AN INITIAL STUDY / MITIGATED NEGATIVE DECLARATION**

City of Greenfield Wastewater Treatment Plant Improvement Project

In accordance with the California Environmental Quality Act (“CEQA”) and the CEQA Guidelines, the City of Greenfield prepared a Draft Initial Study/Mitigated Negative Declaration (“IS/MND”) that identifies and evaluates the environmental effects of the project and presents mitigation for significant impacts.

Project Title: City of Greenfield Wastewater Treatment Plant Improvement Project (“Proposed Project”)

Project Location: City of Greenfield, Monterey County, California.

Project Description: The Proposed Project consists of the construction of a new wastewater treatment plant (“WWTP”) facility, and the subsequent demolition of the existing WWTP. Additionally, potable and recycled water pipelines would be constructed within the right-of-way of Walnut Avenue west towards Thorp Avenue. The Proposed Project would construct additional recycled water pipeline located in the access road between the WWTP and effluent disposal site; a recycled water pump station would be constructed on the existing effluent disposal site. The Proposed Project would improve utilities onsite and in portions of Walnut Avenue west towards Thorp Avenue and the access road between the WWTP and existing effluent disposal site. The Proposed Project would improve the performance of the existing WWTP to ensure the facility can accommodate future flows, comply with current water quality standards, decrease reliance on groundwater supplies, and improve performance.

Review Period: The public comment period begins on **April 12, 2024** and ends on **May 13th, 2024**.

Document Availability: The IS/MND can be viewed and downloaded from the City of Greenfield’s website, under the *City of Greenfield Wastewater Treatment Plant Improvement Project | Greenfield, CA* which can be found at the following location: <https://ci.greenfield.ca.us/534/City-of-Greenfield-Wastewater-Treatment->
