NOTICE OF EXEMPTION

Dean C. Logan, Registrar - Recorder/County Clerk

Electronically signed by TAMYRA MORILLO

THIS NOTICE WAS POSTED

ON February 20 2024

UNTIL March 21 2024

REGISTRAR - RECORDER/COUNTY CLERK

To: County Clerk and Registrar-Recorder
County of Los Angeles
12400 Imperial Highway
Norwalk, CA 90650

From: LAUSD OEHS
333 S. Beaudry Avenue
21st Floor
Los Angeles, CA 90017

Project Title:

New Shade Structures at Two Los Angeles Unified Campuses

Project Location - Specific:

- Lanai Road Elementary School (Lanai Road ES). 4241 Lanai Road, Encino, CA 91436
- Sherman Oaks Elementary Charter (Sherman Oaks EC). 14755 Greenleaf Street, Sherman Oaks, CA 91403

Project Location - City:

Los Angeles

Project Location - County:

Los Angeles

Description of Nature, Purpose, and Beneficiaries of Project:

The scope of the project consists of the installation of new freestanding shade structures and minor site work to comply with the American with Disabilities Act (ADA) and implemented at two Los Angeles Unified School District (Los Angeles Unified or District) elementary school campus: Lanai Road ES and Sherman Oaks EC (Project).

At Lanai Road ES, the Project consists of the installation of three 20' x 30' cantilever shade structures that are approximately 14 feet high (Exhibit A). The Project will also include minor site work associated with ADA upgrades such as installing new drinking fountain and new pedestrian gates.

At Sherman Oaks EC, the Project consists of the installation of a 40' x 30' fabric shade structure approximately 17'-8" high and a 2,000-square-foot play structure matting area (Exhibit B). The Project will also include minor site work associated with ADA upgrades such as installing new drinking fountain, a few door hardware, and modified existing ramp railing.

333 South Beaudry Avenue, 21st Floor, Los Angeles, CA 90017 • Telephone (213) 241-3199 • Fax (213) 241-6816

Our Mission: To ensure a safe and healthy environment for students to learn, teachers to teach, and employees to work.

Our Vision: To eliminate all environmental health and safety risks at schools.

The Los Angeles Unified Board of Education approved the Project budget of \$1,444,633 at Sherman Oaks EC on June 14, 2022, while the Project at Lanai Road ES is funded by the Lanai Community Parent Club.

The Project will be implemented pursuant to all applicable State, federal, and local regulations and all applicable District specifications, standards, and/or guidelines, including those in compliance with the California Environmental Quality Act (CEQA) and the updated Standard Conditions of Approval for District Construction, Upgrade, and Improvements Projects (SC)¹ as adopted by the Board of Education on December 12, 2023. District SCs, design guidelines, and best management practices are designed to be incorporated into the Project design in order to avoid or limit potential adverse impacts associated with the District's projects. The beneficiaries of this Project are the students, faculty, staff, families, school supporters, and the community at large who may request access to the facilities and grounds of these elementary school campuses pursuant to the Civic Center act (CA Ed. Code Sections 38130-38139).

Name of Public Agency Approving the Project:

Los Angeles Unified School District

Name of Person or Agency Carrying Out Project:

Los Angeles Unified School District

Exempt Status: (check one below)

- Ministerial [Public Resources Code (PRC) Section 21080(b)(1); CEQA Guidelines Section 15268²]:
- Declared Emergency [PRC Section 21080(b)(3); CEQA Guidelines Section 15269(a)]:
- Emergency Project [PRC Section 21080(b)(4); CEQA Guidelines Section 15269(b)(c)]:
- Categorical Exemption (PRC Section 21084; CEQA Guidelines Sections 15300 -15333):
 - *CEQA Guidelines Section 15301 – Existing Facilities*
 - *CEQA Guidelines Section 15303 – New Construction Minor Alterations*
 - *CEQA Guidelines Section 15311 – Accessory Structures*
- Statutory Exemption:

Reasons why project is exempt:

Section 15301 Existing Facilities

Class 1 consists of the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features involving negligible or no expansion of use beyond that existing at the time of the lead agency's determination.

The Project consists of the installation of new freestanding shade structures and minor site work to comply with the American with Disabilities Act (ADA) and implemented on each elementary school campus. The Project will not generate growth or require the addition or construction of new or expanded facilities. Therefore, the Project fulfills the requirements of CEQA Guidelines Section 15301.

¹ LAUSD OEHS, "Standard Conditions of Approval for District Construction, Upgrade, and Improvements Projects," available at https://www.lausd.org/cms/lib/CA01000043/Centricity/domain/135/ceqa/2023_Standard_Conditions_UPDATE_Final.pdf

² CEQA Guidelines can be found at California Code of Regulations Title 14, Chapter 3, Section 15000 - Section 15387.

Section 15303 - New Construction or Conversion of Small Structures

Class 3 consists of construction and location of limited numbers of new, small facilities or structures; installation of small new equipment and facilities in small structures; and the conversion of existing small structures from one use to another where only minor modifications are made in the exterior of the structure.

