Present Land Use/Zoning/General Plan Designation:

Industrial, Commercial, Mixed-Use, Residential

Project Description: *(please use a separate page if necessary)*

The proposed includes installation of both small-scale and large-scale trash capture devices and associated stormwater infrastructure at 35 project sites in Mendocino County. Small-scale devices would include structures such as connector pipe screens and hanging baskets installed at storm drain inlets. Large-scale devices would include structures such as hydrodynamic separators, netting devices, and baffle boxes. The devices would be installed in two phases: Phase 1 would occur at 30 sites planned for 2024, and Phase 2 would occur at five sites planned for 2025. Work at Phase 2 sites may result in alteration of a streambed or stream bank, may affect a jurisdictional water or wetland, or would require a more complex design. As such, most sites in Phase 2 would require regulatory permitting and approvals, whereas sites included in Phase 1 would not.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with and "X".
If you have already sent your document to the agency please denote that with an "S".
