 Economic/Jobs Public Services/Facilities Traffic/Circulation Other: GHG, energy, wildfire

Present Land Use/Zoning/General Plan Designation:

Public roadway (no GP or zoning designation); Medium Density Residential (Monterey County)

Project Description: (please use a separate page if necessary)

The project would replace existing CAWD sewer mains in Carmel by-the-Sea and the County of Monterey. The project includes the installation and operation of a total of 10,561 linear feet (LF), or approximately 2.0 miles, of pipeline. The pipeline would be constructed via pipe bursting and open trench excavation. All excavation would be within roadway right-of-way and within soils that were previously disturbed during installation of the existing pipeline. There are existing sewer laterals located along the project alignment that connect each home to the sewer main. A total of 235 lateral reconnections would be completed on streets where sewer line replacement would occur. The purpose of the project is to replace aging wastewater infrastructure and improve the long-term reliability of the wastewater system. The improvements are not intended to increase conveyance capacity.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