The Project consists of the installation of new freestanding shade structures and minor site work to comply with the American with Disabilities Act (ADA) and implemented on each elementary school campus. The shade structures qualify as new, small facilities or structures. Therefore, the Project fulfills the requirements of CEQA Guidelines Section 15303.

Section 15311 – Accessory Structures

Class 11 consists of construction or replacement of minor structures accessory to (appurtenant to) existing commercial, industrial, or institutional facilities, including, but not limited to, on-premise signs and small parking lots.

The Project consists of the installation of new freestanding shade structures and minor site work to comply with the American with Disabilities Act (ADA) and implemented on each elementary school campus. These structures are minor accessories to an existing school campus. Therefore, the Project satisfies the requirements of CEQA Guidelines Section 15311.

Section 15300.2 – Exceptions

Section 15300.2 of the CEQA Guidelines, Exceptions, provides conditions under which categorical exemptions are inapplicable. Review of the Project indicates that it will not violate any of the exceptions, as described in the following section.

1. *The project will occur in certain specified sensitive environments or locations;*

The Project will occur on existing elementary school campuses that are located within suburban settings.³ The surrounding uses are primarily residential and institutional. The Campuses have not been designated as a biologically sensitive site or location and do not contain sensitive resources or habitat that will be impacted by the Project. The nearest significant ecological area (SEA) to each campus is the Santa Monica Mountains, which is approximately 0.8 miles west of Lanai Road ES Campus.⁴ The nearest critical habitat is designated as such for the Braunton's milk-vetch and is located approximately 2.3 miles southwest of Lanai Road ES Campus.⁵ As such, the Project will not impact sensitive environments or locations.

2. *Cumulative impacts will be considerable because successive projects of the same type would occur at the same place over time;*

The Project will not be expected to result in significant cumulative environmental impacts. As active school campuses, it is anticipated that projects such as maintenance activities or upgrades will occur in the future. However, there are currently no known successive projects of the same

type or scale planned for each campus. As it stands, the Project will not result in potentially significant impacts. Therefore, no cumulative impacts will result from the Project and successive projects of the same type and at the same place over time.

3. *There is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances;*

There are no known unusual circumstances that would have a significant effect on the environment. There will be minor ground-disturbing activities associated with the installation of the new shade structures and other Project components. These activities are not considered unusual circumstances for the classes of projects under which an exemption is claimed. Nevertheless, consideration must be given to the management of pavement removal and excavated soils associated with earthwork activities for the Project. If more than 50 cubic yards of soil will be disturbed, then Rule 1466 soil sampling will be required. Prior to any import or export of soils and materials, OEHS must be notified to provide oversight to ensure that these activities are conducted in compliance with the requirements of District Specification 01 4524, relevant provisions of South Coast Air Quality Management District Rule 1466, and other applicable environmental agency rules and requirements.⁶ Furthermore, as set forth in SC-CUL-7, SC-CUL-9, SC-CUL-10, and SC-CUL-11 of the Standard Conditions of Approval for District Construction, Upgrade, and Improvements Projects as adopted by the Board of Education on December 12, 2023,⁷ and in District protocols, construction activities must be stopped immediately and OEHS notified upon discovery of subsurface features, such as buried resources (i.e., paleontological resources, archaeological resources), tanks or seepage pits, or stained/odoriferous soils.⁸ Lastly, any construction and demolition waste shall be recycled to the maximum extent feasible per SC-USS-1.⁹ Therefore, the Project will not have a significant effect on the environment due to unusual circumstances.

4. *The project may result in damage to scenic resources, including but not limited to trees, historic buildings, rock outcroppings, or similar resources within a highway officially designated as a state scenic highway;*

The closest designated state scenic highway to any one of the Project sites is the Topanga Canyon State Scenic Highway, a 2.5-mile portion of State Route 27 (SR-27), which is located approximately 7.5 miles southwest of Lanai Road ES.¹⁰ Therefore, the Project will not result in damage to scenic resources or similar resources within a highway that is officially designated as a scenic highway.

5. *The project is located on a site which is included on any list compiled pursuant to Section 65962.5 of the Government Code; or*

Dean C. Logan, Registrar - Recorder/County Clerk

Electronically signed by TAMMYRA MORILLO

The Project will occur on existing school campuses which are not included on any list compiled pursuant to Section 65962.5 of the Government Code.¹¹ Therefore, the Project will not have an impact related to being located on a hazardous waste site.

6. *The project may cause a substantial adverse change in the significance of a historic resource.*

Lanai Road ES and Sherman Oaks EC are over 45 years old, meeting the District's threshold for review as a potential historic resource and requiring evaluation for historic eligibility. Both campuses have been evaluated by the District's Historic Preservation Specialist and found ineligible for listing on the National Register of Historical Places (NRHP) or the California Register of Historical Resources (CRHR). Therefore, the Project will not cause a substantial adverse change in the significance of a historical resource.
