

# Phase I Environmental Site Assessment

REPORT DATE: June 5, 2023, Revised October 26, 2023

## PROPERTY INFORMATION:

1185-1247 W Sunset Boulevard and 917 N Everett Street  
Los Angeles, Los Angeles County, California 90026

## PROJECT INFORMATION:

AEI Project No. 479224  
Site Assessment Date: May 31, 2023

## PREPARED FOR:

Aragon Development  
1750 Glendale Boulevard Unit 102  
Los Angeles, California 90026

## PREPARED BY:

AEI Consultants - Corporate Headquarters  
2500 Camino Diablo  
Walnut Creek, California 94597

June 5, 2023, Revised October 26, 2023

Jeffrey Farrington  
Aragon Development  
1750 Glendale Boulevard Unit 102  
Los Angeles, California 90026

**Subject: Phase I Environmental Site Assessment**  
1185-1247 W Sunset Boulevard and 917 N Everett Street  
Los Angeles, California 90026  
AEI Project No. 479224

Dear Jeffrey Farrington:

AEI Consultants is pleased to provide the *Phase I Environmental Site Assessment* of the above referenced property. This assessment was authorized and performed in accordance with the scope of services engaged.

We appreciate the opportunity to provide services to you. If you have any questions concerning this report, or if we can assist you in any other matter, please contact me at (310) 798-4255 or [abennett@aeiconsultants.com](mailto:abennett@aeiconsultants.com).

Sincerely,

A handwritten signature in black ink, appearing to read "Adam Bennett", is written over a light blue circular background.

Adam Bennett  
Senior Vice President  
AEI Consultants

## PROJECT SUMMARY

## EXECUTIVE SUMMARY

AEI Consultants (AEI) was retained by Aragon Development to conduct a Phase I ESA in conformance with AEI's contract and the scope and limitations of ASTM Standard Practice E1527-21 and the EPA Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), for the property located at 1185-1247 W Sunset Boulevard and 917 N Everett Street, Los Angeles, Los Angeles County, California (the "subject property"). Any exceptions to, or deletions from, this practice are described in Sections 1.4, 1.5, and 1.6 of this report.

Pertinent subject property information is noted below:

Property Information	
Site Address(es)	1185-1247 W Sunset Boulevard and 917 N Everett Street, Los Angeles, Los Angeles County, California 90026
Property ID (APN or Block/Lot)	5406-016-003, 6, 7, 10, 11, 13, 16, 19, 21, 23, 28
Location	Bound by West Sunset Boulevard and Everett Street
Property Type	Vacant Land
Site and Building Information	
Approximate Site Acreage/Source	2.66/Client provided
Number of Buildings	N/A
Building Construction Date(s)/Source	N/A
Building Square Footage (SF)/Source	N/A
Number of Floors/Stories	N/A
Basement or Subgrade Area(s)	None identified
Number of Units	N/A
Additional Improvements	N/A
On-site Occupant(s)	N/A
Current On-site Operations/Use	Vacant land
Current Use of Hazardous Substances	None identified
Regulatory Information	
Regulatory Database Listing(s)	RCRA NONGEN/NLR (2), HAZMAT (2), FINDS (4), ECHO (2), EDR HIST AUTO (3), HWTS (3), HAZNET, CERS HAZ WASTE

A chronological summary of historical subject property information is as follows:

Date Range	Subject Property Description and Occupancy (Historical Addresses)	Source(s)
Prior to 1906	Unknown use/Data failure; refer to <a href="#">Section 1.6.1</a>	Aerial photographs, city directories, Sanborn fire insurance maps, agency records, previous reports, interviews, historical topographic maps, Newspapers.com
1906	Vacant land and residential buildings (1193, 1197, 1201, 1243 West Sunset Boulevard, 963 Everett Street)	Sanborn fire insurance map
1906-1946	Unknown use/Data failure for 1229 West Sunset Boulevard; refer to <a href="#">Section 1.6.1</a>	Aerial photographs, city directories, Sanborn fire insurance maps, agency records, previous reports, interviews, historical topographic maps, Newspapers.com
1946	Gas station (1229 West Sunset Boulevard)	Building permit

Date Range	Subject Property Description and Occupancy (Historical Addresses)	Source(s)
1925-2022	Residential buildings (until at least 2012); commercial/ industrial buildings used for printing (1950-1971), gas station (1925-1976), auto repair (1929-2013), chemical disinfectant manufacturing (1950-1954), sign painting (1950-1970), other industrial/manufacturing companies, retail  (1181, 1185, 1187, 1193, 1197, 1201, 1203, 1205, 1207, 1211, 1227, 1229, 1231, 1233, 1235, 1237, 1239, 1241, 1243, 1245 West Sunset Boulevard, 917 Everett Street)	Aerial photographs, city directories, Sanborn fire insurance maps, agency records, previous reports, interviews, historical topographic maps
2023	Vacant land (1185-1247 West Sunset Boulevard, 917 Everett Street)	Site visit

The immediately surrounding properties consist of the following:

Direction	Tenant/Use (Address)	Regulatory Database Listing(s)
North	Residences (1251 West Sunset Boulevard) Residence (1063 West Mayflower Court)	None identified
East	Residences (921, 927, 931, 937, 939, 943, 949, 955, 965, 971, 977, 981 Everett Street)  Everett Street followed by:  Residences (908, 920, 924, 930, 960, 966, 970 Everett Street)	None identified
South	Everett Street followed by:  Residences (817 White Knoll Drive) Auto repair (1161 West Sunset Boulevard)	Yes; refer to Section 5.1
West	West Sunset Boulevard followed by:  Office building (1250 West Sunset Boulevard) Vacant land (1246 West Sunset Boulevard) Residences (1190, 1202, 1206, 1210, 1236 West Sunset Boulevard) Office, residences/Mixed use (1218, 1226, 1230, 1234 West Sunset Boulevard) Residences (1110 Marion Avenue) Vacant land (1186 West Sunset Boulevard) Warehouse (1176 West Sunset Boulevard)	None identified

## FINDINGS AND OPINIONS

Significant Data Gap(s) is defined by the current ASTM Standard E1527 as a data gap that affects the ability of the environmental professional to identify a recognized environmental condition.

AEI did not identify significant data gaps which affected our ability to identify RECs.

Recognized Environmental Condition (REC) is defined by the current ASTM Standard E1527 as the (1) the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to

the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment.

- AEI did not identify evidence of RECs during the course of this assessment.

Controlled Recognized Environmental Condition (CREC) is defined by the current ASTM Standard E1527 as a recognized environmental condition affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to implementation of required controls (for example, activity and use limitations or other property use limitations).

- AEI did not identify evidence of CRECs during the course of this assessment.

Historical Recognized Environmental Condition (HREC) is defined by the current ASTM Standard E1527 as a previous release of hazardous substances or petroleum products affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the subject property to any controls (for example, activity and use limitations or other property use limitations).

- The subject property was historically used for various industrial/manufacturing and auto operations as early as the 1920s. The portion of the subject property currently associated with the addresses 1205 and 1207 West Sunset Boulevard, was developed with a commercial building and a residential building. The southern part of the commercial building, identified with 1205 Sunset Boulevard, was an upholstery company, plastic key tag manufacturer, and other businesses. The northern portion of the commercial building, identified with 1207 West Sunset Boulevard, was a chemical manufacturer of disinfectants from at least 1950 to 1954. The portion of the subject property currently associated with the address 1211 West Sunset Boulevard was developed with a commercial/industrial building with businesses including printing operations from at least 1950 to 1971 and auto repair and service station in 1929. However, based on historical sources, the site is not developed in 1928 and 1938. This former auto repair and service station may have been associated with the adjoining area to the north, at 1229 West Sunset Boulevard. Historical operations at the former building at 1211 West Boulevard were typically associated with the use of hazardous materials, including solvents and oils. In addition, the subject property was also historically used for printing operations. Many printing industries generate waste ink and ink sludges that might contain solvents or heavy metals. Photographic processes are also typically associated with major printing operations for image conversion and plate making. Photographic wastes, including heavy metal solutions, developers, hardeners, plating chemicals, and spent solvents, make up a large portion of the hazardous waste generated in these industries. Solvents used during printing operations may include chlorinated solvents, which are highly mobile and can easily accumulate in the soil. These solvents, even when properly stored and disposed of, can be released from these facilities in small, frequent releases

through floor drains, cracked concrete, and sewer systems. From at least 1950, the portion of the property associated with the address 1227, 1229, and 1231 West Sunset Boulevard was developed with a commercial building, which was occupied by a furniture company, sign manufacturer/painting company, neon sign manufacturer, and other businesses. The portion of the subject property currently associated with the addresses 1235, 1237, and 1239 West Sunset Boulevard was historically developed with a commercial/industrial building that was formerly occupied by several businesses, including a sign painting company from at least 1950 to 1970.

AEI completed a Phase II at the property in 2013, and is discussed in Section 6.3. A total of 17 borings were advanced throughout the subject property for the collection of 1-groundwater sample and soil samples. Sample locations are depicted on Figure 2c within the appendices of this report. The borings were advanced to depths of 4.5 to 20 feet bgs. Borings were advanced at select locations of current and previously suspected industrial operations that could have impacted the subject property. Within the area surveyed, the USTs were identified and mapped along the southwestern property addressed as 1185 West Sunset Boulevard. No other undocumented USTs, buried drums or any other anomalous buried objects were detected. VOCs and TPH were not detected in soil samples above the laboratory detection limits. VOCs and TPH were not detected in the groundwater sample above the laboratory detection limits. Since sampling occurred, the site has been cleared of all former buildings, with surface grading in some areas throughout the subject property. Due to the lack of a release detected, AEI did not recommend any further action for the subject property at the time. Based on the lack of release, the historical on-site industrial operations represent a HREC.

Other Environmental Considerations (OEC) warrant discussion, but do not qualify as RECs as defined by the current ASTM Standard E1527. These include, but are not limited to, de minimis conditions and/or environmental considerations such as the presence of ACMs, LBP, radon, mold, and lead in drinking water, which can affect the liabilities and financial obligations of the client, the health and safety of site occupants, and the value and marketability of the subject property. A de minimis condition is defined by the ASTM Standard as a condition that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies.

- Based on building permits, there was a former gas station building converted into a commercial store building in 1946. According to historical sources, AEI was not able to track the history of the portion of the subject property located at 1229 West Sunset Boulevard between the years 1906 to 1946 and this is considered a data gap. In a Sanborn map from 1906, this parcel appears to be vacant land. In a Sanborn map from 1950, this parcel appears to be occupied by a furniture store and/or manufacturer. By 1953, the building appears to have an extension added to the east side, and new addresses were assigned for this building in 1964 including 1227 and 1231 W. Sunset Boulevard. City directories for this address were not provided. According to a building permit from 1946, this parcel was converted from a gas station to a store. It is possible that there was a gas station at this address sometime between 1906 to 1946. No other significant information was obtained by AEI. AEI completed a Phase II at the property in 2013. A total of 17 borings were advanced throughout the subject property for the collection of 1-groundwater sample and soil samples. Sample locations are

depicted in Figure 2c within the appendices of this report. The borings were advanced to depths of 4.5 to 20 feet bgs. Borings were advanced at select locations of current and previously suspected industrial operations that could have impacted the subject property including one sample in the historical building noted as a gas station at 1229, and an additional sample in the eastern extension of the former building. A limited exterior GPR survey was conducted on the subject property. USTs were identified at the southern former gas station at 1185 W. Sunset Boulevard, and the exact area that the GPR survey area was conducted was not noted. However, the presence of tanks was not noted at the former central gas station. Additionally, no records of tanks were found from requested Fire Department records. It should be noted that a GPR survey was not available for the interior of the former subject building at 1185. However, based on recent construction activity, all former buildings have been demolished and cleared from the subject property with light surface soil grading noted. Based on the lack of contamination or tanks found during sampling, this is not considered a significant environmental concern. However, due to sampling limitations, it is AEI's opinion that a Soil Management Plan (SMP) be implemented prior to and redevelopment of the subject property in order to address any unknown issues or unidentified subsurface features that may be discovered during future construction activities.

- According to LA ZIMAS, the subject property is located near significant oil production areas known as “Methane Zones”. Methane Zone sites include properties immediately surrounding gas sources and where testing and mitigation are required by the City of Los Angeles Department of Building and Safety. Due to the potential environmental risk associated with construction in Methane Zones, the property owner is required to conduct a methane assessment prior to the redevelopment of the subject property (Division 71 of the Los Angeles Building Code).
- According to the prior report, AEI observed an area within the former auto garage that is indicative of a former underground hydraulic lift. It is unknown when the lifts were installed; however, the subject property has operated as a gas station from at least 1927 and as an automotive repair from at least the mid 1960’s. Therefore, it is possible that the former underground lift was installed as early as the 1960’s. Polychlorinated biphenyls (PCBs) were used in the past in dielectric fluids and oils in a variety of equipment, including hydraulic lift equipment. Soil testing was reportedly conducted by Petra in 2007 and no significant impacts were reported. AEI completed a Phase I and Phase II investigation at the property in 2013, discussed in Section 6.3 of this report. It was reported in the Phase I report, that the underground lift appeared to have been removed. No sampling information was provided post removal. However, the Phase II conducted in 2013, sample locations were noted around the former auto repair building with a groundwater monitoring wells installed south and down-gradient of the former auto repair shop and no contamination was report. Additionally, all of the former subject buildings, including the former repair shop have been demolished and cleared from the subject property, with surface soil grading observed in the location of the former repair shop. No apparent evidence of subsurface features were observed. Based on this information, this is not expected to represent a significant environmental concern.

## CONCLUSIONS

We have performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Standard Practice E1527-21, of 1185-1247 W Sunset Boulevard and 917 N Everett Street, Los Angeles, Los Angeles County, California, the *subject property*. Any exceptions to, or deletions from, this practice are described in Sections 1.4, 1.5, and 1.6 of this report.

As listed in the Findings section above, this assessment has revealed recognized environmental conditions, controlled recognized environmental conditions, and/or significant data gaps in connection with the subject property.

## RECOMMENDATIONS

AEI recommends no further investigation for the subject property at this time.

## 1.0 INTRODUCTION

---

This report documents the methods and findings of the Phase I Environmental Site Assessment performed in conformance with AEI's contract and scope and limitations of ASTM Standard Practice E1527-21 and the EPA Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), for the property located at 1185-1247 W Sunset Boulevard and 917 N Everett Street, Los Angeles, Los Angeles County, California ([Appendix A: Figures](#) and [Appendix B: Property Photographs](#)).

### 1.1 SCOPE OF WORK

The purpose of the Phase I ESA is to assist the client in identifying potential RECs, in accordance with the most current ASTM E1527 Standard associated with the presence of any hazardous substances or petroleum products, their use, storage, and disposal at and in the vicinity of the subject property. Property assessment activities focused on: 1) a review of federal, state, tribal, and local databases that identify and describe underground fuel tank sites, leaking underground fuel tank sites, hazardous waste generation sites, and hazardous waste storage and disposal facility sites within the ASTM approximate minimum search distance; 2) a property and surrounding site reconnaissance, and interviews with the past and present owners and current occupants and operators to identify potential environmental contamination; and 3) a review of historical sources to help ascertain previous land use at the site and in the surrounding area.

### 1.2 ADDITIONAL SERVICES

Other Environmental Considerations such as ACMs, LBP, lead in drinking water, radon, mold, and wetlands can result in business environmental risks for property owners which may disrupt current or planned operations or cash flow and are generally beyond the scope of a Phase I assessment as defined by the current ASTM Standard E1527. Based upon the agreed-on scope of services this ESA did not include subsurface or other invasive assessments, business environmental risks, or other services not specifically identified and discussed herein.

