**Subject: Phase I Environmental Site Assessment  
2720 South Willow Avenue  
Rialto, California**

Dear Mr. Tanjuan:

Orion Environmental Inc., at the request of Scannell Properties, LLC (Scannell), has prepared this report documenting a Phase I Environmental Site Assessment for the approximately 3.5-acre property identified by San Bernardino County Assessor's Parcel Number 0258-171-57-0000. The parcel is located at 2720 South Willow Avenue in Rialto, California.

We appreciate the opportunity to provide environmental services to Scannell. If you have questions or comments regarding this report, please contact Mike Purchase at 562/988-2755 or [mpurchase@orionenv.com](mailto:mpurchase@orionenv.com).

Very truly yours,

**ORION ENVIRONMENTAL INC.**

Vice President

## EXECUTIVE SUMMARY

---

Orion Environmental Inc. (Orion), at the request of Scannell Properties, LLC (Scannell), performed a Phase I Environmental Site Assessment (ESA) and Tier 1 Vapor Encroachment Screening (VES) of the property located at 2720 South Willow Avenue in Rialto, California (the Subject Property). The Subject Property consists of one parcel with an area of approximately 3.5-acres identified by San Bernardino County Assessor's Parcel Number (APN) 0258-171-57-0000. The Subject Property is located in a developed area of Rialto predominantly characterized by industrial developments to the north, south, east, and west.

Orion reviewed aerial photographs and identified that historical activities at the Subject Property, adjoining, and nearby properties included large-scale orchards from at least the 1930's until the 1990's. After the orchards were removed, the Subject Property appears to have been used for small-scale crop growing and industrial use. Currently, the Subject Property parcels contains two industrial buildings for the manufacturing and storing of chemical resins and epoxies.

Unless otherwise noted, Orion conducted this Phase I ESA in general accordance with the scope and limitations of *Standard Practice for Environmental Site Assessments* (E1527-21), published by ASTM International (ASTM). Similarly, the VES was conducted in accordance with ASTM's *Standard Guide for Vapor Encroachment Screening on a Property Involved in Real Estate Transactions* (E2600-15). The purpose of the Phase I ESA was to identify Recognized Environmental Conditions (RECs) and Vapor Encroachment Conditions (VECs) as defined in the aforementioned ASTM Standards. The ESA included a review of local regulatory agency files, review of State and federal regulatory databases, and Subject Property reconnaissance.

After completing the Phase I ESA, Orion has identified one REC and one VEC. Historical land use at the Subject Property, adjoining, and nearby properties included large-scale orchards from at least the 1930's until the 1990's. Orchards are known to require heavy application of pesticides and herbicides resulting in a potential release of hazardous materials to the environment. Additionally, the current land use involves the storing and mixing of a large volume of chemicals including acetones, ketones, xylenes, and dye materials. The large volume of chemicals stored and mixed on site could be a potential hazard and possible VEC. The historical presence of orchards and volume of chemicals on

## EXECUTIVE SUMMARY

---

Orion Environmental Inc. (Orion), at the request of Scannell Properties, LLC (Scannell), performed a Phase I Environmental Site Assessment (ESA) and Tier 1 Vapor Encroachment Screening (VES) of the property located at 2720 South Willow Avenue in Rialto, California (the Subject Property). The Subject Property consists of one parcel with an area of approximately 3.5-acres identified by San Bernardino County Assessor's Parcel Number (APN) 0258-171-57-0000. The Subject Property is located in a developed area of Rialto predominantly characterized by industrial developments to the north, south, east, and west.

Orion reviewed aerial photographs and identified that historical activities at the Subject Property, adjoining, and nearby properties included large-scale orchards from at least the 1930's until the 1990's. After the orchards were removed, the Subject Property appears to have been used for small-scale crop growing and industrial use. Currently, the Subject Property parcels contains two industrial buildings for the manufacturing and storing of chemical resins and epoxies.

