Description of Nature, Purpose, and Beneficiaries of Project: The proposed project is for upgrading existing electrical facilities at Broadway Pier and 5th Avenue (Convention Center) to accommodate the installation of new off-the-shelf automotive 350kW DC fast chargers for shoreside charging of commercial harbor craft (Flagship's electric ferries). Additional equipment includes upgraded electrical meters/ sub-meters, AC/DC converters and breaker panels, installation of new electrical conduits, and the installation of a 350kW DC fast charger at the Broadway ferry landing dock float, as well as the 5th Avenue ferry landing dock float.