### 1.3 SIGNIFICANT ASSUMPTIONS

The following assumptions are made by AEI in this report. AEI relied on information derived from secondary sources including governmental agencies, the client, designated representatives of the client, property contact, property owner, property owner representatives, computer databases, and personal interviews. AEI has reviewed and evaluated the thoroughness and reliability of the information derived from secondary sources including government agencies, the client, designated representatives of the client, property contact, property owner, property owner representatives, computer databases, or personal interviews. It appears that all information obtained from outside sources and reviewed for this assessment is thorough and reliable. However, AEI cannot guarantee the thoroughness or reliability of this information.

Groundwater flow, unless otherwise specified by on-site well data or well data from the subject property or nearby sites, is inferred from contour information depicted on the USGS topographic maps. AEI assumes the property has been correctly and accurately identified by the client, designated representative of the client, property contact, property owner, and property owner's representatives.

## 1.4 LIMITATIONS

Property conditions, as well as local, state, tribal, and federal regulations can change significantly over time. Therefore, the recommendations and conclusions presented as a result of this assessment apply strictly to the environmental regulations and property conditions existing at the time the assessment was performed. Available information has been analyzed using currently accepted assessment techniques and it is believed that the inferences made are reasonably representative of the property. AEI makes no warranty, expressed or implied, except that the services have been performed in accordance with generally accepted environmental property assessment practices applicable at the time and location of the assessment.

Considerations identified by ASTM as beyond the scope of a Phase I ESA that may affect business environmental risk at a given property include the following: ACMs, radon, LBP, lead in drinking water, wetlands, regulatory compliance, cultural and historical resources, industrial hygiene, health and safety, ecological resources, endangered species, indoor air quality, mold, and high voltage lines. These environmental issues or conditions may warrant assessment based on the type of the property transaction; however, they are considered non-scope issues under the current ASTM Standard E1527.

If requested by the client, these non-scope issues are discussed herein. Otherwise, the purpose of this assessment is solely to satisfy one of the requirements for qualification of the innocent landowner defense, contiguous property owner or bona fide prospective purchaser under CERCLA. The current ASTM Standard E1527 and the United States EPA Standards and Practices for All Appropriate Inquiries (40 CFR Part 312) constitute the "all appropriate inquiry into the previous ownership and uses of the property consistent with good commercial or customary practice" as defined in:

1. 42 U.S.C. § 9601(35)(B), referenced in the current ASTM Standard E1527.
2. Sections 101(35)(B) (ii) and (iii) of CERCLA and referenced in the EPA Standards and Practices for All Appropriate Inquiries (40 CFR Part 312).
3. 42 U.S.C. § 9601(40) and 42 U.S.C. § 9607(q).

The Phase I Environmental Site Assessment is not, and should not be construed as, a warranty or guarantee about the presence or absence of environmental contaminants that may affect the property. Neither is the assessment intended to assure clear title to the property in question. The sole purpose of assessment into property title records is to ascertain a historical basis of prior land use. All findings, conclusions, and recommendations stated in this report are based upon facts, circumstances, and industry-accepted procedures for such services as they existed at the time this report was prepared (i.e., federal, state, and local laws, rules, regulations, market conditions, economic conditions, political climate, and other applicable matters). All findings, conclusions, and recommendations stated in this report are based on the data and information provided, current subject property use, and observations and conditions that existed on the date and time of the property reconnaissance.

Responses received from local, state, or federal agencies or other secondary sources of information after the issuance of this report may change certain facts, findings, conclusions, or circumstances to the report. A change in any fact, circumstance, or industry-accepted procedure upon which this report was based may adversely affect the findings, conclusions, and recommendations expressed in this report.

AEI's limited radon screening, if included, is intended to provide a preliminary screening to evaluate the potential presence of elevated radon concentrations at the site. The proposed scope is not intended to define the full extent of the presence of radon at the subject property. As such, the results should be used for lending purposes only. The recommendations and conclusions presented as a result of the limited preliminary radon screening apply strictly to the property conditions existing at the time the sampling was performed. The sample analytical results are only valid for the time, place, and condition of the site at the time of collection and AEI does not warrant that the results will be repeatable or are representative of past or future conditions.

### 1.5 LIMITING CONDITIONS/DEVIATIONS

The performance of this assessment was limited by the following:

- While additional assessments may have been conducted on the subject property, these documents must be provided for AEI's review in order for the information to be summarized/included in this report. Please refer to [Section 6.3](#) for a summary of previous reports and other documentation provided to AEI during this assessment.
- The User did not complete the ASTM User Questionnaire or provide the User information to AEI. AEI assumes that qualification for the LLPs is being established by the User in documentation outside of this assessment.
- The subject property owner was not interviewed during this assessment. Based on information obtained from other sources, including the key site manager, this limiting condition is not expected to alter the overall findings of this assessment.
- Due to the size of the subject property, AEI performed a reconnaissance of the property utilizing a field technique of traversing the site in an attempt to provide an overlapping field of view. Due to the size of the property and the vegetation present on site, isolated areas of the site were not accessible for direct observation during AEI's field reconnaissance. Based on historical resources, this limitation is not expected to significantly alter the findings of this assessment.

### 1.6 DATA FAILURE AND DATA GAPS

According to the current ASTM Standard E1527, data gaps occur when the Environmental Professional is unable to obtain information required by the Standard, despite good faith efforts to gather such information. Pursuant to the current ASTM Standard E1527, only significant data gaps, defined as those that affect the ability of the Environmental Professional to identify RECs, need to be documented.

Data failure is one type of data gap. According to the current ASTM Standard E1527, data failure occurs when all of the standard historical sources that are reasonably ascertainable and likely to be useful have been reviewed and yet the objectives have not been met. Pursuant to the current ASTM Standard E1527, historical sources are required to document property use back to the property's first developed use or back to 1940, whichever is earlier, or periods of five years or greater.

### 1.6.1 DATA FAILURE

The following data failure was identified during the course of this assessment:

<b>Data Failure</b>	The earliest historical resource obtained during this assessment was a Sanborn map from 1906 indicating that the subject property was developed with residences. The lack of historical sources for the subject property dating back to first developed use represents historical data source failure. However, as it is assumed that the subject property would have been previously used for residential purposes, if not undeveloped, this data failure is not expected to significantly alter the findings of this assessment.
<b>Information/Sources Consulted</b>	Aerial photographs, city directories, Sanborn fire insurance maps, agency records, previous reports, interviews, historical topographic maps

<b>Data Failure</b>	AEI was not able to track the history of the portion of the subject property located at 1229 West Sunset Boulevard between the years 1906 to 1946. In a Sanborn map from 1906, this parcel appears to be vacant land. In a Sanborn map from 1950, this parcel appears to be occupied by a furniture store and/or manufacturer. City directories for this address were not provided. According to a building permit from 1946, this parcel was converted from a gas station to a store. It is possible that there was a gas station at this address sometime between 1906 to 1946. No other significant information was obtained by AEI. AEI completed a Phase II at the property in 2013. Borings were advanced at select locations of previously suspected industrial operations that could have impacted the subject property. No undocumented USTs, buried drums or any other anomalous buried objects were detected. VOCs and TPH were not detected in soil samples above the laboratory detection limits. VOCs and TPH were not detected in the groundwater sample above the laboratory detection limits. Due to the lack of a release detected, AEI did not recommend any further action for the subject property at this time. Based on the lack of contamination, this data failure is not expected to represent a significant environmental concern.
<b>Information/Sources Consulted</b>	Aerial photographs, city directories, Sanborn fire insurance maps, agency records, previous reports, interviews, historical topographic maps, Newspapers.com

### 1.6.2 SIGNIFICANT DATA GAPS

AEI did not identify significant data gaps which affected our ability to identify RECs.

### 1.7 RELIANCE

All reports, both verbal and written, are for the benefit of Aragon Development. This report has no other purpose and may not be relied upon by any other person or entity without the written consent of AEI. Either verbally or in writing, third parties may come into possession of this report or all or part of the information generated as a result of this work. In the absence of a written agreement with AEI granting such rights, no third parties shall have rights of recourse or recovery whatsoever under any course of action against AEI, its officers, employees, vendors, successors or assigns. Reliance is provided in accordance with AEI's contract and Terms and Conditions executed by Aragon Development on May 22, 2023. The limitation of liability defined in the Terms and Conditions is the aggregate limit of AEI's liability to the client and all relying parties.

## 2.0 SITE AND VICINITY DESCRIPTION

### 2.1 SITE LOCATION AND DESCRIPTION

Property Information	
Site Address(es)	1185-1247 W Sunset Boulevard and 917 N Everett Street, Los Angeles, Los Angeles County, California 90026
Property ID (APN or Block/Lot)	5406-016-003, 6, 7, 10, 11, 13, 16, 19, 21, 23, 28
Location	Bound by West Sunset Boulevard and Everett Street
Property Type	Vacant Land
Site and Building Information	
Approximate Site Acreage/Source	2.66/Client provided
Number of Buildings	N/A
Building Construction Date(s)/Source	N/A
Building Square Footage (SF)/Source	N/A
Number of Floors/Stories	N/A
Basement or Subgrade Area(s)	None identified
Number of Units	N/A
Additional Improvements	N/A
On-site Occupant(s)	N/A
Current On-site Operations/Use	Vacant land
Current Use of Hazardous Substances	None identified
Regulatory Information	
Regulatory Database Listing(s)	RCRA NONGEN/NLR (2), HAZMAT (2), FINDS (4), ECHO (2), EDR HIST AUTO (3), HWTS (3), HAZNET, CERS HAZ WASTE

### 2.2 ON-SITE UTILITIES

The subject property is currently vacant land and lacks structures. Consequently, there are no on-site heating or cooling systems, or potable water or sewage disposal/treatment services.

### 2.3 SITE AND VICINITY CHARACTERISTICS

The subject property is located in a commercial and residential area of Los Angeles, California. The immediately surrounding properties consist of the following:

Direction	Tenant/Use (Address)	Regulatory Database Listing(s)
North	Residences (1251 West Sunset Boulevard) Residence (1063 West Mayflower Court)	None identified
East	Residences (921, 927, 931, 937, 939, 943, 949, 955, 965, 971, 977, 981 Everett Street)  Everett Street followed by:  Residences (908, 920, 924, 930, 960, 966, 970 Everett Street)	None identified
South	Everett Street followed by:  Residences (817 White Knoll Drive) Auto repair (1161 West Sunset Boulevard)	Yes; refer to Section 5.1
West	West Sunset Boulevard followed by:	None identified

Direction	Tenant/Use (Address)	Regulatory Database Listing(s)
	Office building (1250 West Sunset Boulevard) Vacant land (1246 West Sunset Boulevard) Residences (1190, 1202, 1206, 1210, 1236 West Sunset Boulevard) Office, residences/Mixed use (1218, 1226, 1230, 1234 West Sunset Boulevard) Residences (1110 Marion Avenue) Vacant land (1186 West Sunset Boulevard) Warehouse (1176 West Sunset Boulevard)	

## 2.4 PHYSICAL SETTING

<b>Geologic Unit: Description/Source</b>	M: Marine sedimentary rocks; Miocene age; sandstone, shale, siltstone, conglomerate, and breccia; moderately to well consolidated/USGS and United States Department of the Interior
<b>Soil Series: Description/Source</b>	1240–Urban land-Dapplegray complex, 5 to 20 percent slopes  Urban Land: this designation indicates that more than 85 percent of the original soils have been disturbed or covered by paved surfaces, buildings or other structures; due to the variability of the soil material, on-site investigation would be required to determine the specific soil composition at the subject property/USDA Soil Survey
<b>Groundwater Flow Direction/Source</b>	South/Topographic map interpretation
<b>Estimated Depth to Groundwater/Source</b>	17 feet bgs/Groundwater monitoring data for 1165 West Sunset Boulevard, obtained from GeoTracker
<b>Surface waters on the subject property or adjoining sites</b>	None
<b>Additional notes</b>	None

Note: Groundwater flow direction can be influenced locally and regionally by the presence of local wetland features, surface topography, recharge and discharge areas, horizontal and vertical inconsistencies in the types and location of subsurface soils, and proximity to water pumping wells. Depth and gradient of the water table can change seasonally in response to variation in precipitation and recharge, and over time, in response to urban development such as storm water controls, impervious surfaces, pumping wells, cleanup activities, dewatering, seawater intrusion barrier projects near the coast, and other factors.

### 3.0 HISTORICAL RECORDS REVIEW

Reasonably ascertainable standard historical sources as outlined in the current ASTM Standard E1527 were used to determine previous uses and occupancies of the subject property that are likely to have led to RECs in connection with the subject property. A chronological summary of historical data found, including but not limited to aerial photographs, historical city directories, Sanborn fire insurance maps, and agency records, is as follows:

Date Range	Subject Property Description and Occupancy (Historical Addresses)	Source(s)
Prior to 1906	Unknown use/Data failure; refer to <a href="#">Section 1.6.1</a>	Aerial photographs, city directories, Sanborn fire insurance maps, agency records, previous reports, interviews, historical topographic maps, Newspapers.com
1906	Vacant land and residential buildings (1193, 1197, 1201, 1243 West Sunset Boulevard, 963 Everett Street)	Sanborn fire insurance map
1906-1946	Unknown use/Data failure for 1229 West Sunset Boulevard; refer to <a href="#">Section 1.6.1</a>	Aerial photographs, city directories, Sanborn fire insurance maps, agency records, previous reports, interviews, historical topographic maps, Newspapers.com
1946	Gas station (1229 West Sunset Boulevard)	Building permit
1925-2022	Residential buildings (until at least 2012); commercial/ industrial buildings used for printing (1950-1971), gas station (1925-1976), auto repair (1929-2013), chemical disinfectant manufacturing (1950-1954), sign painting (1950-1970), other industrial/manufacturing companies, retail  (1181, 1185, 1187, 1193, 1197, 1201, 1203, 1205, 1207, 1211, 1227, 1229, 1231, 1233, 1235, 1237, 1239, 1241, 1243, 1245 West Sunset Boulevard, 917 Everett Street)	Aerial photographs, city directories, Sanborn fire insurance maps, agency records, previous reports, interviews, historical topographic maps
2023	Vacant land (1185-1247 West Sunset Boulevard, 917 Everett Street)	Site visit

The following historical addresses were associated with the subject property: 1181, 1185, 1187, 1193, 1197, 1201, 1203, 1205, 1207, 1211, 1227, 1229, 1231, 1233, 1235, 1237, 1239, 1241, 1243, 1245 West Sunset Boulevard, 917, 963 Everett Street. These addresses were also researched as part of this assessment.

In 1906, the entire subject property consisted of vacant lots and single-family residences. From at least 1925 to at least 1976, the southern portion of the subject property associated with the addresses 1181, 1187 (historical addresses), and 1185 West Sunset Boulevard, was developed with a gas station. According to fire records, new tanks were installed in 1925 and 1960. The gas station was then converted into an auto repair shop from at least 1994 to 2013. Additionally, according to building records an additional gas station was noted at 1229 West Sunset Boulevard, and is discussed in Section 4.3.