Unless otherwise noted, Orion conducted this Phase I ESA in general accordance with the scope and limitations of *Standard Practice for Environmental Site Assessments* (E1527-21), published by ASTM International (ASTM). Similarly, the VES was conducted in accordance with ASTM's *Standard Guide for Vapor Encroachment Screening on a Property Involved in Real Estate Transactions* (E2600-15). The purpose of the Phase I ESA was to identify Recognized Environmental Conditions (RECs) and Vapor Encroachment Conditions (VECs) as defined in the aforementioned ASTM Standards. The ESA included a review of local regulatory agency files, review of State and federal regulatory databases, and Subject Property reconnaissance.

After completing the Phase I ESA, Orion has identified one REC and one VEC. Historical land use at the Subject Property, adjoining, and nearby properties included large-scale orchards from at least the 1930's until the 1990's. Orchards are known to require heavy application of pesticides and herbicides resulting in a potential release of hazardous materials to the environment. Additionally, the current land use involves the storing and mixing of a large volume of chemicals including acetones, ketones, xylenes, and dye materials. The large volume of chemicals stored and mixed on site could be a potential hazard and possible VEC. The historical presence of orchards and volume of chemicals on

site warrants additional investigation. Based on the results of the Phase I ESA, Orion recommends conducting a Phase II ESA to evaluate the potential presence of pesticides and herbicides in shallow soil and potential volatile organic compounds in the soil vapor.

The Executive Summary section of this report is only intended to represent a brief summary of findings and is not a detailed account of all the information documented in this report. The report should be reviewed in its entirety before drawing any final conclusions as to potential environmental conditions associated with the Subject Property.

## 1.0 INTRODUCTION

---

Orion Environmental Inc. (Orion) was retained by Scannell Properties, LLC (Scannell), to perform a Phase I Environmental Site Assessment (ESA) at the property located at 2720 South Willow Avenue in Rialto, California (Subject Property; Figures 1 and 2). The Subject Property is approximately 3.5-acres and consists of one parcel identified by San Bernardino County Assessor's Parcel Numbers (APN) 0258-171-57-0000. The work was conducted in general accordance with Orion's proposal dated 31 January 2022 and approved by Scannell on 16 March 2022. The following sections summarize the Phase I ESA objectives and scope of work including potential non-scope considerations.

### 1.1 Objectives

The objectives of the Phase I ESA were to evaluate whether the Subject Property may have been impacted by releases of hazardous materials from past or present activities at the Property or adjacent and nearby properties, which are considered RECs. ASTM Standard E1527-21 defines a REC as:

***REC:*** (1) the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment."

The term REC includes hazardous substances or petroleum products even under conditions in compliance with laws. The term is not intended to include *de minimis* conditions that generally do not pose a material risk of harm to public health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate government agencies. An example of *de minimis* conditions would include accidental leaks and spills associated with current operations at the Subject Property.

In addition, the Phase I ESA was conducted to identify controlled and historical RECs (CRECs and HRECs, respectively) at the Subject Property or surrounding properties. ASTM Standard E1527-21 defines CRECs and HRECs as the following:

**CREC:** *“a recognized environmental condition affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to implementation of required controls (for example, activity and use limitations or other property use limitations).”*

**HREC:** *“a previous release of hazardous substances or petroleum products affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the subject property to any controls (for example, activity and use limitations or other property use limitations). A historical recognized environmental condition is not a recognized environmental condition.”*

Data gaps may have been identified during the Phase I ESA process and are discussed later in this report. ASTM Standard E1527-21 defines data gaps as:

**Data Gap:** *“a lack of or inability to obtain information required by this practice despite good faith efforts by the environmental professional to gather such information. Data gaps may result from incompleteness in any of the activities required by this practice, including, but not limited to, site reconnaissance (for example, an inability to conduct the site visit), and interviews (for example, an inability to interview the key site manager, regulatory officials, etc.).”*

