24300 Narbonne Avenue
Lomita, CA 90717
310/325-7110

NOTICE OF EXEMPTION

Project Description:

Narbonne South Water Main Replacement and Street Reconstruction – This project is for the rehabilitation and the restriping of the entire width of pavement on Narbonne Avenue between Pacific Coast Highway and the southern border of the City of Lomita.

Additionally, prior to reconstructing the street, approximately 1,600 linear feet of PVC water pipeline on Narbonne Avenue will be installed. The proposed water main will be a new 8-inch PVC water main to provide improved flow, pressure, and fire protection. This new water main will replace the existing 1928 6-inch and 8-inch water main.

Finding:

The City Council of the City of Lomita has reviewed the above proposed project and finds it to be exempt from the provisions of the California Environmental Quality Act (CEQA).

- Ministerial Project
- Replacement or Reconstruction of existing structures and facilities, Exemption (CEQA Guidelines, Section 15302 Class 2)
- Statutory Exemption
- Emergency Project
- Quick Disapproval [CEQA Guidelines, Section 15270]
- No Possibility of Significant Effect [CEQA Guidelines, Section 15061(b)(3)]

Supporting Reasons In accordance with Section 15302 Replacement or Reconstruction, Class 2 consist of replacement of existing structure or facilities where the new facilities will be located on the same site as the old structure replaced and will have substantially the same purpose and capacity as the structure replaced. Per the California Environmental Quality Act (CEQA) Guidelines, the installation and use of the new underground pipe will be to supply water to the same customers, replacing old 1928 pipes and providing the same water capacity.
