facilities, or mechanical equipment, involving negligible or no expansion of existing or former use. This project includes the replacement of Bollfilter units, installation of adjoining pipe and associated components within an existing water treatment facility, and will not result in expansion of the facility.
