**RE: REPORT OF AGRICULTURAL CROPS ON 8.72 ACRE PROPERTY AT 23682 WATER STREET,
PERRIS, CALIFORNIA 92570**

Dear Ms. Jones:

Waterstone Environmental, Inc. (Waterstone), has completed the review of historical aerial photographs of the above referenced property and has determined the agricultural crops on the property as follows:

2016 - Grass or native vegetation	2012- Grass or native vegetation
2009- Grass or native vegetation	2006- Grass or native vegetation
2002- Grass or native vegetation	1996- Grass or native vegetation
1994- Grass or native vegetation	1990- Grass or native vegetation
1989- Grass or native vegetation	1985- Grass or native vegetation
1978- Grass or native vegetation	1974- Grass or native vegetation
1967-Grass or hay	1961-Grass or hay
1953-Grass or hay	1949-Grass or hay
1938-Grass or hay	

Based on the land use being native vegetation or grass from at least 1974 to present, and grass or hay from 1938 to 1967, use of agricultural pesticides on the property is expected to be very minimal and residual levels of pesticides are not expected to be present at the property at any appreciable levels or in excess of any levels of concern.

If you have any questions regarding this report, please feel free to call me at (714) 414-1122 or my cellphone at 714-615-0585.

Respectfully submitted,

Richard A. Vogl, PG, CHG, CEG
Principal Hydrogeologist