The subject property was historically used for various industrial/manufacturing and auto operations as early as the 1920s. The portion of the subject property currently associated with the addresses 1205 and 1207 West Sunset Boulevard, was developed with a commercial building and a residential building. The southern part of the commercial building, identified with 1205 Sunset Boulevard, was an upholstery company, plastic key tag manufacturer, and other businesses. The northern portion of the commercial building, identified with 1207 West Sunset Boulevard, was a chemical manufacturer of disinfectants from at least 1950 to 1954. The portion of the subject property currently associated with the address 1211 West Sunset Boulevard was developed with a commercial/industrial building with businesses including printing operations from at least 1950 to 1971 and auto repair and service station in 1929. However, based on historical sources, the site is not developed in 1928 and 1938. This former auto repair and service station may have been associated with the adjoining area to the north, at 1229 West Sunset Boulevard. Historical operations at the former building at 1211 West Boulevard were typically associated with the use of hazardous materials, including solvents and oils. In addition, the subject property was also historically used for printing operations. Many printing industries generate waste ink and ink sludges that might contain solvents or heavy metals. Photographic processes are also typically associated with major printing operations for image conversion and plate making. Photographic wastes, including heavy metal solutions, developers, hardeners, plating chemicals, and spent solvents, make up a large portion of the hazardous waste generated in these industries. Solvents used during printing operations may include chlorinated solvents, which are highly mobile and can easily accumulate in the soil. These solvents, even when properly stored and disposed of, can be released from these facilities in small, frequent releases through floor drains, cracked concrete, and sewer systems. From at least 1950, the portion of the property associated with the address 1227, 1229, and 1231 West Sunset Boulevard was developed with a commercial building, which was occupied by a furniture company, sign manufacturer/painting company, neon sign manufacturer, and other businesses. The portion of the subject property currently associated with the addresses 1235, 1237, and 1239 West Sunset Boulevard was historically developed with a commercial/industrial building that was formerly occupied by several businesses, including a sign painting company from at least 1950 to 1970. AEI completed a Phase II at the property in 2013. A total of 17 borings were advanced throughout the subject property for the collection of 1-groundwater sample and soil samples. sample locations are depicted on Figure 2c within the appendices of this report. The borings were advanced to depths of 4.5 to 20 feet bgs. Borings were advanced at select locations of current and previously suspected industrial operations that could have impacted the subject property. Within the area surveyed, the USTs were identified and mapped along the southwestern property addressed as 1185 West Sunset Boulevard. No other undocumented USTs, buried drums or any other anomalous buried objects were detected. VOCs and TPH were not detected in soil samples above the laboratory detection limits. VOCs and TPH were not detected in the groundwater sample above the laboratory detection limits. Since sampling occurred, the site has been cleared of all former buildings, with surface grading in some areas throughout the subject property. Due to the lack of a release detected, AEI did not recommend any further action for the subject property at the time. Based on the lack of release, the historical on-site industrial operations represent a HREC.

According to historical sources, and the regulatory database, the subject property was developed with a gasoline station at 1181-1187 West Sunset Boulevard. Sanborn maps depict a small gas station building at 1811 W. Sunset Avenue by 1950 to at least 1960. It appears that the former gas station building at 1811 was removed and demolished by 1964. The 1964 Sanborn map notes that a gas station is still on site, however, there are two buildings that were constructed to the north adjoining area at 1185-1187 West Boulevard. It was documented

as early as 1925 according to building records, that tanks were removed and replaced at 1181 W. Sunset Boulevard. It was noted in Fire department records, were removed and replaced at 1181, four tanks were installed at 1185 in September 8, 1960, and six tanks were removed from 1185 on November 22, 1960. According to city directories, the gas station at 1185, (Hernandez Fernando) was on site from 1969 to 1979. The gas station was converted into an auto repair shop by 1994. City directories note an auto repair shop noted at this address (Sempe Auto Repair, and Sempe Heriberto L Jr) from 1994 to at least 2014. Formerly, the two buildings at 1185 and 1187 were associated with a car wash and auto repair shop.

AEI completed a Phase II at the property in 2013, (discussed in Section 6.3), a total of 17 borings were advanced throughout the subject property for the collection of 1-groundwater sample and soil samples. The borings were advanced to depths of 4.5 to 20 feet bgs. Borings included eight sample areas around the former southern gas station. Locations of the sampling locations is provided in the prior report and Figure 2c within the appendices of this report. A limited exterior ground penetrating radar survey was conducted and five USTs were identified and mapped along the southern portion of the subject property addressed as 1185 West Sunset Boulevard. No other undocumented USTs, buried drums or any other anomalous buried objects were detected. VOCs and TPH were not detected in soil samples above the laboratory detection limits. VOCs and TPH were not detected in the groundwater sample above the laboratory detection limits. No sampling information was provided post removal. The former auto repair was reported to have a clarifier. During the Phase II conducted in 2013, sample locations were noted around the former auto repair building with a groundwater sample taken south and down-gradient of the former auto repair shop and no contamination was report. Due to the lack of a release detected, AEI did not recommend any further action for the subject property at the time.

According to a provided prior Soil Report, discussed in Section 6.3, In 2022, five USTs were removed from the subject property at the former southern gas station area (1185 West Sunset Boulevard) including two 6,000-gallon tanks of gasoline, a 2,000-gallon tank of gasoline, a 2,000-gallon tank of unknown contents, and a 150-gallon waste oil tank. Sampling locations are depicted in Figure 2b included in the appendices of this report. It was noted that a site-specific health and safety plan (HASP) was prepared prior to on-site activities. A sump and one of the two clarifiers were also removed from the former car wash building. Initial samples were taken from the USTs, sump and clarifier in the former carwash building. other than UST #5 and the clarifier in the auto garage due to inaccessibility. Hydrocarbons, VOCs, and lead were detected in USTs #2, #3, and #4. TPHd and TPHo were detected in the clarifier and sump within the former carwash building. The sample from the sump had concentrations above construction worker exposure screening levels. Copper, lead, and chromium detected in samples were reported above Soluble Threshold Limit Concentration (STLC) thresholds but below STLC regulatory limits. These contaminants were not classified as hazardous waste. During tank removal, VOCs were detected in the soil up to 162 ppmv. Soil under UST #3 was stained and smelled of gasoline. VOCs exceeded the instrument limit of 10,000 ppmv. No holes were observed in the USTs following removal and the fluids were removed from the tanks. The top of each UST was located at approximately four feet bgs. A total of approximately 285 cubic yards (cy) of soil was removed and stockpiled adjacent to the USTs during tank removal. During excavation activities, VOCs were detected from some of the excavated spoils, at concentrations between 4 and 162 ppmv. Upon measuring VOCs of 50 ppmv or greater, the soil was segregated into a separate stockpile. Approximately 14 cubic yards of gasoline contaminated soil and 17 cubic yards of VOC contaminated soil was excavated under LAFD oversight. TPHg was detected in 0714-3-WEST at 740 mg/kg, which is above the LAFD minimum action level (MAL) of 100 mg/kg. The soil surrounding this sample was removed. No

TPHg was detected in a subsequent sample (UST-SOIL-081122) near the site of 0714-3-WEST. Arsenic was detected in all samples above the Residential Screening Levels (RSL) at 0.11 mg/kg. Soil samples were also taken from two stockpiles of soil, TPH, VOCs, and heavy metals were reported in soil at concentrations below exposure screening levels. However, the concentrations are below the DTSC background arsenic level of 12 mg/kg. On July 14, 2022, and at the direction of LAFD Inspector Belknap, end point soil samples were collected from approximately two feet beneath the east and west ends of each UST. On August 11, 2022, the clarifier located in the car wash area, and the sump were removed. The LAFD issued a No Further Action letter on November 29, 2022. No documentation of the removal of the clarifier in the auto repair shop was provided. However, since the tank removal occurred, all on site buildings appear to have been demolished and the surface soil appeared to have been graded in areas throughout the subject property. It is AEI's opinion that a Soil Management Plan (SMP) be implemented prior to and redevelopment of the subject property in order to address any unknown issues or unidentified subsurface features that may be discovered during future construction activities.

The site now consists of vacant land and a parking lot. Due to the size of the parcel, dense vegetation, and uneven ground, site observation was limited. Remaining concrete/asphalt features are visible, however no subsurface features were observed.

If available, copies of historical sources are provided in [Appendix D](#).

### 3.1 AERIAL PHOTOGRAPHS

AEI reviewed aerial photographs of the subject property and surrounding area. A search was made of the EDR collection of aerial photographs. Aerial photographs were reviewed for the following years (1923 to 2020 (non-inclusive)):

Year(s)	Subject Property Description	Adjoining Site Descriptions
1923, 1928, 1938	What appear to be several commercial buildings and/or residential buildings, vacant land	NORTH: What appear to be residences EAST: What appear to be residences and a road followed by additional residences SOUTH: Road followed by what appears to be vacant land WEST: Road followed by what appear to be residential buildings and/or commercial buildings
1948	What appear to be additional commercial and/or residential buildings	NORTH: No significant changes EAST: No significant changes SOUTH: No significant changes WEST: No significant changes
1952	No significant changes	NORTH: No significant changes EAST: No significant changes SOUTH: What appears to be a gas station WEST: No significant changes
1964	No significant changes other than what appears to be a gas station	NORTH: No significant changes EAST: No significant changes SOUTH: No significant changes WEST: No significant changes
1977, 1979, 1981	What appear to be additional commercial buildings	NORTH: No significant changes EAST: No significant changes SOUTH: No significant changes WEST: No significant changes

Year(s)	Subject Property Description	Adjoining Site Descriptions
1989, 1994, 2002, 2005, 2009, 2012, 2020	No significant changes other than what appear to be additional commercial and/or residential buildings	NORTH: No significant changes EAST: No significant changes SOUTH: No significant changes WEST: No significant changes other than what appear to be additional commercial and/or residential buildings

Subject property:

- Historical gas station - Refer to Section 3.0, 4.1, 4.2, 4.3, 5.1, and/or 6.3

Adjoining Site(s):

- Historical gas station - Refer to Section 5.1

### 3.2 SANBORN FIRE INSURANCE MAPS

Sanborn Fire Insurance maps were developed in the late 1800s and early 1900s for use as an assessment tool for fire insurance rates in urbanized areas. A search was made of the EDR collection of Sanborn Fire Insurance maps.

The following maps were reviewed (1888 to 1970 (non-inclusive)):

Year(s)	Subject Property Description (Listed Address)	Adjoining Site Descriptions
1888, 1890, 1894	No coverage	No coverage
1906	The southern portion of the subject property is developed with three single-family residences with the addresses 1193, 1197, and 1201 Sunset Boulevard. The northwestern portion is developed with a single-family residence associated with the address 1243 Sunset Boulevard. The northeastern lot off of Everett Street is developed with a single-family residence associated with the address 963 Everett Street.	NORTH: The portion off of Sunset Boulevard consists of vacant lots. The portion off of Everett Street is developed with single-family residences, out houses, and a stable EAST: Single-family residences and vacant lots SOUTH: Single-family residences and vacant lots WEST: Single-family residences and vacant lots
1950	The southernmost lot is developed with a gas and oil station associated with the address 1181 Sunset Boulevard. According to building records, gas station structures were developed in 1925. The northernmost single-family residence is also associated with the address 1203 Sunset Boulevard. The lot to the north of that is developed with a store and “chem” manufacturing building on the western portion, associated with 1205 and 1207 Sunset Boulevard, respectively. Storage, garage, and duplex are present on the central and eastern portions. A printing	NORTH: The lot off of Sunset Boulevard is developed with ten single-family residences. The lots off of Everett Street are developed with several single- and multi-family residences. EAST: Several single- and multifamily residences. SOUTH: The northern lots are developed with single- and multi-family residences. The southern lot is developed with a gas and oil station (900 Everett Street) and building used for auto painting,

Year(s)	Subject Property Description (Listed Address)	Adjoining Site Descriptions
	<p>facility, associated with the address 1211 Sunset Boulevard, is present further to the north. Vacant lots are present further to the north, followed by a furniture building, associated with 1229 Sunset Boulevard. Further north is a building used for wood working, a store, and sign painting, associated with 1235, 1237, and 1239, respectively. The single-family residence formerly on the northwestern portion has been replaced by Latter Rain Church, associated with 1243 Sunset Boulevard, on the western portion, and a single-family residence, associated with 1245 Sunset Boulevard, on the eastern portion. The northwestern-most lot is developed with a single-family residence associated with 1247 Sunset Boulevard.</p>	<p>a battery shop, stores, and auto repairing. WEST: Single- and multi-family residences, retail stores, and vacant lots</p>
1953	<p>The former store at 1205 Sunset Boulevard is now used for upholstery. The former furniture building at 1229 Sunset Boulevard has been extended and is now used for hood &amp; pad manufacturing (1229) and sign manufacturing &amp; painting (1231). The former wood working and store spaces, associated with 1235 and 1237 Sunset Boulevard, have been combined. Due to the poor quality of the Sanborn map, the use of this new space is not clear. The sign painting unit has been extended. The church is now occupied by a Jewish temple.</p>	<p>No significant changes</p>
1954	<p>The building at 1229 and 1231 is now used for neon sign manufacturing and sign manufacturing and painting. It appears to be associated with the adjacent building to the north, which is also used for sign manufacturing and painting.</p>	<p>NORTH: No significant changes EAST: No significant changes SOUTH: The former auto painting space is now used as storage WEST: An additional building with two stores has been added</p>
1957	<p>The building associated with 1205 and 1207 Sunset Boulevard is now used for plastic key tag manufacturing and valve manufacturing, respectively. The building associated with 1235 and 1237 Sunset Boulevard is now used as a sash and door warehouse.</p>	<p>No significant changes</p>
1960	<p>The building associated with 1205 Sunset Boulevard is no longer used for plastic key tag manufacturing.</p>	<p>No significant changes with the exception that an office building has been constructed to the northwest</p>
1964	<p>The gas and oil station on the southern portion of the property has been developed with a building and structure and is associated with 1185 Sunset Boulevard. The single-family residences on the southwestern portion are no longer present. 1205 Sunset Boulevard is now used for time controls manufacturing. The adjacent storage and</p>	<p>No significant changes</p>

Year(s)	Subject Property Description (Listed Address)	Adjoining Site Descriptions
	auto garage building is no longer present. The building at 1227 and 1231 Sunset Boulevard is now used for sash and door warehouse purposes. The building previously associated with 1235 and 1237 Sunset Boulevard is now associated with 1239 Sunset Boulevard and is used for sign printing.	
1965	No significant changes	No significant changes with the exception that a single- and multi-family residence to the east has been replaced with a larger multi-family residence
1968	No significant changes	No significant changes with the exception that two of the multi-family residences to the west are no longer present
1970	The eastern portion of the building associated with 1227 and 1231 Sunset Boulevard has been removed.	No significant changes

Subject property:

- Historical gas station, printing, manufacturing - Refer to Section 3.0, 4.1, 4.2, 4.3, 5.1, and/or 6.3

Adjoining Site(s):

- Historical gas station, auto repair - Refer to Section 5.1

### 3.3 CITY DIRECTORIES

A search of historical city directories was conducted for the subject property utilizing EDR. Refer to the appendices for a complete list of historical subject property tenants identified by EDR. Directories were reviewed in approximate five-year increments from 1920 to 2020 (non-inclusive). The first listing for the subject property appeared in 1939. The following table summarizes the potential tenants of concern at the subject property based on AEI's review of the historical city directories.

*Subject Property*

Year(s)	Address - Occupant Listed
1951	1207 Sunset Boulevard - Chemical/disinfectant manufacturing
1962, 1967, 1971	1211 Sunset Boulevard - Printing
1962, 1967, 1971, 1976	1185 Sunset Boulevard - Gas station
2000, 2006, 2010	1185 Sunset Boulevard - Auto repair

*If listed above, XXXX indicates that the address is valid but there is no occupancy information available.*

The table below summarizes the search of historical city directories conducted for the adjoining sites. Refer to the appendices for a complete list of historical adjoining occupants identified during the review of city directories obtained from EDR.

