EXEMPTIONS**

1.0 PROJECT BACKGROUND

The City of Los Angeles (City)/Housing Authority of the City of Los Angeles (HACLA) is proposing to acquire and renovate the approximately 1,615 square-foot single-family house project site, located at 3419 Sheffield Avenue, to house individuals and households with incomes not exceeding 50% of the average median income for Los Angeles-Long Beach-Glendale, CA HUD Metro FMR Area.

The proposed project would be financed through three sources: Unappropriated Balance Fund, federal Community Development Block Grant (CBDG) funds from the City of Los Angeles Community Investment for Families Department, and Community Project Funding (CPF).

Homelessness in the City of Los Angeles and Los Angeles County

The 2023 Greater Los Angeles Homeless Count counted 46,260 persons experiencing homelessness in the City of Los Angeles in January 2023. The 2023 Count enumerated 75,518 experiencing homelessness in Los Angeles County. The Los Angeles County Homelessness Initiative reports that “one of the primary drivers of homelessness is the severe lack of affordable housing.”¹

Demographic Characteristics

Selected demographic data for persons experiencing homelessness in Los Angeles County identified by the 2023 Count are presented in **Table 1**.

2.0 PROJECT DESCRIPTION

The Housing Authority of the City of Los Angeles (HACLA) is proposing to purchase 3419 Sheffield Avenue (APN: 5219-029-910) project site within the City of Los Angeles, which consists of a single-family house with three-bedroom units. A portion of the house is in disrepair. Therefore, the project would conduct renovations to fix it and also create a 650-square-foot, two-bedroom accessory dwelling unit (ADU), totaling five-bedroom units for the site. All bedrooms would be for future use as housing to house individuals and households with incomes not exceeding 50% of the average median income for Los Angeles-Long Beach-Glendale, CA HUD Metro FMR Area.

Refer to **Figures 1 and 2** below, which depict the project's location and existing site photographs.

General Plan Land Use and Zoning

The project site has a General Plan land use designation of Public Facilities and a zoning designation of Public Facilities (PF-1) (Refer to **Table 2**).²

Surrounding Development

The project site is surrounded by other single-family unit buildings on all sides. Refer to **Table 2**, which details the project site and surrounding area's General Plan land use and zoning designations.

3.0 REASONS WHY THE PROJECT IS EXEMPT

The proposed project is exempt from CEQA under two categorical exemptions.

Categorical Exemption

The proposed project is exempt from CEQA under categorical exemption 15326 (Acquisitions of Housing for Housing Assistance Programs) of the California Code of Regulations.

Categorical Exemption #1

Title 14, Division 6, Chapter 3, Article 19, Section 15301 (Existing Facilities)

Class 1 (CEQA Guidelines Section 15301): Existing Facilities

Class 1 consists of projects including the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of existing or former use. The types of "existing facilities" itemized below are not intended to be all-inclusive of the types of projects which might fall within Class 1.

Justification why Project is Exempt:

The existing single-family home on the project site is considered in a state of disrepair and is currently uninhabitable. The proposed project would repair the house and also add a 650-square-foot, two-bedroom ADU, which would be less than 2,500 square-feet and less than 50 percent of the house’s existing floor area (1,615 square-feet). Therefore, this project would be consistent with this categorical exemption.

It should be noted that the house on the project site was built in 1941, which is an indicator of possible lead-based paints (LBPs) and asbestos containing materials (ACMs). Therefore, a Pre-Demolition Asbestos, Lead, and Mold Survey Report was conducted for the project site by CES Environmental Consultants on March 2, 2024 (refer to **Appendix A**). The report found there was asbestos and lead within the project site; however, by removing all asbestos and lead according to applicable federal and state regulations prior to construction, impacts would be less than significant. Additionally, a Phase I Environmental Site Assessment report was conducted for the project site by GRS Group on March 5, 2024 (refer to **Appendix B**). The report found no associated recognized environmental conditions (RECs) related with the project site.

Categorical Exemption #2

Title 14, Division 6, Chapter 3, Article 19, Section 15326 (Acquisitions of Housing for Housing Assistance Programs)

Class 26 (CEQA Guidelines Section 15326): Acquisitions of Housing for Housing Assistance Programs

Class 26 consists of actions by a redevelopment agency, housing authority, or other public agency to implement an adopted Housing Assistance Plan by acquiring an interest in housing units. The housing units may be either in existence or possessing all required permits for construction when the agency makes its final decision to acquire the units.

Justification why Project is Exempt:

The proposed project would create affordable housing options to house individuals and households with incomes not exceeding 50% of the average median income for Los Angeles-Long Beach-Glendale, CA HUD Metro FMR Area. Therefore, this project would be consistent with this categorical exemption.
