**Subject:** EIR Response - SCH 2024020937

Good afternoon,

The California Highway Patrol's Marin Area has reviewed the Environmental documents submitted by Caltrans District 4 for the US-101 Corte Madera Creek Bridge Rehabilitation Project (SCH #2024020937). As is the case with any State Highway related construction project, we anticipate there will be an impact to CHP operations with response times through the construction area and due to the proposed detour. There is nothing in the project description that stands out as impacting traffic safety, congestion, or public safety beyond the traffic delays predicted in the Environmental documents.

CHP-Marine requests all anticipated project related transportation issues be communicated to our office well in advance. The advanced notification will allow us to adjust operations accordingly and maintain our ability to provide the highest level of safety, service, and security to the public. Please let me know if you have any questions.

Thank you, Erik

Erik J. Egide, Lieutenant  
California Highway Patrol, Marin Area  
53 San Clemente Drive
