## Office of Environmental Health and Safety

ALBERTO M. CARVALHO  
Superintendent of Schools

CARLOS A. TORRES  
Director, Environmental Health and Safety

JENNIFER FLORES  
Deputy Director, Environmental Health and Safety

### NOTICE OF EXEMPTION

To:  
County Clerk and Registrar-Recorder  
County of Los Angeles  
12400 Imperial Highway  
Norwalk, CA 90650

From:  
LAUSD OEHS  
333 S. Beaudry Avenue  
21st Floor  
Los Angeles, CA 90017

#### Project Title:

Wilmington Middle School Campus Greening Project

#### Project Location – Specific:

The Wilmington Middle School Campus Greening Project (Project) will be located on the approximately 15.5-acre Wilmington Middle School campus (Wilmington MS or Campus). The Campus is located at 1700 Gulf Avenue in the City of Los Angeles. It is bound by East Lomita Boulevard to the north, Bay View Avenue to the east, West R Street to the south, and Gulf Avenue to the west. The Project will occur on the northern portion of campus. The Campus is located in an urbanized community primarily consisting of commercial uses, multi-family, and single-family residences.

#### Project Location – City:

Los Angeles

#### Project Location – County:

Los Angeles

#### Description of Nature, Purpose, and Beneficiaries of Project:

The Project will provide new outdoor classrooms, a new reading garden, a new habitat garden, and plant new trees (Figure 1). The scope also includes, but is not limited to, the following: excavation of asphalt paving and gravel; soil removal; construction of new decomposed granite paths and gathering areas; new interlocking concrete pavers; new log benches and stools; and the installation of low volume irrigation systems. The community partner proposing the Project, TreePeople, Inc, was awarded a grant in the amount of \$2,269,526 provided by the State of California Natural Resources Agency/California Ocean Protection Council. The grant will fund all of the Project's costs.

333 South Beaudry Avenue, 21<sup>st</sup> Floor, Los Angeles, CA 90017 • Telephone (213) 241-3199 • Fax (213) 241-6816

*Our Mission: To ensure a safe and healthy environment for students to learn, teachers to teach, and employees to work.*

*Our Vision: To eliminate all environmental health and safety risks at schools.*

The Project will be implemented pursuant to all applicable State, federal, and local regulations, and all applicable LAUSD specifications, standards, and/or guidelines, including those in compliance with the California Environmental Quality Act (CEQA) and the updated Standard Conditions of Approval for District Construction, Upgrade, and Improvements Projects (SCs) as adopted by the Board of Education in December 2023.<sup>1</sup> LAUSD's SCs, design guidelines, and best management practices are designed to be incorporated into the Project design in order to avoid or limit potential adverse impacts associated with the District's projects.

The beneficiaries of this Project are the Wilmington MS students, faculty, staff, families, school supporters, and the community at large who may request access to the facilities and grounds of the Campus pursuant to the Civic Center Act (CA Ed. Code Sections 38130 - 38139).

**Name of Public Agency Approving the Project:**

Los Angeles Unified School District

---

**Name of Person or Agency Carrying Out Project:**

Los Angeles Unified School District

---

**Exempt Status: (check one below)**

- Ministerial [Public Resources Code (PRC) Section 21080(b)(1); CEQA Guidelines Section 15268<sup>2</sup>]:
- Declared Emergency [PRC Section 21080(b)(3); CEQA Guidelines Section 15269(a)]:
- Emergency Project [PRC Section 21080(b)(4); CEQA Guidelines Section 15269(b)(c)]:
- Categorical Exemption (PRC Section 21084; CEQA Guidelines Sections 15300 -15333):
  - *CEQA Guidelines Section 15301 – Existing Facilities*
  - *CEQA Guidelines Section 15303 – New Construction or Conversion of Small Structures*
  - *CEQA Guidelines Section 15304 – Minor Alterations to Land*
- Statutory Exemption:

**Reasons why project is exempt:**

Section 15301 Existing Facilities

Class 1 consists of the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that existing at the time of the lead agency's determination.

The installation of the new outdoor classrooms, a new reading garden, and a new habitat garden are within existing outdoor areas on Campus and would constitute operation, repair, maintenance, and minor alteration of existing public structures involving no expansion of the facilities' use.

The proposed Project components would involve minor alterations to an existing Campus and would occur within the area occupied by existing facilities at the Project site. The Project components would not present a new or expanded use of the Project site. Therefore, the Project constitutes minor alterations to an existing school site that result in no expansion of use and meets the requirements of CEQA Guidelines Section 15301.

---

<sup>1</sup> LAUSD OEHS, "Standard Conditions of Approval for District Construction, Upgrade, and Improvements Projects," Adopted by the Board of Education on December 12, 2023.

<sup>2</sup> CEQA Guidelines can be found at California Code of Regulations Title 14, Chapter 3, Section 15000 - Section 15387.

Section 15303 New Construction or Conversion of Small Structures

Class 3 consists of construction and location of limited numbers of new, small facilities or structures; installation of small new equipment and facilities in small structures; and the conversion of existing small structures from one use to another where only minor modifications are made to the structure.

The installation of the new outdoor classrooms, a new reading garden, and a new habitat garden are within existing outdoor areas on Campus and would constitute operation, repair, maintenance and minor alteration of an existing campus involving no expansion in enrollment or of the facilities' use. Therefore, the Project satisfies the requirements of CEQA Guidelines Section 15303.

