**Project Location – County:** San Diego

**Description of Nature, Purpose, and Beneficiaries of Project:** The proposed project is the Padres Pedal the Cause 5K Walk/Run in the city of San Diego, California. All event participants would begin and finish the race at Petco Park. Runners and walkers participating in the 5K would run towards 5th Street, turn onto Harbor Drive, continue south along Harbor Drive until crossing the street towards Park Boulevard, continue until reaching the South Embarcadero promenade, run north along the promenade towards Ruocco Park, and finish the race by looping back along the promenade towards Petco Park. There would be City of San Diego Special Event Traffic Control present at the intersection of Harbor Drive and Park Boulevard to help runners/walkers safely cross the street and direct cars arriving and leaving the Embarcadero Marina Park South parking lot.

The proposed event, including set-up and breakdown, has a duration of approximately one day and would take place in April. The 5K is scheduled to occur in the early morning, and all runners/walkers are anticipated to complete the run/walk no later than 11:30 a.m. The event attendance is anticipated to be approximately 1,200 people. Signage shall be placed at Ruocco Park and along Harbor Drive to notify members of public a minimum of 72 hours in advance of the event. Temporary Course Way Finder signage would be installed in landscaped areas along the promenade to direct runners and walkers during the event. During the event, the promenade shall remain open and available for public use, and no event staging shall be permitted along the promenade. Parking for event participants would be available offTidelands at Petco Park. No parking spaces are required for event staging.

Due to its temporary nature and limited scope, the proposed event would generate a minor amount of vehicle trips and would require limited use of equipment. Therefore, impacts related to air quality, greenhouse gas emissions, and transportation and traffic are not anticipated to occur. Furthermore, the Applicant would be responsible for complying with all applicable federal, state, and local laws regarding construction demolition debris, hazards and hazardous materials, and stormwater.