*Adjoining Sites*

Direction	Address(es)	Potential Listings of Concern
North	1251 West Sunset Boulevard 1063 West Mayflower Court	None identified
East	921, 927, 931, 937, 939, 943, 949, 955, 965, 971, 977, 981 Everett Street  908, 920, 924, 930, 960, 966, 970 Everett Street	None identified
South	817 White Knoll Drive 1161 West Sunset Boulevard/900 Everett Street	900 Everett Street - Auto shop (1942-1990)
West	1250 West Sunset Boulevard 1246 West Sunset Boulevard 1190, 1202, 1206, 1210, 1236 West Sunset Boulevard 1218, 1226, 1230, 1234 West Sunset Boulevard 1110 Marion Avenue 1186 West Sunset Boulevard 1176 West Sunset Boulevard	None identified

Subject property:

- Historical gas station, printing, auto repair, chemical manufacturing - Refer to Section 3.0, 4.1, 4.2, 4.3, 5.1, and/or 6.3

Adjoining Site(s):

- Historical auto shop - Refer to Section 5.1

**3.4 HISTORICAL TOPOGRAPHIC MAPS**

In an attempt to close any data failure, AEI reviewed historical topographic maps utilizing EDR. Historical topographic maps were reviewed for the years 1894 to 2018 (non-inclusive). No additional historical information was obtained from available topographic maps.

**3.5 CHAIN OF TITLE**

Based on the quality of information obtained from other sources, a chain of title search was not performed as part of this assessment.

## 4.0 REGULATORY AGENCY RECORDS REVIEW

Local and state agencies, such as environmental health departments, fire prevention bureaus, and building and planning departments are contacted to identify any current or previous reports of hazardous substance use, storage, and/or unauthorized releases that may have impacted the subject property. In addition, information pertaining to AULs, defined as legal or physical restrictions, or limitations on the use of, or access to, a site or facility, is requested.

### 4.1 LOCAL ENVIRONMENTAL HEALTH DEPARTMENT AND/OR STATE ENVIRONMENTAL AGENCY

Agency	Date Contacted	Method of Contact	Name & Title of Contact	Agency Response
Los Angeles County Fire Department (LACFD)	May 23, 2023	Online	N/A	Records discussed below

#### Records Summary

Date	Occupant	Document Type	Document Notes/Violations
2002	O&J Auto Repair and Sales (1185)	Facility Information Report	Site generates 100 gallons of oil, 150 pounds of filters, and 100 pounds of rags
2012	O&J Auto Repair and Sales (1185)	Fire Inspection Report	Provide hazardous waste label, provide receipt of oil filter pickup, maintain shop towels in a closed container, clean and maintain soil absorbent on floor, maintain current CUPA permit on-site
2014	B&F Mechanical General (1185)	Fire Inspection Report	No violations
2014	B&F Mechanical General (1185)	Fire Inspection Report	Waste oil and used filter containers are to be closed when not in use

The subject property was formerly occupied by an auto repair shop at 1185 West Sunset Boulevard. Due to the nature of operations, auto shops use and/or store hazardous substances. Refer to Section 3.0, 4.2, 4.3, 5.1, and/or 6.3 for additional information.

\*Based on the volume of documents provided, this table only represents a sample of records made available to AEI. Refer to the Appendix for additional information.

Agency	Date Contacted	Method of Contact	Name & Title of Contact	Agency Response
California Regional Water Quality Control Board (CRWQCB)	May 23, 2023	Email	N/A	No records on file

## 4.2 FIRE DEPARTMENT

Agency	Date Contacted	Method of Contact	Name & Title of Contact	Agency Response
Los Angeles Fire Department (LAFD)	May 23, 2023	Online	N/A	Records discussed below

### Records Summary

Date	Occupant	Document Type	Document Notes/Violations
May 21, 1925	1181 West Sunset Boulevard	Not titled	Four tanks removed and replaced (1181 West Sunset Boulevard)
September 8, 1960	Richfield Oil Co	Permit	Install four atmospheric tanks (1185 West Sunset Boulevard)
November 22, 1960	JW Marshall & Sons	Letter to LAFD	Six tanks have been removed from the site (1185 West Sunset Boulevard)
June 24, 1970	Atlantic Richfield	Permit	Alter piping (1185 West Sunset Boulevard)
October 18, 2011	Reliable Sash & Door	Hazardous Material Inventory	100 gallons of Henry Roof Coating, 10 gallons of paint, 10 gallons of poisons and pesticides, 100 gallons of wallboard joint compound (1229 West Sunset Boulevard)
May 27, 2022	Aragon Properties	UST Removal Permit	Removal of five USTs and associated piping (1185 West Sunset Boulevard)
November 29, 2022	Aragon (Sunset/Everett) Properties Corporation	Closure Letter	No further action is required and the case has been closed (1185 West Sunset Boulevard)

The subject property was formerly occupied by an auto repair shop and gas station at 1181 and 1185 West Sunset Boulevard. Due to the nature of operations, hazardous substances were stored/used on-site. USTs, a clarifier, and a sump was removed from 1185 West Sunset Boulevard. Refer to Section 3.0, 4.1, 4.3, 5.1, and/or 6.3 for additional information.

## 4.3 BUILDING DEPARTMENT

Agency	Date Contacted	Method of Contact	Name & Title of Contact	Agency Response
Los Angeles Department of Building & Safety (LADBS)	May 26, 2023	Online	N/A	Records discussed below

### Records Summary

Year(s)	Owner/Applicant	Description of Permit and Building Use
<b>1181-1187 West Sunset Boulevard</b>		
1914	Schermerhorse	Tenement house (1181)
1925	Shell	Service station (1181)
1938	Moroney	Service station office and restrooms (1181)
1960	Richfield Oil Co	Service station, new building (1185)
1960	Richfield Oil Co	New pump island and roof sign (1185)
2002	Steve Wintner	New detached patio accessory use to car wash (1185)

Year(s)	Owner/Applicant	Description of Permit and Building Use
2004	Steve Wintner	Use of land for used auto sales (1185)
<b>1189-1195 West Sunset Boulevard</b>		
1924	Grover	Dwelling (1193)
1975	Steve Wintner	Certificate of Occupancy for single-story warehouse (1195)
<b>1197-1203 West Sunset Boulevard</b>		
1905	Stebbin	Alteration (1201)
1908	Richert	Barn (1201)
1915	Stuart	Dwelling (1201)
1917	Grinn	Residence (1197)
1922	Heath	Store (1201)
1923	Heath	Dwelling, garage, and farm (1203)
1931	Chas Z	Alteration to store, family dwelling also on lot (1201 1/2)
1933	Heath	Oil depot, retail refractory oil (1201 1/2)
1963	Heath	Demolish family dwelling (1201-1201 1/2)
<b>1205-1207 West Sunset Boulevard</b>		
1922	Stires	Stores (1205, 1207)
1922	Barnett	Dwellings (1205 1/2, 1207 1/2)
1964	Day	Certificate of Occupancy for single-story stores and two-story duplexes (1205)
<b>1209-1231 West Sunset Boulevard</b>		
1926	Barnett	Public garage (1211)
1945	Cox	Dwelling (1215)
1946	Irving Koller	Alter gas station building into a store (1229)
1955	Koller	Sign shop (1227-1231)
1961	Illegible	Vacant lot (1219)
1965	Bodoni Limited	Parking lot, print shop (1211-1215)
1990	Wintner	Warehouse (1211-1219)
<b>1233-1239 West Sunset Boulevard</b>		
1922	Kane	Stores (1233-1237)
1933	Pipolo	Alter store to restaurant (1239)
<b>1241-1247 West Sunset Boulevard</b>		
1947	Illegible	Certificate of Occupancy for commercial building (1247)
1948	Koller	Certificate of Occupancy for offices (1243)
<b>917 Everett Street</b>		
1909	1193 Sunset Boulevard	Residence (917)

The subject property was formerly occupied by a service station, printing shop, and oil depot. These tenants indicate the prior use or storage of hazardous substances. Refer to Section 3.0, 4.1, 4.2, 5.1, and/or 6.3 for additional information.

Based on building permits, there was a former gas station building converted into a commercial store building in 1946. According to historical sources, AEI was not able to track the history of the portion of the subject property located at 1229 West Sunset Boulevard between the years 1906 to 1946 and this is considered a data gap. In a Sanborn map from 1906, this parcel appears to be vacant land. In a Sanborn map from 1950, this parcel appears to be occupied by a furniture store and/or manufacturer. By 1953, the building appears to have an extension added to the east side, and new addresses were assigned for this building in 1964 including 1227 and 1231 W. Sunset Boulevard. City directories for this address were not

provided. According to a building permit from 1946, this parcel was converted from a gas station to a store. It is possible that there was a gas station at this address sometime between 1906 to 1946. No other significant information was obtained by AEI. AEI completed a Phase II at the property in 2013. A total of 17 borings were advanced throughout the subject property for the collection of 1-groundwater sample and soil samples. Sample locations are depicted in Figure 2c within the appendices of this report. The borings were advanced to depths of 4.5 to 20 feet bgs. Borings were advanced at select locations of current and previously suspected industrial operations that could have impacted the subject property including one sample in the historical building noted as a gas station at 1229, and an additional sample in the eastern extension of the former building. A limited exterior GPR survey was conducted on the subject property. USTs were identified at the southern former gas station at 1185 W. Sunset Boulevard, and the exact area that the GPR survey area was conducted was not noted. However, the presence of tanks was not noted at the former central gas station. Additionally, no records of tanks were found from requested Fire Department records. It should be noted that a GPR survey was not available for the interior of the former subject building at 1185. However, based on recent construction activity, all former buildings have been demolished and cleared from the subject property with light surface soil grading noted. Based on the lack of contamination or tanks found during sampling, this is not considered a significant environmental concern. However, due to sampling limitations, it is AEI's opinion that a Soil Management Plan (SMP) be implemented prior to and redevelopment of the subject property in order to address any unknown issues or unidentified subsurface features that may be discovered during future construction activities.

\*Based on the volume of documents provided, this table only represents a sample of records made available to AEI. Refer to the Appendix for additional information.

#### 4.4 PLANNING DEPARTMENT

Agency	Date Contacted	Method of Contact	Name & Title of Contact	Agency Response
Zone Information and Map Access System (ZIMAS)	May 25, 2023	Online	N/A	Records discussed below

According to ZIMAS, the subject property is located near significant oil production areas known as “Methane Zones”. Methane Zone sites include properties immediately surrounding gas sources and where testing and mitigation are required by the City of Los Angeles Department of Building and Safety. Due to the potential environmental risk associated with construction in Methane Zones, the property owner is required to conduct a methane assessment prior to the redevelopment of the subject property (Division 71 of the Los Angeles Building Code).

#### 4.5 ASSESSOR'S OFFICE

Agency	Date Contacted	Method of Contact	Name & Title of Contact	Agency Response
Los Angeles County Assessor's Office	May 23, 2023	Online	N/A	Information obtained is discussed below

#### Records Summary

APN	5406-016-003, 6, 7, 10, 11, 13, 16, 19, 21, 23, 28
Acreage	Not provided
Construction Date	N/A

<b>Building Square Footage</b>	N/A
<b>Current Owner</b>	Not provided
<b>Additional Information</b>	N/A

#### 4.6 OTHER AGENCIES SEARCHED

Agency	Date Contacted	Method of Contact	Name & Title of Contact	Agency Response
CA State Water Resources Control Board (SWRCB) GeoTracker	May 25, 2023	Online	N/A	No records on file
SWRCB GeoTracker Historical Hazardous Substance Storage Information	May 25, 2023	Online	N/A	No records on file
CA Department of Toxic Substances Control (DTSC) Hazardous Waste Tracking System (HWTS)	May 25, 2023	Online	N/A	No records on file
CA DTSC EnviroStor	May 25, 2023	Online	N/A	No records on file
CalEPA Regulated Site Portal	May 25, 2023	Online	N/A	Refer to Section 5.1
South Coast Air Quality Management District (SCAQMD)	May 25, 2023	Online	N/A	No records on file

#### 4.7 OIL AND GAS WELLS

Agency	Date Referenced	Resource	Oil or gas wells located within 500 feet of the subject property
California Geologic Energy Management Division (CalGEM)	May 25, 2023	CalGEM Map	Information obtained is discussed below

Based on a review of historical sources and California Geologic Energy Management Division (CalGEM) maps, the subject property is situated within the Los Angeles Oil Field. No evidence of current or historical oil wells was found to be on the subject property. Refer to Section 4.4 for additional information.

#### 4.8 OIL AND GAS PIPELINES

Agency	Date Referenced	Resource	Pipelines located within 500 feet of the subject property
National Pipeline Mapping System (NPMS)	May 25, 2023	NPMS Public Map Viewer	No

#### 4.9 STATE ENVIRONMENTAL SUPERLIENS

In accordance with our approved scope of services, AEI did not assess whether the subject property is subject to any state environmental superliens.

#### 4.10 STATE PROPERTY TRANSFER LAWS

In accordance with our approved scope of services, AEI did not assess whether the subject property is subject to any state property transfer laws.

## 5.0 REGULATORY DATABASE RECORDS REVIEW

AEI contracted EDR to conduct a search of publicly available information from federal, state, tribal, and local databases containing known and suspected sites of environmental contamination and sites of potential environmental significance. Data gathered during the current regulatory database search is compiled by EDR into one regulatory database report. Location information for listed sites is designated using geocoded information provided by federal, state, or local agencies and commonly used mapping databases with the exception of "Orphan" sites. Due to poor or inadequate address information, Orphan sites are identified but not geocoded/mapped by EDR, rather, information is provided based upon vicinity zip codes, city name, and state. The minimum search distance from the federal and state environmental records database listings specified in the current ASTM Standard E1527 is included in Section 5.1. A copy of the regulatory database report, which includes detailed descriptions of the databases noted below as well as the total number of sites identified, is included in [Appendix C](#) of this report.

In determining if a listed site is a potential environmental concern to the subject property, AEI generally applies the following criteria to classify the site as lower potential environmental concern: 1) the site only holds an operating permit (which does not imply a release), 2) the site's distance from, and/or topographic position relative to, the subject property, and/or 3) the site has recently been granted "No Further Action" by the appropriate regulatory agency.

Regulatory database listings associated with the subject property, adjoining site(s) and/or nearby sites of concern that were determined to warrant additional discussion, if any, are identified and further discussed in Section 5.1.

### 5.1 RECORDS SUMMARY

Database	Search Distance (Miles)	Subject Property	Adjoining Site(s)	Other Nearby Sites of Concern
Federal NPL (Superfund) sites	1.0			
Federal Delisted NPL sites	0.5			
Federal CERCLA removals/orders sites	0.5			
Federal CERCLA sites with NFRAP	0.5			
Federal RCRA facilities undergoing Corrective Action	1.0			
Federal RCRA TSD facilities	0.5			
Federal RCRA generators (LQG, SQG, VSQG)	SP/ADJ			
Federal RCRA NonGen/NLR sites	SP/ADJ	✓	✓	
Federal IC/EC sites	SP			
Federal ERNS sites	SP			
State/tribal "Superfund" equivalent sites	1.0			
State/tribal hazardous waste facilities	0.5			
State/tribal landfill and solid waste disposal facilities	0.5			
State/tribal leaking storage tanks	0.5		✓	
State/tribal registered storage tanks	SP/ADJ			
State/tribal voluntary cleanup sites	0.5			

Database	Search Distance (Miles)	Subject Property	Adjoining Site(s)	Other Nearby Sites of Concern

<b>Facility Name</b>	B&F Auto Repair, Hernandez Fernando, Aragon Properties Corp, O&J Auto Repair and Sales,
<b>Address</b>	1185, 1187 West Sunset Boulevard
<b>Distance &amp; Direction</b>	Subject Property
<b>Hydrologic Position</b>	N/A
<b>Databases Listed</b>	RCRA NONGEN/NLR (2), HAZMAT, FINDS (3), ECHO (2), EDR HIST AUTO, HWTS (3), HAZNET, CERS HAZ WASTE
<b>Comments</b>	<p>Aragon Properties Corp is listed on the RCRA NONGEN/NLR database as no longer generating hazardous waste as of May 3, 2022. The NAICS description was listed as "other building equipment contractors." There were no violations and the types of hazardous wastes generated were not reported. The HAZMAT listing was marked as inactive in 2022.</p> <p>According to EDR HIST AUTO, this site was occupied by a gas station from 1969 to 1979 and an auto shop from 1994 to 2014. A HWTS listing for O&amp;J Auto was created in 2006 and marked as inactive in 2011. A HWTS listing for O&amp;J Auto was created and marked as inactive in 2002. The NAICS description was listed as general automotive repair. One violation was listed on CalEPA, however the nature of the violation was not described. The HWTS listing for B&amp;F Auto Repair was created in 2013 and marked as inactive in 2015. Refer to Sections 3.0 and 6.3 for additional information about the prior auto repair shops.</p>

<b>Facility Name</b>	Reliable Sash & Door
<b>Address</b>	1229 West Sunset Boulevard
<b>Distance &amp; Direction</b>	Subject Property
<b>Hydrologic Position</b>	N/A
<b>Databases Listed</b>	FINDS, HAZMAT
<b>Comments</b>	The last "run date" was listed as November 1, 2022 and the facility status was listed as "inactive." The SIC code was listed as "lumber and other building materials dealers." No other significant information was provided. Based on the nature of occupation and lack of a documented release, this site is not expected to represent a significant environmental concern.

