

# Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Scenic Road Pipeline Replacement Project

Lead Agency: Carmel Area Wastewater District

Contact Name: Patrick Treanor, PE, District Engineer

Email: Treanor@cawd.org Phone Number: 831-624-1248

Project Location: Carmel-by-the Sea and Unincorporated Monterey  
*City County*

Project Description (Proposed actions, location, and/or consequences).

The project would replace existing CAWD sewer mains in Carmel by-the-Sea and the County of Monterey. The project includes the installation and operation of a total of 10,561 linear feet (LF), or approximately 2.0 miles, of pipeline. The pipeline would be constructed via pipe bursting and open trench excavation. All excavation would be within roadway right-of-way and within soils that were previously disturbed during installation of the existing pipeline. There are existing sewer laterals located along the project alignment that connect each home to the sewer main. A total of 235 lateral reconnections would be required on streets where sewer line replacement would occur. The purpose of the project is to replace aging wastewater infrastructure and improve the long-term reliability of the wastewater system. The improvements are not intended to increase conveyance capacity.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Aesthetics - Mitigation Measure (MM) AES-1, Construction Disturbance Minimization; Biological Resources - MM BIO-1, Worker Environmental Awareness Program (WEAP); MM BIO-2, California Red-legged Frog Avoidance and Minimization; MM BIO-3, Spill/Debris Prevention; MM BIO-4, Sensitive Natural Community Avoidance; Cultural Resources - MM CUL-1, Retention of a Qualified Archaeologist; MM CUL-2, Pre-Construction Cultural Resources Sensitivity Training; MM CUL-3, Development and Implementation of Cultural Resources Monitoring Plan; Noise - MM NOI-1, Construction Noise Reduction; NOI-2, Construction Vibration Requirements for Historic Structures; Public Services - MM PS-1, Pedestrian Access to Recreational Areas along Scenic Road; Transportation - MM TR-1, Traffic Control Plan; Tribal Cultural Resources - MM TCR-1, Native American Monitoring; MM TCR-2, Unanticipated Discovery of Tribal Cultural Resources.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Resident access to homes and driveways during construction; general public coastal access during construction

Provide a list of the responsible or trustee agencies for the project.