A Tier 1 VES was conducted to identify any VECs present at the Subject Property or resulting from adjacent or nearby properties. ASTM Standard E2600-15 defines VECs as *“the presence or likely presence of chemical of concern vapors in the vadose zone of the subject property caused by the release of vapors from contaminated soil and/or groundwater on or near the subject property as identified by Tier 1 or Tier 2 procedures.”* Tier 1 Screening is conducted using information gathered during the Phase I ESA and is used to identify the presence of VECs at the Subject Property. Tier 2 Screening is conducted if a VEC is identified by the Tier 1 Screening and would include numeric screening criteria to provide greater certainty to the existence of a VEC.

## **1.2 Scope of Work**

To meet these objectives, Orion conducted the following scope of work in accordance with ASTM Standards E1527-21 and E2600-15 unless otherwise noted:

- Subject Property and vicinity reconnaissance
- Interview(s) with Subject Property owner representative(s), if identified

- Review of historical information
- Review of State and federal environmental database information
- Preparation of this report.

### 1.3 ASTM Non-Scope Considerations

ASTM non-scope considerations are sometimes assessed concurrently with a Phase I ESA, but were not included in Orion's approved scope of work defined in the aforementioned proposal. Examples of non-scope considerations include:

- |   |   |
|---|---|
| <input type="checkbox"/> Asbestos-containing building materials | <input type="checkbox"/> Lead in drinking water                                       |
| <input type="checkbox"/> Biological agents                      | <input type="checkbox"/> Mold   |
| <input type="checkbox"/> Cultural and historic resources        | <input type="checkbox"/> Polychlorinated biphenyl (PCB)-containing building materials |
| <input type="checkbox"/> Ecological resources                   | <input type="checkbox"/> Naturally-occurring radon                                    |
| <input type="checkbox"/> Endangered species                     | <input type="checkbox"/> Regulatory compliance  |
| <input type="checkbox"/> Health and safety                      | <input type="checkbox"/> Substances not defined as hazardous substances               |
| <input type="checkbox"/> Indoor air quality                     | <input type="checkbox"/> Wetlands   |
| <input type="checkbox"/> Industrial hygiene                     |   |
| <input type="checkbox"/> Lead-based paint                       |   |

## 2.0 SOURCES OF INFORMATION

---

Orion used various sources of information to perform the Phase I ESA for the Subject Property. Historical documentation was obtained through Environmental Risk Information Services (ERIS), of Toronto, Ontario, Canada. ERIS searched databases for environmental liens, activity and use limitations (AULs), historical Sanborn maps, city directories, topographic maps, aerial photographs, water well records, and regulatory records using the minimum search radii defined in ASTM Standards E1527-21 and E2600-15. Orion reviewed the State Water Resources Control Board's (SWRCB) GeoTracker database for environmental cases. To evaluate the potential presence of oil and natural gas wells, Orion reviewed the California Geologic Energy Management Division (CalGEM) online database. Similarly, Orion reviewed the California Department of Water Resources (DWR) online database of well completion reports. In addition, Orion reviewed the California Environmental Protection Agency (CalEPA) Regulated Site Portal database of environmentally regulated facilities and sites to evaluate data on hazardous waste and materials. Orion also contacted the following agencies to request records related to the Subject Property:

- San Bernardino County Fire Department
- City of Rialto Building and Safety Division
- City of Rialto Public Works Department
- San Bernardino County Department of Environmental Health (DEH).

Subject Property reconnaissance was performed to observe for current land use conditions and physical indications of possible usage, storage, spillage, or dumping of hazardous, toxic, or petroleum substances on the Subject Property and, when possible, on adjacent properties. Historical documentation was compiled from the State and federal databases defined in ASTM Standards E1527-21 and E2600-15 (Appendix A). The results of historical database searches and agency correspondence are summarized in Section 5 of this Phase I ESA report, while ERIS's database report is in Appendix B. A copy of a user-provided questionnaire from Scannell is in Appendix C.