<b>Facility Name</b>	Devin J H
<b>Address</b>	1211 West Sunset Boulevard
<b>Distance &amp; Direction</b>	Subject Property
<b>Hydrologic Position</b>	N/A
<b>Databases Listed</b>	EDR HIST AUTO
<b>Comments</b>	According to EDR HIST AUTO, this site was occupied by an auto shop and gas station in 1929. No other significant information was provided. Refer to Section 3.0 for additional information.

<b>Facility Name</b>	Combs Jas
<b>Address</b>	1181 West Sunset Boulevard

<b>Distance &amp; Direction</b>	Subject Property
<b>Hydrologic Position</b>	N/A
<b>Databases Listed</b>	EDR HIST AUTO
<b>Comments</b>	According to EDR HIST AUTO, this site was occupied by a gas station in 1942. No other significant information was provided. Refer to Section 3.0 for additional information.

<b>Facility Name</b>	Judy Chiu
<b>Address</b>	817 White Knoll Drive
<b>Distance &amp; Direction</b>	Adjoining to the south (approximately 70 feet)
<b>Hydrologic Position</b>	Down-gradient
<b>Databases Listed</b>	RCRA NONGEN/NLR
<b>Comments</b>	The facility is listed on the RCRA NONGEN/NLR database as no longer generating hazardous waste as of October 9, 2018. The NAICS description was listed as "all other waste management services." There were no violations and the types of hazardous wastes generated were not reported. Based on the lack of a documented release, the review of regulatory agency files for this site was not deemed necessary, and the site is not expected to represent a significant environmental concern.

<b>Facility Name</b>	Seng Auto, Sackman G D, Kathleen Ross Property
<b>Address</b>	1165, 1167 West Sunset Boulevard
<b>Distance &amp; Direction</b>	Adjoining to the south (approximately 70 feet)
<b>Hydrologic Position</b>	Down-gradient
<b>Databases Listed</b>	EDR HIST AUTO (2), LUST, SWEEPS UST, CA FID UST, HAZMAT, CERS (2), CORTESE, HIST CORTESE
<b>Comments</b>	This site has been occupied by a gas station from at least 1933 to 1974 and an auto repair shop from 1975 to 2014. Numerous violations regarding hazardous substance protocol were listed with some as recent as 2022. It appears that there is at least one outstanding violation from April 28, 2022. This site was also identified as a LUST site. The soil at this site was reportedly impacted by other solvent or non-petroleum hydrocarbons. This case was opened in 1990 and received closure in 1998. Soil was listed as the only media impacted and no groundwater impacts were listed. Based on the current regulatory status, media impacted, and inferred direction of groundwater flow, this adjacent site is not expected to represent a significant environmental concern to the subject property at this time.

<b>Facility Name</b>	Russell Beilfuss
<b>Address</b>	1185-1427 1/2 West Sunset Boulevard
<b>Distance &amp; Direction</b>	Subject Property and nearby properties
<b>Hydrologic Position</b>	Up-gradient for nearby properties
<b>Databases Listed</b>	FINDS, ECHO, RCRA NONGEN/NLR, HWTS, HAZNET
<b>Comments</b>	The facility is listed on the RCRA NONGEN/NLR database as no longer generating hazardous waste as of August 1, 2018. The NAICS description was listed as "all other waste management services." There were no violations and the types of hazardous wastes generated were not reported. In 2018, 0.23 tons of asbestos-containing waste. The HWTS listing was created and marked as inactive in 2018. Based on the lack of a documented release, this site is not expected to represent a significant environmental concern.

Additional listings: This facility was also listed on other database(s) as noted above; however, as these listings are not associated with a release, the radii prescribed by the current ASTM Standard E1527 standard does not require that these listings be specifically discussed. Notwithstanding, based on our review of available information, none of these listings appears to pose a significant environmental concern in connection with the subject property at this time.

## 5.2 VAPOR MIGRATION

AEI reviewed reasonably ascertainable information for the subject and nearby properties, including a regulatory database, files for nearby release sites, and/or historical documentation, to determine if potential vapor-phase migration concerns may be present which could impact the subject property.

AEI did not identify significant on-site concerns and/or regulated listings from nearby sites which suggest that a vapor-phase migration concern currently exists at the subject property.

### 5.3 PFAS-RELATED REGULATORY DATABASE LISTINGS (EMERGING CONTAMINANTS)

As defined in Section 3.2.36 of the current ASTM Standard E1527, hazardous substance means “those substances defined as a hazardous substance pursuant to CERCLA 42 USC § 9601(14), as interpreted by EPA regulations and the courts.” There are some substances that non-environmental professionals and others may assume to be hazardous substances that are not defined (or not yet defined) as hazardous substances under CERCLA, through interpretation by EPA regulations and the courts. These substances may include: (i) some substances that occur naturally or through biological digestion (for example, methane), and (ii) substances about which human understanding is evolving (for example, per- and polyfluoroalkyl substances, also known as “PFAS”). These and any other “emerging contaminants,” where they are not identified as a hazardous substance by CERCLA, as interpreted by EPA regulations and the courts, are not included in the scope of this standard. Some of these substances may be considered a “hazardous substance” (or equivalent) under applicable state laws. In those instances, where a Phase I ESA is performed to satisfy both federal and state requirements, or as directed by the user of the report, it is permissible to include analysis and/or discussion of these substances, in the same manner as any other Non-Scope Consideration. If and when such emerging contaminants are defined to be a hazardous substance under CERCLA, as interpreted by EPA regulations and the courts, such substances shall be evaluated within the scope of this standard.

As an initial screening tool for potential PFAS contamination, AEI reviewed PFAS-related database listings from EDR.

It should be noted that AEI's limited PFAS screening is based solely on review of the resources cited. Identification, or lack thereof, is not a warranty that PFAS contamination is present or absent at a site. Additionally, it should be noted that given the evolving nature of science and regulatory oversight of PFAS, additional sources of PFAS contamination may exist at the subject property, adjoining sites and/or other other nearby sites not identified by the limited screening tools reviewed.

Source	Subject Property Identified	Adjoining Site(s) Identified	Other Nearby Site(s) of Concern Identified	Comments
EDR PFAS Regulatory Database Listing(s)				No listings warranting discussion were identified

## 6.0 INTERVIEWS AND USER PROVIDED INFORMATION

### 6.1 INTERVIEWS

Pursuant to the current ASTM Standard E1527, the following interviews were performed during this assessment in order to obtain information indicating RECs in connection with the subject property.

#### 6.1.1 OWNER AND KEY SITE MANAGER

Relation to Property	Name	Date Interviewed	Method of Contact	Year First Associated w/ Property	Notes
Owner/Owner Representative	Aragon Properties Corp.	N/A	N/A	2013	Not interviewed; refer to Section 1.5
Key Site Manager	Mr. Jeff Farrington, Manager	May 24, 2023	Email	2022	Interviewed; see Interview Summary table below

#### INTERVIEW SUMMARY

Question	Owner (Representative) Response/ Comment	Key Site Manager Response/ Comment
Do you have any knowledge of USTs, clarifiers or oil/water separators, sumps, or other subsurface features?	N/A	Yes; prior USTs
Do you have any knowledge of previous environmental investigations conducted on site?	N/A	Yes; refer to Section 6.3
Do you have any knowledge of current or past industrial operations and/or other operations which would involve the use of hazardous substances and/or petroleum products?	N/A	Unknown
Are you aware of any known plans for site redevelopment or change in site use?	N/A	Yes; apartment building
Are you aware of any pending, threatened, or past litigation relevant to hazardous substances or petroleum products in, on, at, or from the subject property?	N/A	No
Are you aware of any pending, threatened or past administrative proceedings relevant to hazardous substances or petroleum products in, on, at, or from the subject property?	N/A	No
Are you aware of any notices from any governmental entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products?	N/A	No
Are you aware of any incidents of flooding, leaks, or other water intrusion, and/or complaints related to indoor air quality?	N/A	No

#### 6.1.2 PAST OWNERS, OPERATORS, AND OCCUPANTS

AEI did not attempt to interview past owners, operators, and occupants of the subject property because information from these sources would likely be duplicative of information already obtained from other sources.

### 6.1.3 INTERVIEW WITH OTHERS

Information obtained during interviews with local government officials is incorporated into the appropriate segments of this report.

### 6.2 USER PROVIDED INFORMATION

User provided information is intended to help identify the possibility of RECs in connection with the subject property. According to the current ASTM Standard E1527 and the EPA Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), certain items should be researched by the prospective landowner or grantee, and the results of such inquiries may be provided to the Environmental Professional. The responsibility for qualifying for LLPs by conducting the inquiries ultimately rests with the User, and providing the information to the Environmental Professional would be prudent if such information is available.

The User did not complete the ASTM User Questionnaire or provide the User information to AEI. AEI assumes that qualification for the LLPs is being established by the User in documentation outside of this assessment.

Question	Response/ Comment
<p><b>1. Environmental liens that are filed or recorded against the property (40 CFR 312.25)</b></p> <p>Did a search of recorded land title records (or judicial records where appropriate) identify any environmental liens filed or recorded against the property under federal, tribal, state or local law?</p>	Information not provided
<p><b>2. Activity and use limitations that are in place on the property or that have been filed or recorded against the property (40 CFR 312.26(a)(1)(v) and vi).</b></p> <p>Did a search of recorded land title records (or judicial records where appropriate) identify any AULs, such as engineering controls, land use restrictions or institutional controls that are in place at the property and/or have been filed or recorded against the property under federal, tribal, state or local law?</p>	Information not provided
<p><b>3. Specialized knowledge or experience of the person seeking to qualify for the LLP (40 CFR 312.28).</b></p> <p>Do you have any specialized knowledge or experience related to the property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the property or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business?</p>	Information not provided
<p><b>4. Relationship of the purchase price to the fair market value of the property if it were not contaminated (40 CFR 312.29).</b></p> <p>Does the purchase price being paid for this property reasonably reflect the fair market value of the property? If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the property?</p>	Information not provided
<p><b>5. Commonly known or reasonably ascertainable information about the property (40 CFR 312.30).</b></p> <p>Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example:</p> <p>(a) Do you know the past uses of the property?</p> <p>(b) Do you know of specific chemicals that are present or once were present at the</p>	Information not provided

Question	Response/ Comment
property? (c) Do you know of spills or other chemical releases that have taken place at the property? (d) Do you know of any environmental cleanups that have taken place at the property?	
<b>6. The degree of obviousness of the presence or likely presence of contamination at the property, and the ability to detect the contamination by appropriate investigation (40 CFR 312.31).</b>  Based on your knowledge and experience related to the property, are there any obvious indicators that point to the presence or likely presence of contamination at the property?	Information not provided

### 6.3 PREVIOUS REPORTS AND OTHER PROVIDED DOCUMENTATION

Documentation was provided to AEI by the client during this assessment. A summary of this information follows:

*Phase I Environmental Site Assessment (1185-1245 West Sunset Boulevard), prepared by AEI Consultants (February 26, 2013):*

This report describes the subject property generally consistent with current conditions with the following exceptions:

At the time of investigation the subject property was developed with commercial buildings and the subject property is now vacant land. The prior report noted RECs for the following features: prior gas station/presence of USTs located at 1185 West Sunset Boulevard, a clarifier in the auto garage located at 1185 West Sunset Boulevard, prior industrial uses throughout the subject property, and a potential gas station located at 1229 West Sunset Boulevard.

The prior report also noted other environmental concerns including a clarifier for a car wash, former hydraulic lift (appeared to be removed) within the former auto repair shop building, asbestos-containing materials, and lead-based paint. According to the prior report, AEI observed an area within the former auto garage that is indicative of a former underground hydraulic lift. It is unknown when the lifts were installed but it appeared that the underground lift was removed from the site. There was also an above-ground lift noted on site.

This site has operated as a gas station from at least 1927 and as an automotive repair from at least the mid 1960's. Therefore, it is possible that the former underground lift was installed as early as the 1960's. Polychlorinated biphenyls (PCBs) were used in the past in dielectric fluids and oils in a variety of equipment, including hydraulic lift equipment. Soil testing was reportedly conducted by Petra in 2007 and no significant impacts were reported.

The report noted three RECs for the southern gas station, various historical industrial uses within several buildings on the subject property, and a historical gas station in the central part of the subject property located at 1229 West Sunset Boulevard.

A hazardous waste storage area was noted on the exterior of the auto repair shop located at 1185 West Sunset Boulevard, and this was noted as a De Minimis Condition with minor staining around drums.

Business Environmental Risks included Methane zone, two clarifiers, underground lift, asbestos and lead based paint management.

AEI recommended conducting a Phase II Subsurface Investigation due to the RECs observed.

The prior report included an analysis of a Phase I ESA from 2005:

*Draft Phase I Environmental Site Assessment and Limited Subsurface Investigation for the Property Located at Sunset Boulevard and Everett Street, prepared by Petra Geotechnical, Inc. (April 14, 2005):*

According to the executive summary (entirety of report not provided, and noted as draft copy) of the previous report conducted by Petra Geotechnical, Inc. (Petra), the subject property consisted of a hardware store with associated storage buildings, a residence, a car wash, multiple bungalows, a vacant lot and a restaurant. Petra identified historical land use to consist of multiple residences, a janitorial supply/disinfectant manufacturer, a sprinkler/valve manufacturer, a gas station, a temple, a car wash, and a restaurant. Based on the date of construction of the current buildings at the subject property, Petra determined that asbestos-containing materials (ACM) and lead-based paints (LBP) may be present. According to the owner of the property, four gasoline underground storage tanks (USTs) are currently present beneath the car wash on the southern portion of the property. Petra identified a REC for the former gas station, which was present from the 1960's to the mid-1970's. Petra recommending a Limited Phase II Subsurface Investigation to determine if a significant release occurred in the past. The Limited Phase II Subsurface Investigation was conducted on March 31, 2005. A subsurface geophysical survey was conducted on site to delineate the location of the four USTs and fuel distribution lines heading to a fuel island. A waste oil UST in the rear of the car wash was delineated, as well as an area within an auto shop site which appeared to have formerly had a hydraulic hoist present. Petra advanced 15 borings in the vicinity of the delineated areas based on proximity to the areas of concern. The borings were drilled to a total depth of approximately 25 feet below ground surface (bgs). The samples were analyzed for volatile organic compounds (VOC) and total petroleum hydrocarbons (TPH). The results of the soil sample analysis were that trace amounts of TPH were encountered in one sample collected at 22 feet bgs from the vicinity of the waste oil UST. No detectable concentrations were found in a five feet bgs sample taken from the same boring. Petra concluded that these levels did not indicate a significant release from the waste oil tank. Petra was unable to find evidence that the site had been impacted from petroleum hydrocarbons and/or VOCs related to the former site use. However, borings could only be collected from the vicinity of the USTs and not directly below them. Therefore, Petra stated that there is a potential that impact to site soils is present directly below the USTs. Petra stated that the fact that no lateral contamination was detected in samples deeper than the bottom of the UST appears to indicate that a large scale release has not occurred. Petra recommended removing and disposing of all USTs on site in accordance with current regulation, prior to site development. Petra also recommended that if the current buildings were to be demolished or upgraded, a survey for asbestos and lead-based paint be conducted and any identified materials be abated.

