Project Description and Location

The San Francisco Municipal Transportation Agency (SFMTA) proposes to make pedestrian safety improvements on Franklin Street between Broadway and Lombard Street, as part of the Franklin Street Quick-Build Project. The project would include the following improvements: no right turn on red for northbound and westbound movements at three intersections (Franklin Street at Broadway, Green and Union streets), advance limit lines and continental crosswalks, painted safety zones and slow-turn wedges, daylighting red zones at select intersections, and new 20-foot double-yellow centerlines at select intersection approaches. The painted safety zones, slow-turn wedges, and daylighting would slow turning vehicles and increase the visibility and safety of people walking in the crosswalks. The new 20-foot double-yellow centerlines would prevent vehicles from turning into the lane of

oncoming cars or bikes. Up to 6 on-street parking spaces would be removed to implement the project. No excavation is required.

Determination

The City and County of San Francisco decided to carry out or approve the project on December 9, 2022, when the City Traffic Engineer signed Streets Division Directive Order No. 6607. The approval action date for the purpose of Administrative Code Chapter 31 occurred December 15, 2022, when the Planning Department posted the approval date on the Planning Department’s website. The project was officially approved on January 17, 2023, when no appeal of the statutory exemption was filed during the 30-day appeal period. A copy of the documents may be examined at the Planning Department, 49 South Van Ness Avenue, Suite 1400, San Francisco, CA, 94103 in file no. 2022-009704ENV.
