Present Land Use/Zoning/General Plan Designation:

Transportation/None/None

Project Description: *(please use a separate page if necessary)*

The California Department of Transportation (Caltrans) proposes to rehabilitate the pavement wear course and 16 drainage culverts on the four-lane divided expressway within a 12.8-mile-long section of U.S. 101 in Monterey County from just south of the Jolon Road intersection near Bradley to the intersection with Paris Valley Road/Cattlemen Road near San Ardo. Improvements would be made through various ways, including diamond grinding, concrete panel replacement, cold planing, asphalt overlay, dig outs, cut and cover, and pipe jacking. Within the project limits, the project would also replace non-standard metal beam guardrail and end treatments, replace sign panels that do not use the Type XI reflective backing, install 14 traffic count stations, install one vehicular detection system, place vegetation-control crushed shale, and construct shoulder backing, where possible.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