A copy of the report is included in the appendices.

*Phase II Subsurface Investigation (1185 - 1245 West Sunset Boulevard, Los Angeles, California 90026), prepared by AEI Consultants (March 22, 2013)*

AEI had completed a Phase II at the property to evaluate if the current and historic on-site operations had adversely impacted the subject property. A total of 17 borings were advanced throughout the subject property for the collection of 1-groundwater sample and soil samples. Groundwater encountered at approximately 16 feet bgs. The borings were advanced to depths of 4.5 to 20 feet bgs. Borings were advanced at select locations of current and previously suspected industrial operations that could have impacted the subject property. The results of this investigation were compared to USEPA RSLs and California RWQCB ESLs. The equipment used in this investigation consisted of a Geonics electromagnetic (EM)-61 high sensitivity metal detector, a Fischer M-Scope, and ground penetrating radar (GPR). Within the area surveyed, the USTs were identified and mapped along the southwestern property addressed as 1185 West Sunset Boulevard. No other undocumented USTs, buried drums or any other anomalous buried objects were detected. Following sampling, each boring was backfilled with hydrated granular bentonite and capped with concrete at ground surface. VOCs and TPH were not detected in soil samples above the laboratory detection limits. VOCs and TPH were not detected in the groundwater sample above the laboratory detection limits. Due to the lack of a release detected, AEI does not recommend any further action for the subject property at this time.

A copy of the report is included in the appendices.

*Soils Report (1185 Sunset Boulevard, Los Angeles, CA), prepared by Citadel EHS (September 28, 2022):*

The buildings that were formerly located on the subject property were demolished in June 2022. On July 14, 2022, five USTs (#2-#6) were removed from the site including two 6,000-gallon tanks of gasoline, a 2,000-gallon tank of gasoline, a 2,000-gallon tank of unknown contents, and a 150-gallon waste oil tank. The tanks were made of single-walled steel. A sump and one of the two clarifiers were also removed from the site on August 11, 2022. Samples were taken from the USTs and clarifiers, other than UST #5 and the clarifier in the auto garage due to inaccessibility. A sample was also taken from the sump. Hydrocarbons, VOCs, and lead were detected in USTs #2, #3, and #4. TPHd and TPHo were detected in the clarifier and sump. The sample from the sump had concentrations above construction worker exposure screening levels. Copper, lead, and chromium detected in samples were reported above Soluble Threshold Limit Concentration (STLC) thresholds but below STLC regulatory limits. These contaminants were not classified as hazardous waste. During tank removal, VOCs were detected in the soil up to 162 ppmv. Soil under UST #3 was stained and smelled of gasoline. VOCs exceeded the instrument limit of 10,000 ppmv. No holes were observed in the USTs following removal. Approximately 14 cubic yards of gasoline contaminated soil and 17 cubic yards of VOC contaminated soil was excavated. TPHg was detected in 0714-3-WEST at 740 mg/kg, which is above the LAFD minimum action level (MAL) of 100 mg/kg. The soil surrounding this sample was removed. No TPHg was detected in a subsequent sample (UST-SOIL-081122) near the site of 0714-3-WEST. Arsenic was detected in all samples above the Residential Screening Levels (RSL) at 0.11 mg/kg. However, the concentrations are below the DTSC background arsenic level of 12 mg/kg. Citadel EHS recommended no further action in regards to the USTs. The LAFD issued a No Further Action letter on November 29, 2022.

A copy of the report is included in the appendices.

Note: As the above documentation was not prepared by AEI, the information obtained was not verified for accuracy and a critique of the information contained therein is beyond the scope of this assessment.

#### 6.4 ENVIRONMENTAL LIEN AND AUL SEARCH

In accordance with our approved scope of services, an environmental lien search was not performed as part of this assessment.

## 7.0 SITE RECONNAISSANCE

<b>Site Reconnaissance Date</b>	May 31, 2023
<b>AEI Site Assessor(s)</b>	Caroline Hanna
<b>Property Escort(s)/ Relationship(s) to Property</b>	N/A
<b>Units/Areas Observed</b>	Entire parcel
<b>Area(s) not accessed and reason(s)</b>	N/A
<b>Other Physical Constraints</b>	Large parcel
	Refer to <a href="#">Section 1.5</a> for discussion of limiting condition(s)
<b>General Observations</b>	The subject property is comprised of vacant land with some minor debris, remaining asphalt/concrete features, a parking lot, and billboards.

### Reconnaissance Findings Summary

Feature	Observed on Subject Property (see Section 7.1)	Observed on Adjoining Property (see Section 7.2)
Regulated Hazardous Substances/Wastes and/or Petroleum Products in Connection with Property Use (including drums, totes, and intermediate bulk containers)		✓
Aboveground/Underground Hazardous Substance or Petroleum Product Storage Tanks (ASTs/USTs)		
Hazardous Substance and Petroleum Product Containers Not in Connection with Property Use		
Unidentified Substance Containers		
Electrical or Mechanical Equipment Likely to Contain Fluids		✓
Interior Stains or Corrosion		
Strong, Pungent, or Noxious Odors		
Pools of Liquid		
Drains, Sumps, and Clarifiers		
Pits, Ponds, and Lagoons		
Stained Soil or Pavement		
Stressed Vegetation		
Solid Waste Disposal or Evidence of Fill Materials		
Waste Water Discharges		
Wells		
Septic Systems or Cesspools		
Biomedical Wastes		
Other	✓	

### 7.1 SUBJECT PROPERTY RECONNAISSANCE FINDINGS

During the site reconnaissance, AEI observed the item listed in the above Reconnaissance Findings Summary table, which is further discussed below.

#### 7.1.1 OTHER

Minor amounts of debris was observed on-site. Based on the small quantity and type of debris, this is not expected to represent a significant environmental concern.

## 7.2 ADJOINING PROPERTY RECONNAISSANCE FINDINGS

During the site reconnaissance, AEI observed the items listed in the above Reconnaissance Findings Summary table, which are further discussed below.

### 7.2.1 REGULATED HAZARDOUS SUBSTANCES/WASTES AND/OR PETROLEUM PRODUCTS IN CONNECTION WITH PROPERTY USE (INCLUDING DRUMS, TOTES, AND INTERMEDIATE BULK CONTAINERS)

The adjoining site to the south was observed to be occupied by an auto repair facility. Based on the nature of use, hazardous substances and/or petroleum products are likely utilized/stored on the site. This site was identified in the regulatory database and is further discussed in [Section 5.1](#).

### 7.2.2 ELECTRICAL OR MECHANICAL EQUIPMENT LIKELY TO CONTAIN FLUIDS

Toxic PCBs were commonly used historically in electrical equipment such as transformers, fluorescent lamp ballasts, and capacitors. According to United States EPA regulation 40 CFR, Part 761, there are three categories for classifying such equipment: <50 ppm of PCBs is considered "Non-PCB"; between 50 and 500 ppm is considered "PCB-Contaminated"; and >500 ppm is considered "PCB-Containing." Pursuant to 15 U.S.C. 2605(e)(2)(A), the manufacture, process, or distribution in commerce or use of any polychlorinated biphenyl in any manner other than in a totally enclosed manner was prohibited after January 1, 1977.

#### *Transformer(s)*

The management of potential PCB-containing transformers is the responsibility of the local utility or the transformer owner. Actual material samples need to be collected to determine if transformers are PCB-containing.

Eleven pole-mounted transformers were observed on the adjoining sites during the site reconnaissance. No spills, staining, or leaks were observed on or around the transformers. Based on the good condition of the equipment, the transformers are not expected to represent a significant environmental concern.

## 8.0 NON-ASTM SERVICES

---

### 8.1 ASBESTOS-CONTAINING BUILDING MATERIALS

The subject property is currently vacant land and lacks structures. Consequently, no building components containing suspect asbestos containing materials were identified during the site inspection.

### 8.2 LEAD-BASED PAINT

The subject property is currently vacant land and lacks structures. Consequently, AEI did not observe building components likely to contain suspect LBP during the site reconnaissance.

### 8.3 NATURALLY-OCCURRING RADON

Radon is a naturally-occurring, odorless, and invisible gas. Natural radon levels vary and are closely related to geologic formations. Radon may enter buildings through basement sumps or other openings.

Radon sampling was not requested as part of this assessment. According to the California Department of Health Services Radon Database, 56 tests were conducted for radon levels in the subject property zip code (90026) in 2016. Six of the tests exceeded the action level of 4.0 pCi/L set forth by the US EPA. While a relatively small percentage of the test results exceeded the EPA threshold, the majority of the locations sampled were below 4.0 pCi/L. Consequently, radon does not appear to be a widespread concern; however, radon sampling would be required to determine site-specific radon levels.

### 8.4 SUSPECT MOLD OR MICROBIAL GROWTH CONDITIONS

The subject property is currently vacant land and lacks structures. Consequently, mold was not addressed as part of this assessment.

## 9.0 SIGNATURE OF ENVIRONMENTAL PROFESSIONALS

---

I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in § 312.10 of 40 CFR Part 312.

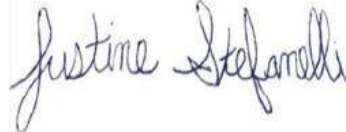

I have the specific qualifications based on education, training, and experience to assess a property of the nature, history and setting of the subject property. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

## SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

## STANDARD ENVIRONMENTAL RECORDS

### ***Lists of Federal RCRA generators***

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 03/06/2023 has revealed that there is 1 RCRA-LQG site within approximately 1 miles of the target property.

## EXECUTIVE SUMMARY

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 03/06/2023 has revealed that there are 6 RCRA-SQG sites within approximately 1 miles of the target property.

### ***Lists of state- and tribal hazardous waste facilities***

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information

## EXECUTIVE SUMMARY

that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 01/23/2023 has revealed that there are 19 ENVIROSTOR sites within approximately 1 of the target property.

### **Other Ascertainable Records**

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 03/06/2023 has revealed that there are 20 RCRA NonGen / NLR sites within approximately 1 miles of the target property.

## EXECUTIVE SUMMARY

### EDR HIGH RISK HISTORICAL RECORDS

#### ***EDR Exclusive Records***

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 6 EDR Hist Auto sites within approximately 1 miles of the target property.

EDR Hist Cleaner: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Cleaner list, as provided by EDR, has revealed that there are 2 EDR Hist Cleaner sites within approximately 1 miles of the target property.

**Environmental Interest/Information System:**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

CA Enviroscreen 3 Score: 91-95%  
CA Enviroscreen 4 Score: 90-95%  
Military DOD Site: No  
Facility Project Subtype: Not reported  
RWQCB Region: LOS ANGELES RWQCB (REGION 4)  
Site History: The Site is approximately 0.12 acres located at 806 North Beaudry Avenue in Los Angeles, California (the Site). The Site was acquired by the State of California, Division of Oil, Gas, and Geothermal Resources (DOGGR) in 1992, which until 2005, featured two oil production wells and related support infrastructure, including indications of an underground storage tank (UST) used to store oil onsite. The Site has been vacant since 2005 and is impacted with total petroleum hydrocarbons (TPH) in soil, potentially groundwater, and methane in soil gas. The State of California, Department of General Services (DGS) plans to divest the property. DGS is evaluating potential environmental issues related to divestiture of the site, and intends to implement remedial actions to reduce the site impacts to levels protective of human health and the environment.

storage. Annual employee safety training records were not maintained. Facility has also not electronically disclosed the onsite hazardous materials inventory or submitted a business emergency plan in California Environmental Reporting System (CERS). Please go to <https://cersbusiness2.calepa.ca.gov> to complete a chemical inventory disclosure and business emergency plan. The facility is responsible for identifying all hazardous materials, to include hazardous wastes, which are above disclosure thresholds. If there is a change in the type or amount of chemicals that are maintained on site, please submit revised documents (electronically) within 30 days of the change.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and

**Environmental Interest/Information System:**

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Citation: HSC 6.95 25508(a)(3) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(3)  
Violation Description: Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.  
Violation Notes: Review, update and resubmit the Hazardous Materials Inventory into CERS to include all hazardous material stored in a capacity equal to or greater than 55 gallons of liquid, 200 cubic feet of compressed gas or 500 pounds in weight of a solid. Please correct the following: Keep only Propane 1000 cu ft and Oil 165 gallons, and remove all other Inventory items. A review of your inventory has determined that you still have the previous federal categories selected and/or have NOT selected any of the NEW federal hazard categories for your chemical inventory. Please review your hazardous material inventory and correct federal hazard categories. You may refer to Section 2 of a current Safety Data Sheets (SDS) (previously called an MSDS) to determine which of the new federal hazard categories apply.

Environmental Interest/Information System:

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

CERS Description: Construction Storm Water

**Evaluation:**

Eval General Type: Compliance Evaluation Inspection  
Eval Date: 01-10-2020  
Violations Found: No  
Eval Type: Industrial Storm Water Compliance Evaluation

Eval Notes: Staff discussed the inspection findings with Mr. Esposito. Mr. Esposito contacted site personnel to order new gravel bags while Staff was onsite. Staff observed a street sweeper by the entrance to where minor sediment track-out was observed and requested that Mr. Esposito send a photograph to show that it is swept. On January 17, 2020, Mr. Esposito sent a photograph to Staff showing that the SWPPP was onsite and notified Staff that the stormwater representative would address the remaining issues. On February 4, 2020, Staff followed up to inquire about the remaining action items.

Completed Area Name: PROJECT WIDE  
Completed Sub Area Name: Not reported  
Completed Document Type: Preliminary Endangerment Assessment Report  
Completed Date: 01/18/2005  
Comments: The SI included Geophysical survey; soil sampling and analysis; groundwater sampling and analysis; assessing the nature and extent of contamination; assessing the fate and transport of contaminants and assessing potential risk to human health. Based on the results, it is recommended that the site no longer considered a CERCLA IR site, and should fall under State of California UST program. DTSC concurs with this recommendation.

Background Info: The Naval and Marine Corps Reserve Center, Los Angeles (NMCRC-LA) consists of approximately 6 acres of land, approximately 1 mile northeast of downtown Los Angeles. This site is a closed reserve center where Naval or Marine Corps activities are no longer conducted. NMCRC-LA was constructed from 1938 to 1940 by the Works Progress Administration and was commissioned in 1940 to provide administrative, training, and logistics support to reserve units. The facility has one Installation Restoration site, identified as Site 1, the former Service Station and Vehicle Lube Rack. The former service Station was built in 1943 and was used for fueling vehicles on site. The aboveground portion of the station has been removed. Adjacent to the former Service Station, the Vehicle Lube Rack was used for vehicle maintenance and drained directly to a waste of oil underground storage tank(UST). Between 1987 to 1989, hazardous substances (including used oil, solvents, hydraulic fluid, and other new and used vehicle maintenance products) were stored in 55-gallon drums on the Vehicle Lube Rack. In November 1994, the waste oil UST was removed in 1994 under supervision of the Los Angeles Fire Department. Soil with detected levels of total recoverable petroleum hydrocarbons was excavated and disposed off site. In 1995, an Environmental Baseline Study (EBS) was conducted. The EBS identified the Vehicle Lube Rack and the former Service Station gasoline UST as areas requiring further investigation. In 1996, a subsurface soil investigation conducted for Site 1 indicated the presence of gasoline-range hydrocarbons, benzene, toluene, ethylbenzene, total xylenes, and 1,2-dichloroethane.  
Comments Date: 01182005  
Comments: The SI included Geophysical survey; soil sampling and analysis; groundwater sampling and analysis; assessing the nature and extent of contamination; assessing the fate and transport of contaminan

**Environmental Interest/Information System:**

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Completed Document Type: Risk Assessment Report  
Completed Date: 12/18/2013  
Comments: DTSC approved the HHRE. Based on the HHRE, the residual petroleum-related VOCs detected in soil vapor do not pose an unacceptable risk to future occupants in the proposed multi-level buildings.

