Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Twain Harte Community Services District Water Dis	tribution System Improvements Project
Lead Agency: Twain Harte Community Services District	
Contact Name: Tom Trott	
Email: _ttrott@twainhartecsd.com	Phone Number: (209) 586-3172
Project Location: Twain Harte Tuolumne Coun	
City	County
Project Description (Proposed actions, location, and/or consequen	ces).
The Twain Harte Community Services District (THCSD) proposes Zones 4 and 6 referred to as the Sherwood Distribution System in California (the Project) through pipeline replacement, upsizing, re through existing residential lots and the Twain Harte Shopping Ce 3,938± linear feet (If) of new six-inch pipeline, and removal and reproject proposes using State Water Resources Control Board	the community of Twain Harte, Tuolumne County, location into road ROWs and/or pipeline abandonment nter as detailed in Figures 2-3. The Project includes placement of 7,836± linear feet of existing pipeline.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Aesthetics - Oak preservation BMPs

SCH#:

Air Quality, Energy - limit idling engines, dust control, operate as per manuals

Biological - ESA fencing, preconstruction surveys, environmental sensitivity training, hours of construction, minimize spread of invasive species, avoid inadvertent trapping

Cultural / Tribal Cultural Resources- Stop work for unanticipated subsurface cultural resources or burials

Geological - geotechnical study for expansive soils

Hazards/Traffic - Traffic management plan to ensure emergency access

Water Quality - erosion control, SWPPP
