State type and section number: Section 15301 Existing Facilities and Section 15303 Small Structures
- Statutory Exemption.
State code number:

Reasons why project is exempt:

Section 15301 Existing Facilities (Class 1): The Class 1 Categorical Exemption consists of the operation, repair, maintenance, permitting, leasing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of existing or former use. The project involves the installation of an electric charging station, a new concrete pad, and associated equipment to an existing facility involving no expansion of existing or former use.

Section 15303(d) New Construction or Conversion of Small Structures (Class 3): The Class 3 Categorical Exemption consists of construction and location of limited numbers of new, small facilities or structures; installation of small new equipment and facilities in small structures; and the conversion of existing small structures from one use to another where only minor modifications are made in the exterior of the structure. The project involves the installation of an electric charging station, concrete pad, and associated equipment.

The Port has determined that none of the exceptions to the exemptions in the California Environmental Quality Act (CEQA) Guidelines Section 15300.2 foreclose the use of the categorical exemption CEQA Guidelines Section 15301 (Existing Facilities) and 15303 (Small Structures); therefore the Project is exempt from CEQA and no further environmental review is required.