Completed Area Name: PROJECT WIDE  
Completed Sub Area Name: Not reported  
Completed Document Type: Technical Report  
Completed Date: 04/01/2015  
Comments: Approval of Final Utility Trench Results

Completed Area Name: PROJECT WIDE  
Completed Sub Area Name: Not reported  
Completed Document Type: Removal Action Completion Report  
Completed Date: 10/21/2014  
Comments: DTSC approved final TCRA Completion Report.

Completed Area Name: PROJECT WIDE  
Completed Sub Area Name: Not reported  
Completed Document Type: Site Characterization Report  
Completed Date: 12/20/2013  
Comments: DTSC approved the Soil Vapor Survey Results and determined no further environmental investigation of the Site is required.

Completed Area Name: PROJECT WIDE  
Completed Sub Area Name: Not reported  
Completed Document Type: Preliminary Endangerment Assessment Report  
Completed Date: 08/27/2013  
Comments: Further action required at the Site.

Completed Area Name: PROJECT WIDE  
Completed Sub Area Name: Not reported  
Completed Document Type: Site Characterization Workplan  
Completed Date: 09/18/2013  
Comments: DTSC reviewed and approved the Soil Vapor Sampling Plan to characterize the presence and nature of VOCs, methane, and hydrogen sulfide in the vadose zone beneath the proposed building foundation.

Completed Area Name: PROJECT WIDE  
Completed Sub Area Name: Not reported  
Completed Document Type: Technical Workplan  
Completed Date: 12/18/2013  
Comments: DTSC concurred with the Risk Management Plan for soil, soil vapor, and groundwater for implementation.

Completed Area Name: PROJECT WIDE  
Completed Sub Area Name: Not reported  
Completed Document Type: Standard Voluntary Agreement  
Completed Date: 06/09/2013  
Comments: DTSC and Project Proponent (Forest City Blossom, LLC) entered into a Voluntary Cleanup Agreement to review and comment on PEAE documents.

Completed Area Name: PROJECT WIDE  
Completed Sub Area Name: Not reported  
Completed Document Type: Amendment - Order/Agreement  
Completed Date: 11/01/2013  
Comments: VCA Amendment to amend Scope of Work and DTSC Oversight Cost Estimate

Completed Area Name: PROJECT WIDE  
Completed Sub Area Name: Not reported  
Completed Document Type: No Further Action Letter  
Completed Date: 12/20/2013  
Comments: Based on available Site data, DTSC concludes that further environmental investigation of the Site is not required.

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

**Number of Days to Update:** Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

## **STANDARD ENVIRONMENTAL RECORDS**

### ***Lists of Federal NPL (Superfund) sites***

#### **NPL: National Priority List**

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 04/26/2023	Source: EPA
Date Data Arrived at EDR: 05/02/2023	Telephone: N/A
Date Made Active in Reports: 05/17/2023	Last EDR Contact: 05/02/2023
Number of Days to Update: 15	Next Scheduled EDR Contact: 07/10/2023
	Data Release Frequency: Quarterly

#### **Proposed NPL: Proposed National Priority List Sites**

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 04/26/2023	Source: EPA
Date Data Arrived at EDR: 05/02/2023	Telephone: N/A
Date Made Active in Reports: 05/17/2023	Last EDR Contact: 05/02/2023
Number of Days to Update: 15	Next Scheduled EDR Contact: 07/10/2023
	Data Release Frequency: Quarterly

#### **NPL LIENS: Federal Superfund Liens**

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

## ***Lists of Federal Delisted NPL sites***

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 04/26/2023

Next Scheduled EDR Contact: 07/10/2023  
Data Release Frequency: Varies

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 04/26/2023

Data Release Frequency: Quarterly

## ***Lists of Federal CERCLA sites with NFRAP***

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

Date of Government Version: 04/26/2023	Source: EPA
Date Data Arrived at EDR: 05/02/2023	Telephone: 800-424-9346

## ***Lists of Federal RCRA TSD facilities***

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Date of Government Version: 03/06/2023	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/09/2023	Telephone: (415) 495-8895
Date Made Active in Reports: 03/20/2023	Last EDR Contact: 03/09/2023
Number of Days to Update: 11	Next Scheduled EDR Contact: 07/03/2023
	Data Release Frequency: Quarterly

## ***Lists of Federal RCRA generators***

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 03/06/2023	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/09/2023	Telephone: (415) 495-8895
Date Made Active in Reports: 03/20/2023	Last EDR Contact: 03/09/2023

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

Date of Government Version: 03/06/2023	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/09/2023	Telephone: (415) 495-8895
Date Made Active in Reports: 03/20/2023	Last EDR Contact: 03/09/2023
Number of Days to Update: 11	Next Scheduled EDR Contact: 07/03/2023
	Data Release Frequency: Quarterly

## RCRA-VSQG: RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

Date of Government Version: 03/06/2023	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/09/2023	Telephone: (415) 495-8895
Date Made Active in Reports: 03/20/2023	Last EDR Contact: 03/09/2023
Number of Days to Update: 11	Next Scheduled EDR Contact: 07/03/2023
	Data Release Frequency: Quarterly

## ***Federal institutional controls / engineering controls registries***

### LUCIS: Land Use Control Information System

LUCIS contains records of land use control information pertaining to the former Navy Base Realignment and Closure properties.

Date of Government Version: 02/08/2023	Source: Department of the Navy
Date Data Arrived at EDR: 02/09/2023	Telephone: 843-820-7326
Date Made Active in Reports: 05/02/2023	Last EDR Contact: 05/03/2023
Number of Days to Update: 82	Next Scheduled EDR Contact: 08/21/2023
	Data Release Frequency: Varies

### US ENG CONTROLS: Engineering Controls Sites List

A listing of sites with engineering controls in place. Engineering controls include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or effect human health.

Date of Government Version: 02/20/2023	Source: Environmental Protection Agency
Date Data Arrived at EDR: 02/21/2023	Telephone: 703-603-0695
Date Made Active in Reports: 05/02/2023	Last EDR Contact: 02/21/2023
Number of Days to Update: 70	Next Scheduled EDR Contact: 06/05/2023
	Data Release Frequency: Varies

### US INST CONTROLS: Institutional Controls Sites List

A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

Date of Government Version: 02/20/2023	Source: Environmental Protection Agency
Date Data Arrived at EDR: 02/21/2023	Telephone: 703-603-0695
Date Made Active in Reports: 05/02/2023	Last EDR Contact: 02/21/2023
Number of Days to Update: 70	Next Scheduled EDR Contact: 06/05/2023
	Data Release Frequency: Varies

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## ***Federal ERNS list***

ERNS: Emergency Response Notification System

Emergency Response Notification System. ERNS records and stores information on reported releases of oil and hazardous substances.

Date of Government Version: 12/12/2022

Source: National Response Center, United States Coast Guard

Date Data Arrived at EDR: 12/14/2022

Telephone: 202-267-2180

Date Made Active in Reports: 12/19/2022

Last EDR Contact: 03/21/2023

Number of Days to Update: 5

## ***Lists of state- and tribal hazardous waste facilities***

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

## INDIAN UST R8: Underground Storage Tanks on Indian Land

The Indian Underground Storage Tank (UST) database provides information about underground storage tanks on Indian land in EPA Region 8 (Colorado, Montana, North Dakota, South Dakota, Utah, Wyoming and 27 Tribal Nations).

Date of Government Version: 11/23/2022	Source: EPA Region 8
Date Data Arrived at EDR: 12/06/2022	Telephone: 303-312-6137
Date Made Active in Reports: 03/03/2023	Last EDR Contact: 05/09/2023
Number of Days to Update: 87	Next Scheduled EDR Contact: 07/31/2023
	Data Release Frequency: Varies

## INDIAN UST R9: Underground Storage Tanks on Indian Land

The Indian Underground Storage Tank (UST) database provides information about underground storage tanks on Indian land in EPA Region 9 (Arizona, California, Hawaii, Nevada, the Pacific Islands, and Tribal Nations).

Date of Government Version: 11/23/2022	Source: EPA Region 9
Date Data Arrived at EDR: 12/06/2022	Telephone: 415-972-3368
Date Made Active in Reports: 03/03/2023	Last EDR Contact: 05/09/2023
Number of Days to Update: 87	Next Scheduled EDR Contact: 07/31/2023
	Data Release Frequency: Varies

## INDIAN UST R4: Underground Storage Tanks on Indian Land

The Indian Underground Storage Tank (UST) database provides information about underground storage tanks on Indian land in EPA Region 4 (Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee and Tribal Nations)

Date of Government Version: 11/23/2022	Source: EPA Region 4
Date Data Arrived at EDR: 12/06/2022	Telephone: 404-562-9424
Date Made Active in Reports: 03/03/2023	Last EDR Contact: 05/09/2023
Number of Days to Update: 87	Next Scheduled EDR Contact: 07/31/2023
	Data Release Frequency: Varies

## INDIAN UST R10: Underground Storage Tanks on Indian Land

The Indian Underground Storage Tank (UST) database provides information about underground storage tanks on Indian land in EPA Region 10 (Alaska, Idaho, Oregon, Washington, and Tribal Nations).

Date of Government Version: 11/23/2022	Source: EPA Region 10
Date Data Arrived at EDR: 12/06/2022	Telephone: 206-553-2857
Date Made Active in Reports: 04/19/2023	Last EDR Contact: 05/09/2023
Number of Days to Update: 134	Next Scheduled EDR Contact: 07/31/2023
	Data Release Frequency: Varies

## INDIAN UST R7: Underground Storage Tanks on Indian Land

The Indian Underground Storage Tank (UST) database provides information about underground storage tanks on Indian land in EPA Region 7 (Iowa, Kansas, Missouri, Nebraska, and 9 Tribal Nations).

Date of Government Version: 10/14/2022	Source: EPA Region 7
Date Data Arrived at EDR: 12/06/2022	Telephone: 913-551-7003
Date Made Active in Reports: 03/03/2023	Last EDR Contact: 05/09/2023
Number of Days to Update: 87	Next Scheduled EDR Contact: 07/31/2023
	Data Release Frequency: Varies

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## ***Lists of state and tribal voluntary cleanup sites***

### **INDIAN VCP R7: Voluntary Cleanup Priority Listing**

A listing of voluntary cleanup priority sites located on Indian Land located in Region 7.

Date of Government Version: 03/20/2008	Source: EPA, Region 7
Date Data Arrived at EDR: 04/22/2008	Telephone: 913-551-7365
Date Made Active in Reports: 05/19/2008	Last EDR Contact: 07/08/2021
Number of Days to Update: 27	Next Scheduled EDR Contact: 07/20/2009
	Data Release Frequency: Varies

### **VCP: Voluntary Cleanup Program Properties**

Contains low threat level properties with either confirmed or unconfirmed releases and the project proponents have request that DTSC oversee investigation and/or cleanup activities and have agreed to provide coverage for DTSC's costs.

Date of Government Version: 01/23/2023	Source: Department of Toxic Substances Control
Date Data Arrived at EDR: 01/24/2023	Telephone: 916-323-3400
Date Made Active in Reports: 04/10/2023	Last EDR Contact: 04/25/2023
Number of Days to Update: 76	Next Scheduled EDR Contact: 08/07/2023
	Data Release Frequency: Quarterly

### **INDIAN VCP R1: Voluntary Cleanup Priority Listing**

A listing of voluntary cleanup priority sites located on Indian Land located in Region 1.

Date of Government Version: 07/27/2015	Source: EPA, Region 1
Date Data Arrived at EDR: 09/29/2015	Telephone: 617-918-1102
Date Made Active in Reports: 02/18/2016	Last EDR Contact: 03/17/2023
Number of Days to Update: 142	Next Scheduled EDR Contact: 07/03/2023
	Data Release Frequency: Varies

## ***Lists of state and tribal brownfield sites***

### **BROWNFIELDS: Considered Brownfields Sites Listing**

A listing of sites the SWRCB considers to be Brownfields since these are sites have come to them through the MOA Process.

Date of Government Version: 12/14/2022	Source: State Water Resources Control Board
Date Data Arrived at EDR: 12/14/2022	Telephone: 916-323-7905
Date Made Active in Reports: 03/07/2023	Last EDR Contact: 03/21/2023
Number of Days to Update: 83	Next Scheduled EDR Contact: 07/03/2023
	Data Release Frequency: Quarterly

## **ADDITIONAL ENVIRONMENTAL RECORDS**

### ***Local Brownfield lists***

#### **US BROWNFIELDS: A Listing of Brownfields Sites**

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

Date of Government Version: 04/06/2023	Source: Environmental Protection Agency
Date Data Arrived at EDR: 04/13/2023	Telephone: 202-566-2777

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## IHS OPEN DUMPS: Open Dumps on Indian Land

A listing of all open dumps located on Indian Land in the United States.

Date of Government Version: 04/01/2014	Source: Department of Health & Human Services, Indian Health Service
Date Data Arrived at EDR: 08/06/2014	Telephone: 301-443-1452
Date Made Active in Reports: 01/29/2015	Last EDR Contact: 04/27/2023
Number of Days to Update: 176	Next Scheduled EDR Contact: 08/07/2023
	Data Release Frequency: Varies

## Local Lists of Hazardous waste / Contaminated Sites

### US HIST CDL: National Clandestine Laboratory Register

A listing of clandestine drug lab locations that have been removed from the DEAs National Clandestine Laboratory Register.

Date of Government Version: 01/06/2023	Source: Drug Enforcement Administration
Date Data Arrived at EDR: 02/02/2023	Telephone: 202-307-1000
Date Made Active in Reports: 02/10/2023	Last EDR Contact: 02/02/2023
Number of Days to Update: 8	Next Scheduled EDR Contact: 06/05/2023
	Data Release Frequency: No Update Planned

### HIST CAL-SITES: Calsites Database

The Calsites database contains potential or confirmed hazardous substance release properties. In 1996, California EPA reevaluated and significantly reduced the number of sites in the Calsites database. No longer updated by the state agency. It has been replaced by ENVIROSTOR.

Date of Government Version: 08/08/2005	Source: Department of Toxic Substance Control
Date Data Arrived at EDR: 08/03/2006	Telephone: 916-323-3400
Date Made Active in Reports: 08/24/2006	Last EDR Contact: 02/23/2009
Number of Days to Update: 21	Next Scheduled EDR Contact: 05/25/2009
	Data Release Frequency: No Update Planned

### SCH: School Property Evaluation Program

This category contains proposed and existing school sites that are being evaluated by DTSC for possible hazardous materials contamination. In some cases, these properties may be listed in the CalSites category depending on the level of threat to public health and safety or the environment they pose.

Date of Government Version: 01/23/2023	Source: Department of Toxic Substances Control
Date Data Arrived at EDR: 01/24/2023	Telephone: 916-323-3400
Date Made Active in Reports: 04/10/2023	Last EDR Contact: 04/25/2023
Number of Days to Update: 76	Next Scheduled EDR Contact: 08/07/2023
	Data Release Frequency: Quarterly

### CDL: Clandestine Drug Labs

A listing of drug lab locations. Listing of a location in this database does not indicate that any illegal drug lab materials were or were not present there, and does not constitute a determination that the location either requires or does not require additional cleanup work.