### 3.0 SITE DESCRIPTION

---

The following sections summarize the Subject Property location and vicinity, physical setting, geology and hydrogeology, and nearby water and oil and gas wells.

#### 3.1 Subject Property Location and Vicinity

The Subject Property is located at 2720 South Willow Avenue in Rialto, California, in an area characterized by light industrial and commercial properties (Figure 2). The Subject Property is approximately 3.5-acres and consists of one parcel identified by APN 0258-171-57-0000.

The Subject Property is adjoined by South Willow Avenue to the east and surrounded by light industrial properties to the north, south, east, and west. Beyond East Santa Ana Avenue to the north east is the ARCO Colton Terminal, a bulk fuel storage facility for gasoline and diesel (Figure 2). The following table summarizes properties in the immediate vicinity of the Subject Property according to the San Bernardino County Assessor’s Office.

Direction Relative to Subject Property	Address	Parcel Number	Current Land Use
Northwest	2661 Lilac Avenue	0258-111-40-0000	Light Industrial
North	2650 South Willow Avenue	0258-111-05-0000	Light Industrial
Northeast	2625 South Willow Avenue	0258-121-45-0000	Light Industrial
East	2755 North Willow Avenue	Not Assigned	Light Industrial
South	2828 South Willow Avenue	0258-171-46-0000	Light Industrial
West	Not Assigned	0258-171-56-0000	Vacant Commercial

#### 3.2 Physical Setting

The average elevation of the Subject Property is reportedly 990 feet above mean sea level with the Subject Property topography sloping slightly towards the south-southeast based on U.S. Geological Survey (USGS) 7.5- and 15-minute topographic maps. The Santa Ana River is approximately 1.4-miles southeast of the Subject Property. The Subject Property is developed with two industrial buildings, paved parking area, and covered in grass along the eastern property boundary. Orion assumes that onsite precipitation infiltrates through the unpaved natural soils at the Subject Property.

### **3.3 Subject Property Geology and Hydrogeology**

USGS sources indicate that the Subject Property is primarily underlain by Pliocene- to Holocene-aged quaternary alluvial and marine deposits. According to the Soil Survey Geographic database, the Subject Property is underlain by Hanford coarse sandy loam, which are classified as Class A soils. Class A soils have low runoff potential when thoroughly wet and have free water transmission.

The Subject Property is located within the Upper Santa Ana Groundwater Basin, Basin No. 8-002. Recharge of the Basin is primarily from percolation of flow in the Santa Ana River and its tributaries. Secondary recharge is from infiltration of precipitation on soils (DWR, 2006). Groundwater in the area has been reportedly encountered at depths ranging from 95 to 101 feet below ground surface in the perched aquifer and from 160 to 162 feet below ground surface in the regional aquifer according to a groundwater monitoring report prepared by AECOM for the Colton Terminal located approximately 0.5-mile northeast of the Subject Property (AECOM, 2022). For the purposes of the Phase I ESA, Orion assumed the regional groundwater flow direction beneath the Subject Property is to the southeast towards the Santa Ana River.

### **3.4 Nearby Water and Oil and Gas Wells**

A historical records search identified 143 well completion records within 1 mile of the Subject Property. The closest federal water wells reported by ERIS are located 0.6-mile upgradient from the Subject Property. The closest state water wells report by ERIS are located 0.2-mile upgradient from the Subject Property. Remaining well completion records are greater than 0.4-mile from the Subject Property. Orion did not identify any water well records as a concern for the purpose of this Phase I ESA. Based on online CalGEM records, the Subject Property is not within the administrative boundary of an oil field and no oil and gas wells were identified within 1 mile of the Subject Property.

## **4.0 SUBJECT PROPERTY RECONNAISSANCE AND INTERVIEWS**

---

### **4.1 Subject Property Reconnaissance Methodology and Observations**

On 24 March 2022, Orion personnel performed reconnaissance of the Subject Property under the supervision of Mr. Britton Dennis of Revchem Composites. The Subject Property was observed for current land use conditions and physical indications of possible usage, storage, spillage, or dumping of hazardous substances or petroleum products on Subject Property and, when possible, on additional adjoining properties.

