Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

	on: Petaluma, CA 94952	Sonoma County	
	City	County	

Project Description (Proposed actions, location, and/or consequences).

Overlay: Zoning Text Amendment to allow increase in the allowable building height from 45 feet to 75 feet with a Conditional Use Permit (CUP), increase lot coverage from 80% to 100%, allow development of multi-family uses by right within whereas currently residential uses only in a mixed-use building are allowed, and establish development and design controls for properties that would be subject to the proposed Overlay. The Overlay component also includes a Zoning Map Amendment to zone applicable parcels to the Downtown Housing & Economic Opportunity Overlay and a General Plan Amendment to increase the maximum allowable floor area ratio from 2.5 to 6.0. Hotel: Requests approval of Historic Site Plan and Architectural Review and a CUP to construct a 93-room, 6-story hotel inclusive of a below-grade parking garage with parking for up to 58 vehicles, rooftop event space and bar, food service uses on the ground floor, and valet system within the Downtown Commercial Historic District. The proposed Hotel also includes offsite improvements including tree removal, reconfiguration of onstreet parking spaces, removal of curb cuts along the project frontage, and installation of a bus stop and shelter north of the site.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

AES: PSI on scenic resources or vistas. To be evaluated in EIR

AQ: Temporary construction emissions. EKN AQ-1: implement BAAQMD BMPs; BIO: special-status species, conflicts with local ordinances. EKN BIO-1: pre-construction bird surveys; EKN BIO-2: design features to limit bird collisions; CUL/TRIB CUL: PSI to historic and archaeological resources, human remains, and tribal cultural resources. To be evaluated in EIR

ENERGY: Wasteful use of energy. EKN GHG-1 BMPs BAAQMD

GEO: seismic-induced impact; location on unstable geologic unit or soil; paleontological resources. EKN GEO-1: implement site-specific geotechnical recommendations; EKN GEO-2 erosion control plan; EKN GEO-3: damage assessment; EKN GEO-4: paleontological monitoring.

GHG: Temporary construction emissions. EKN GHG-1: implement BAAQMD BMPs; EKN GHG-2 CalGreen Tier 2 HAZ: release of hazardous materials during construction; located on a hazardous materials site. EKN HAZ-1: health and safety plan; EKN HAZ-2: comply with Risk Management Plan.

HYD: Water quality standards. EKN HAZ-2.

NOI: potential temporary noise increases; groundborne vibration and noise. EKN NOI-1: implement BMPs during project construction; EKN NOI-2: additional construction measures where activities would occur within 20 feet of nearby buildings.

TRA: design hazards. EKN TRA-1: submit a Valet Service Plan

•	to the Historic District and	d increase in height allowan	nce.
