PROJECT TITLE: Main Street Yard Storm Drain Sediment Cleanup Project

PROJECT LOCATION:

1630 N. Main St.
Los Angeles, CA 90012

CITY:

Los Angeles

COUNTY:

Los Angeles

DESCRIPTION OF NATURE, PURPOSE, AND BENEFICIARIES OF PROJECT:

The project proposed to address contaminated soil within the Main Street Yard storm drain system, necessitating the removal of sediment buildup up to the discharge point into the Los Angeles River and connections to stormwater pipes. A cleanup plan has been formulated that entails utilizing high-pressure water jets and towable vacuum units to extract the sediment from the storm drain system and collect the wastewater and sediment mixture with a towable vacuum unit. The wastewater will be separated into solids and liquids and disposed of at an appropriate disposal facility permitted to dispose of hazardous waste. Project activities include implementing best management practices to prevent discharge into catch basins and channels, with secondary containment and towable vacuum trucks stationed to address any uncontained wastewater.

EXEMPT STATUS:

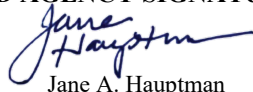

Categorical Exemption

SECTION:

15301(b)(d) and 15330(b)(5)

JUSTIFICATION FOR PROJECT EXEMPTION: In accordance with the California Environmental Quality Act (CEQA), this project is Categorical Exempt pursuant to section 15301 (Existing Facilities) and 15330 (Minor Actions to Prevent, Minimize, Stabilize, Mitigate or Eliminate the Release or Threat of Release of Hazardous Waste or Hazardous Substances. Section 15301, Class 1 consists of the maintenance of existing public facilities involving negligible or no expansion of existing or former use. Examples include but are not limited to (b) existing facilities of publicly owned facilities and (d) restoration or rehabilitation of deteriorated or damaged structures, or facilities to meet current standards of public health and safety. Section 15330, Class 30 consists of any minor cleanup actions taken to prevent, minimize, stabilize, mitigate, or eliminate the release or threat of release of a hazardous waste or substance which are small or medium removal actions costing \$1 million or less and including "excavation and/or offsite disposal of contaminated soils or sludges in regulated units;"
