

# Summary Form for Electronic Document Submittal

**Form F**

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Port of Los Angeles and Port of Long Beach Goods Movement Workforce Training Facility

Lead Agency: Los Angeles Harbor Department

Contact Name: Nicole Enciso

Email: NEnciso@portla.org Phone Number: (310) 732-3615

Project Location: Los Angeles Los Angeles  
*City* *County*

Project Description (Proposed actions, location, and/or consequences).

The Proposed Project would include the construction and operation of a training facility for current and future workers in the maritime and goods movement industries at the Ports of Los Angeles and Long Beach. The Proposed Project's construction would include site preparation such as grading, compacting, and paving as well as the construction of buildings, utilities, and accessory structures to support workforce training activities. The Proposed Project's operations would include providing skilled training programs that would replicate port goods movement environments such as the use and operation of ship-to-shore cranes, transtainers, top handlers, side picks, forklifts, and heavy lifts, while providing a safe training environment for workers. The Pacific Maritime Association and International Longshore and Warehouse Union would participate in the Proposed Project as a workforce training facility to educate the current and future workforce on maritime and goods movement industries that serve the San Pedro Bay Port Complex (Port of Los Angeles and Port of Long Beach, collectively). LAHD would enter into a long-term entitlement at the Proposed Project site with a training facility operator to be identified in the future.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The Proposed Project would have potentially significant impacts on Air Quality, Biological Resources, Cultural Resources, Greenhouse Gas Emissions, Hazards and Hazardous Materials, Land Use Planning, Noise, and Transportation. These issues will be evaluated in greater detail in the Environmental Impact Report, and appropriate mitigation measures will be proposed to reduce or avoid potentially significant impacts, as feasible.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

The Proposed Project has no known areas of controversy or issues raised by agencies or the public at this time.

Provide a list of the responsible or trustee agencies for the project.
