Project Description (Proposed actions, location, and/or consequences).

The City of Rancho Cordova (City) proposes to construct a new bicycle and pedestrian overcrossing over U.S. Route 50 (US 50), along with approximately 3,200 feet of Class 1 bicycle and pedestrian improvements connecting Folsom Boulevard with White Rock Road (proposed project). The proposed project is located within the central portion of the City of Rancho Cordova, Sacramento County, California. The proposed project intends to improve connectivity between the primarily business areas south of US 50 and the mass transit centers, residences, and commercial areas north of US 50. The pedestrian overcrossing structure and all aspects of the trail would be designed to meet current applicable City, Caltrans, American Association of State Highway and Transportation Officials (AASHTO), and Americans with Disabilities Act (ADA) standards.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The proposed project could potentially affect the environmental factors listed: Biological Resources, Geology and Soils, Noise, Cultural Resources, and Mandatory Findings of Significance. A detailed checklist and discussion of each environmental factor is provided in the Initial Study/Mitigated Negative Declaration along with the mitigation measures for each potentially affected environmental factor that will reduce any potential significant impacts to less than significant or no impact.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Biological Resources, Geology and Soils, Noise, Cultural Resources, Tribal Cultural Resources, Mandatory Findings of Significance