Section 15304 – Minor Alterations to Land

Class 4 consists of minor public or private alterations in the condition of land, water, and/or vegetation which do not involve removal of healthy, mature, scenic trees except for forestry or agricultural purposes.

The Project includes the installation of new outdoor classrooms, a new reading garden, a new habitat garden and planting of new trees across Campus. The Project will not remove healthy, mature, or scenic trees. Therefore, the Project fulfills the requirements of CEQA Guidelines Section 15304.

Section 15300.2 – Exceptions

Section 15300.2 of the CEQA Guidelines, Exceptions, provides conditions under which categorical exemptions are inapplicable. Review of the Project indicates that they would not violate any of the exceptions, as described below.

1. *The project would occur in certain specified sensitive environments or locations;*

The Project site is a fully developed campus within urbanized communities.<sup>3</sup> The Project site is not designated as a biologically sensitive site or location and does not contain sensitive resources or habitat that will be impacted by the Project. The Project will be contained exclusively within the boundaries of the Campus. The nearest Significant Ecological Area is the Harbor Lake Regional Park located approximately 0.75 miles southwest of Wilmington MS.<sup>4,5</sup> As such, the Project will not impact sensitive environments or locations.

2. *Cumulative impacts would be considerable because successive projects of the same type would occur at the same place over time;*

The Campus is an active school site and there will likely be ongoing maintenance activities and minor projects on the Campus to keep the schools operational. As the Project will not result in any lasting adverse impacts once construction of the Project is complete, the Project would not contribute to cumulative impacts when considered with expected successive projects.

3. *There is a reasonable possibility that the activity would have a significant effect on the environment due to unusual circumstances.*

<sup>3</sup> City of Los Angeles Planning Department, *Zoning and Information Management System*, <http://zimas.lacity.org/>, accessed January 2024.

<sup>4</sup> United States Fish and Wildlife Service Critical Habitat Portal, <https://ecos.fws.gov/ecp/report/table/critical-habitat.html> accessed January 2024.

<sup>5</sup> Los Angeles County Department of Regional Planning, [http://gis.planning.lacounty.gov/GIS-NET3\\_Public/Viewer.html](http://gis.planning.lacounty.gov/GIS-NET3_Public/Viewer.html), accessed January 2024.

There are no known unusual circumstances that would have a significant effect on the environment. The removal of trees is not anticipated as part of the proposed scope of work. However, should the Project be altered to include the removal of trees, LAUSD's Office of Environmental Health & Safety (OEHS) must be notified immediately. District policy requires consultation with an arborist to determine if the trees are a protected native species. Additionally, written approval from the school principal will be required before any trees can be removed. If tree removal is scheduled to occur between February 1 and August 31, a nesting bird survey would be performed prior to removal activities, per Standard Condition of Approval (SC) SC-BIO-3 of the Subsequent Program Environmental Impact Report (SPEIR).<sup>6,7</sup>

The Project may include minor ground-disturbing activities. These activities are not considered unusual circumstances for the classes of projects under which an exemption is claimed. Nevertheless, consideration must be given to the management of pavement removal and excavated soils associated with earthwork activities for the Project. As the Project involves the removal of pavement, soil sampling and testing for characterization is required prior to demolition and removal of the paving materials. If construction or earthmoving activities require import or export of soils and materials, OEHS must be notified to provide oversight to ensure that these activities are conducted in compliance with the requirements of District Specification 01 4524, relevant provisions of South Coast Air Quality Management District Rule 1466, and other applicable environmental agency rules and requirements.<sup>8</sup> Furthermore, as set forth in SC-CUL-6, SC-CUL-7, SC-CUL-9, SC-CUL-10, and SC-GEO-2 of the SPEIR, construction activities must be stopped immediately and OEHS notified upon discovery of subsurface features, such as buried resources (i.e., paleontological resources, archaeological resources), tanks or seepage pits, or stained/odoriferous soils.<sup>9</sup> Lastly, any construction and demolition waste shall be recycled to the maximum extent feasible per SC-USS-1 of the SPEIR.<sup>10</sup> Therefore, the Project will not have a significant effect on the environment due to unusual circumstances.

4. *The project may result in damage to scenic resources, including but not limited to trees, historic buildings, rock outcroppings, or similar resources within a highway officially designated as a state scenic highway;*

The closest designated state scenic highway to the Project site is State Route 27 (SR 27), which is located approximately 25 miles northwest of Wilmington MS.<sup>11</sup> The Project will not be visible from SR 27. Therefore, the Project would not result in damage to scenic resources or similar resources within a highway officially designated as a State scenic highway.

5. *The project is located on a site which is included on any list compiled pursuant to Section 65962.5 of the Government Code; or*

The Project is not located on a site included on any list compiled pursuant to Section 65962.5 of the Government Code.<sup>12</sup> Therefore, the Project will have no impacts related to being located on a hazardous waste site.

6. *The project may cause a substantial adverse change in the significance of a historical resource.*

Wilmington MS is over 45 years old, meeting LAUSD’s threshold for review as a potential historic resource and requiring evaluation for historic eligibility. LAUSD’s Historic Preservation Specialist has identified Wilmington MS as not eligible for federal, State, or local listing under any of the applicable criteria and is therefore not considered a historical resource pursuant to CEQA. Therefore, the Project will not cause a substantial adverse change in the significance of a historical resource.