Date of Government Version: 12/31/2020	Source: Department of Toxic Substances Control
Date Data Arrived at EDR: 11/30/2022	Telephone: 916-255-6504
Date Made Active in Reports: 02/09/2023	Last EDR Contact: 05/10/2023
Number of Days to Update: 71	Next Scheduled EDR Contact: 08/14/2023
	Data Release Frequency: Varies

### CERS HAZ WASTE: CERS HAZ WASTE

List of sites in the California Environmental Protection Agency (CalEPA) Regulated Site Portal which fall under the Hazardous Chemical Management, Hazardous Waste Onsite Treatment, Household Hazardous Waste Collection, Hazardous Waste Generator, and RCRA LQ HW Generator programs.

## US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

Date of Government Version: 01/06/2023

	Data Release Frequency: Semi-Annually

### DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

Date of Government Version: 02/27/2023	Source: DTSC and SWRCB
Date Data Arrived at EDR: 02/28/2023	Telephone: 916-323-3400

Number of Days to Update: 50	Next Scheduled EDR Contact: N/A
	Data Release Frequency: No Update Planned

## **Other Ascertainable Records**

### RCRA NonGen / NLR: RCRA - Non Generators / No Longer Regulated

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

## SCRD DRYCLEANERS: State Coalition for Remediation of Drycleaners Listing

The State Coalition for Remediation of Drycleaners was established in 1998, with support from the U.S. EPA Office of Superfund Remediation and Technology Innovation. It is comprised of representatives of states with established drycleaner remediation programs. Currently the member states are Alabama, Connecticut, Florida, Illinois, Kansas, Minnesota, Missouri, North Carolina, Oregon, South Carolina, Tennessee, Texas, and Wisconsin.

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

### EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

Date of Government Version: 08/30/2013	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/21/2014	Telephone: 617-520-3000
Date Made Active in Reports: 06/17/2014	Last EDR Contact: 05/01/2023
Number of Days to Update: 88	Next Scheduled EDR Contact: 08/14/2023
	Data Release Frequency: Quarterly

### 2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

Date of Government Version: 09/30/2017	Source: Environmental Protection Agency
Date Data Arrived at EDR: 05/08/2018	Telephone: 703-308-4044

	Data Release Frequency: Annually

### SSTS: Section 7 Tracking Systems

Section 7 of the Federal Insecticide, Fungicide and Rodenticide Act, as amended (92 Stat. 829) requires all registered pesticide-producing establishments to submit a report to the Environmental Protection Agency by March 1st each year. Each establishment must report the types and amounts of pesticides, active ingredients and devices being produced, and those having been produced and sold or distributed in the past year.

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## ROD: Records Of Decision

Record of Decision. ROD documents mandate a permanent remedy at an NPL (Superfund) site containing technical and health information to aid in the cleanup.

Date of Government Version: 04/26/2023	Source: EPA
Date Data Arrived at EDR: 05/02/2023	Telephone: 703-416-0223
Date Made Active in Reports: 05/17/2023	Last EDR Contact: 05/02/2023
Number of Days to Update: 15	Next Scheduled EDR Contact: 06/12/2023
	Data Release Frequency: Annually

## RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

Number of Days to Update: 6	Next Scheduled EDR Contact: 07/31/2023
	Data Release Frequency: Varies

## RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

Date of Government Version: 04/17/1995	Source: EPA
Date Data Arrived at EDR: 07/03/1995	Telephone: 202-564-4104

Number of Days to Update: 84	Next Scheduled EDR Contact: 07/10/2023
	Data Release Frequency: Quarterly

## HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/01/2007	Telephone: 202-564-2501

## UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

## US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

## ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

## FINDS: Facility Index System/Facility Registry System

Facility Index System. FINDS contains both facility information and 'pointers' to other sources that contain more detail. EDR includes the following FINDS databases in this report: PCS (Permit Compliance System), AIRS (Aerometric Information Retrieval System), DOCKET (Enforcement Docket used to manage and track information on civil judicial enforcement cases for all environmental statutes), FURS (Federal Underground Injection Control), C-DOCKET (Criminal Docket System used to track criminal enforcement actions for all environmental statutes), FFIS (Federal Facilities Information System), STATE (State Environmental Laws and Statutes), and PADS (PCB Activity Data System).

Data Release Frequency: Varies

## PFAS RCRA MANIFEST: PFAS Transfers Identified In the RCRA Database Listing

To work around the lack of PFAS waste codes in the RCRA database, EPA developed the PFAS Transfers dataset by mining e-Manifest records containing at least one of these common PFAS keywords: PFAS, PFOA, PFOS, PERFL, AFFF, GENX, GEN-X (plus the VT waste codes). These keywords were searched for in the following text fields: Manifest handling instructions (MANIFEST\_HANDLING\_INSTR), Non-hazardous waste description (NON\_HAZ\_WASTE\_DESCRIPTION), DOT printed information (DOT\_PRINTED\_INFORMATION), Waste line handling instructions (WASTE\_LINE\_HANDLING\_INSTR), Waste residue comments (WASTE\_RESIDUE\_COMMENTS).

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## PFAS ATSDR: PFAS Contamination Site Location Listing

PFAS contamination site locations from the Department of Health & Human Services, Center for Disease Control & Prevention. ATSDR is involved at a number of PFAS-related sites, either directly or through assisting state and federal partners. As of now, most sites are related to drinking water contamination connected with PFAS production facilities or fire training areas where aqueous film-forming firefighting foam (AFFF) was regularly used.

Date of Government Version: 06/24/2020	Source: Department of Health & Human Services
Date Data Arrived at EDR: 03/17/2021	Telephone: 202-741-5770

## PFAS WQP: Ambient Environmental Sampling for PFAS

The Water Quality Portal (WQP) is a part of a modernized repository storing ambient sampling data for all environmental media and tissue samples. A wide range of federal, state, tribal and local governments, academic and non-governmental organizations and individuals submit project details and sampling results to this public repository. The information is commonly used for research and assessments of environmental quality.

Date of Government Version: 03/30/2023	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/30/2023	Telephone: 202-272-0167

## PFAS NPDES: Clean Water Act Discharge Monitoring Information

Any discharger of pollutants to waters of the United States from a point source must have a National Pollutant Discharge Elimination System (NPDES) permit. The process for obtaining limits involves the regulated entity (permittee) disclosing releases in a NPDES permit application and the permitting authority (typically the state but sometimes EPA) deciding whether to require monitoring or monitoring with limits.

Date of Government Version: 03/30/2023	Source: Environmental Protection Agency

## PFAS ECHO: Facilities in Industries that May Be Handling PFAS Listing

Regulators and the public have expressed interest in knowing which regulated entities may be using PFAS. EPA has developed a dataset from various sources that show which industries may be handling PFAS. Approximately 120,000 facilities subject to federal environmental programs have operated or currently operate in industry sectors with processes that may involve handling and/or release of PFAS.

## PFAS ECHO FIRE TRAINING: Facilities in Industries that May Be Handling PFAS Listing

A list of fire training sites was added to the Industry Sectors dataset using a keyword search on the permitted facility's name to identify sites where fire-fighting foam may have been used in training exercises. Additionally, you may view an example spreadsheet of the subset of fire training facility data, as well as the keywords used in selecting or deselecting a facility for the subset. as well as the keywords used in selecting or deselecting a facility for the subset. These keywords were tested to maximize accuracy in selecting facilities that may use fire-fighting foam in training exercises, however, due to the lack of a required reporting field in the data systems for designating fire training sites, this methodology may not identify all fire training sites or may potentially misidentify them.

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## PFAS PART 139 AIRPORT: All Certified Part 139 Airports PFAS Information Listing

Since July 1, 2006, all certified part 139 airports are required to have fire-fighting foam onsite that meet military specifications (MIL-F-24385) (14 CFR 139.317). To date, these military specification fire-fighting foams are fluorinated and have been historically used for training and extinguishing. The 2018 FAA Reauthorization Act has a provision stating that no later than October 2021, FAA shall not require the use of fluorinated AFFF. This provision does not prohibit the use of fluorinated AFFF at Part 139 civilian airports; it only prohibits FAA from mandating its use. The Federal Aviation Administration's document AC 150/5210-6D - Aircraft Fire Extinguishing Agents provides guidance on Aircraft Fire Extinguishing Agents, which includes Aqueous Film Forming Foam (AFFF).

## AQUEOUS FOAM NRC: Aqueous Foam Related Incidents Listing

The National Response Center (NRC) serves as an emergency call center that fields initial reports for pollution and railroad incidents and forwards that information to appropriate federal/state agencies for response. The spreadsheets posted to the NRC website contain initial incident data that has not been validated or investigated by a federal/state response agency. Response center calls from 1990 to the most recent complete calendar year where there was indication of Aqueous Film Forming Foam (AFFF) usage are included in this dataset. NRC calls may reference AFFF usage in the ?Material Involved? or ?Incident Description? fields.

Next Scheduled EDR Contact: 07/17/2023  
Data Release Frequency: Quarterly

## HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

## WASTEWATER PITS: Oil Wastewater Pits Listing

Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

## WDR: Waste Discharge Requirements Listing

In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

## EDR HIGH RISK HISTORICAL RECORDS

### ***EDR Exclusive Records***

#### EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

#### EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

#### EDR Hist Cleaner: EDR Exclusive Historical Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

## OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Date of Government Version: 11/16/2022	Source: Department of Energy & Environmental Protection
Date Data Arrived at EDR: 11/16/2022	Telephone: 860-424-3375

**Sensitive Receptors:** There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

## AHA Hospitals:

Source: American Hospital Association, Inc.  
Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

## Medical Centers: Provider of Services Listing

Source: Centers for Medicare & Medicaid Services  
Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

## Nursing Homes

Source: National Institutes of Health  
Telephone: 301-594-6248

Information on Medicare and Medicaid certified nursing homes in the United States.

## Public Schools

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

# GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

## GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

## TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

## TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General SSW

## SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

# GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

## HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

## FEMA FLOOD ZONE

<u>Flood Plain Panel at Target Property</u>	<u>FEMA Source Type</u>
06037C1628F	FEMA FIRM Flood data
<u>Additional Panels in search area:</u>	<u>FEMA Source Type</u>
06037C1610F	FEMA FIRM Flood data
06037C1620F	FEMA FIRM Flood data
06037C1636F	FEMA FIRM Flood data

## NATIONAL WETLAND INVENTORY

<u>NWI Quad at Target Property</u>	<u>NWI Electronic Data Coverage</u>
LOS ANGELES	YES - refer to the Overview Map and Detail Map

## HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

### **Site-Specific Hydrogeological Data\*:**

Search Radius:	1.25 miles
Location Relative to TP:	1 - 2 Miles ESE
Site Name:	Van Der Horst Corporation Of America
Site EPA ID Number:	CAD020159166
Surficial Aquifer Flow Dir.:	VARIABLE. A FLOW TO THE S AND SE HAS BEEN IDENTIFIED DURING FORMER INVESTIGATIONS. MORE RECENT INVESTIGATIONS IDENTIFIED A FLOW TO THE E.
Measured Depth to Water:	28 feet to 38 feet.
Hydraulic Connection:	Aquifer interconnections exist within 2 miles of the site.
Sole Source Aquifer:	No information about a sole source aquifer is available
Data Quality:	Information based on site-specific subsurface investigations is documented in the CERCLIS investigation report(s)

## AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

<u>MAP ID</u>	<u>LOCATION FROM TP</u>	<u>GENERAL DIRECTION GROUNDWATER FLOW</u>
Not Reported		

## GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

### GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

### GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

#### ROCK STRATIGRAPHIC UNIT

Era: Cenozoic  
System: Tertiary  
Series: Miocene  
Code: Tm (decoded above as Era, System & Series)

#### GEOLOGIC AGE IDENTIFICATION

Category: Stratified Sequence

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

### DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

Soil Component Name: HAMBRIGHT

Soil Surface Texture: gravelly - loam

Hydrologic Group: Class D - Very slow infiltration rates. Soils are clayey, have a high water table, or are shallow to an impervious layer.

Soil Drainage Class: Well drained. Soils have intermediate water holding capacity. Depth to water table is more than 6 feet.

Hydric Status: Soil does not meet the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel: MODERATE

Depth to Bedrock Min: > 10 inches

Depth to Bedrock Max: > 20 inches

## GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Permeability Rate (in/hr)	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	7 inches	gravelly - loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	COARSE-GRAINED SOILS, Gravels, Gravels with fines, Silty Gravel	Max: 2.00 Min: 0.60	Max: 7.30 Min: 6.10
2	7 inches	16 inches	very gravelly - loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Gravels, Gravels with fines, Silty Gravel. COARSE-GRAINED SOILS, Gravels, Gravels with fines, Clayey Gravel.	Max: 2.00 Min: 0.60	Max: 7.30 Min: 6.10
3	16 inches	20 inches	unweathered bedrock	Not reported	Not reported	Max: 0.00 Min: 0.00	Max: 0.00 Min: 0.00

### OTHER SOIL TYPES IN AREA

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

Soil Surface Textures: loam  
 silty clay loam  
 shaly - clay loam  
 sandy loam  
 clay  
 loamy sand  
 clay loam

Surficial Soil Types: loam  
 silty clay loam  
 shaly - clay loam  
 sandy loam  
 clay  
 loamy sand  
 clay loam

Shallow Soil Types: silty clay

Deeper Soil Types: weathered bedrock  
 clay loam

# GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

## LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

## TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map

Source: U.S. Geological Survey

## HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Source: FEMA

Telephone: 877-336-2627

Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005, 2010 and 2015 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory

Source: Department of Fish and Wildlife

Telephone: 916-445-0411

## HYDROGEOLOGIC INFORMATION

AQUIFLOW<sup>R</sup> Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

## GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

## LOCAL / REGIONAL WATER AGENCY RECORDS

### FEDERAL WATER WELLS

#### PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

#### PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

#### USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

## OTHER STATE DATABASE INFORMATION

### Groundwater Ambient Monitoring & Assessment Program

State Water Resources Control Board

Telephone: 916-341-5577

The GAMA Program is California's comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Health Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

### Water Well Database

Source: Department of Water Resources

Telephone: 916-651-9648

### California Drinking Water Quality Database

Source: Department of Public Health

Telephone: 916-324-2319

The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

### California Oil and Gas Well Locations

Source: Dept of Conservation, Geologic Energy Management Division

Telephone: 916-323-1779

Oil and Gas well locations in the state.

### California Earthquake Fault Lines

Source: California Division of Mines and Geology

The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

## RADON

### State Database: CA Radon

Source: Department of Public Health

Telephone: 916-210-8558

Radon Database for California

## PHYSICAL SETTING SOURCE RECORDS SEARCHED

### Area Radon Information

Source: USGS

Telephone: 703-356-4020

The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

### EPA Radon Zones

Source: EPA

Telephone: 703-356-4020

Sections 307 & 309 of IRRA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

### OTHER

Airport Landing Facilities: Private and public use landing facilities

Source: Federal Aviation Administration, 800-457-6656

Epicenters: World earthquake epicenters, Richter 5 or greater

Source: Department of Commerce, National Oceanic and Atmospheric Administration

California Earthquake Fault Lines: The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines, prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by AEI Consultants were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting [www.edrnet.com/sanborn](http://www.edrnet.com/sanborn).

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

## EXECUTIVE SUMMARY

### DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at approximately five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1920 through current. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 332 feet of the target property.

Summary information obtained is provided in the text of this report.

### RECORD SOURCES

The EDR City Directory Report accesses a variety of business directory sources, including Haines, InfoUSA, Polk, Cole, Bresser, and Stewart. Listings marked as EDR Digital Archive access Cole and InfoUSA records. The various directory sources enhance and complement each other to provide a more thorough and accurate report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer.

### RESEARCH SUMMARY
