Public Notice is hereby given that a Subsequent Initial Study/Mitigated Negative Declaration (environmental report) for the Roseville Parkway Widening Project is available for public review.

Project Location and Description: The City of Roseville is proposing to widen sections of an approximate 1.5-mile segment of Roseville Parkway located generally between Pleasant Grove Boulevard, Gibson Drive, and Creekside Ridge Drive, consistent with the City's Transportation System Capital Improvement Program. The project consists of widening Roseville Parkway from three to four lanes in each direction by mainly widening into the existing auxiliary lanes, and constructing triple left-turn lanes on southbound Pleasant Grove Boulevard onto eastbound Roseville Parkway and on northbound Galleria Boulevard to westbound Roseville Parkway, along with minor widening along the west side of Galleria Boulevard north of Roseville Parkway. Other project improvements include traffic signal modifications along Roseville Parkway at Pleasant Grove Boulevard, Gibson Drive, West Drive, Reserve Drive, Galleria Boulevard, and Creekside Ridge Road, along with other changes such as installation of an auxiliary lane, relocation of Class II bike lanes, and modifications to the existing sidewalk, curb and gutter, landscaping, and relocation of some utilities.