Orion did not observe aboveground or underground storage tanks (ASTs and USTs, respectively); floor drains, sumps, or drywells; odors; septic systems or cesspools; pools of liquid; pits, ponds, or lagoons; or other petroleum product transmission/storage at the Subject Property during reconnaissance. The following sections summarize Subject Property reconnaissance observations with photographs in Appendix D.

#### **4.1.1 Ground Surface Conditions**

The property at 2720 South Willow Avenue (APN 0258-171-57-0000) consists of an industrial development operated by Revchem Composites and Dura Technologies. The property is accessible by one gated and paved driveway on the east. The driveway slopes west towards the industrial portions of the property and away from South Willow Avenue. The property is surrounded by paved areas that include vehicle parking and an undeveloped portion of the property along the driveway east towards South Willow Avenue. Vegetation primarily consisted of grass and native plants across the property with trees in the southwest corner of the property. The industrial development consists of two structures used for chemical mixing and manufacturing, chemical storage and shipping, laboratory testing, and office administration. Topography was generally flat.

Orion observed chemical storage of acetones, ketones, and other chemicals and dyes used in the mixing and manufacturing of resins and epoxies at the Dura Technologies building. Chemicals were stored in 55-gallon drums and totes outside along the eastern portion of the property. Acetone recycling equipment was observed along the eastern wall of the Dura Technologies building. Orion observed resin and epoxy mixing inside the Dura Technologies building as well as laboratory research and development and spray paint testing within a vented hood. A fine dust was observed inside the chemical mixing area

that was identified by personnel as silica filler used in the manufacturing of resins. No staining was observed at the Subject Property during reconnaissance. A chemical odor was observed in the chemical mixing area. Open mixing bins were in use during the time of site reconnaissance and no vent hoods were observed in the chemical mixing area. Orion observed small quantities of solvents, antifreeze coolant, and automotive oil inside the Revchem building.

An undeveloped portion of the Subject Property exists along the driveway east toward South Willow Avenue. The area is unpaved and predominantly native grass. Orion walked the perimeter and transected the undeveloped area and did not identify any staining, distressed vegetation, or other indications of contamination.

#### **4.1.2 Utilities**

Orion observed evidence of municipal utilities along the northern property boundary and to the east of the Subject Property. Water mains and water utility vaults were observed on South Willow Avenue. Orion observed a fire hydrant on the northeastern property boundary. Electrical and telephone lines were observed to the east of the Subject Property. According to the City of Rialto, sewer and water are provided by the West Valley Water District. Gas is provided by Southern California Gas Company and electricity is provided by Southern California Edison.

#### **4.1.3 Chemicals and Materials Usage**

Orion observed many 55-gallon drums and totes associated with various chemicals used in the mixing and manufacturing of resins and epoxies including acetone, ketones, dyes, and silica material. Chemical mixing bins for blending were observed in the Dura Technologies building as well as areas for mixing dyes and paints. Orion observed storage of peroxides and waxes in the northwest corner of the Subject Property outside of the Revchem building. Waxes were stored in 5-gallon buckets under covered roof and peroxides were stored in a vented and locked storage container. Staining was not observed at the Subject Property.

#### **4.1.4 Wastes**

Orion observed storage of empty chemical drums outside the northern wall of the Dura Technologies building as well as hazardous waste drum storage outside the southern wall

of the Dura Technologies building. Empty chemical drums were also stored, prior to disposal, inside two semi-trucks in the paved parking area between the industrial buildings.

#### **4.1.5 Adjoining Properties**

As summarized in Section 3.1, the Subject Property is surrounded by commercial/industrial properties to the north, south, east, and west. Based on observations from South Willow Avenue, Orion did not identify land use conditions and physical indications of possible usage, storage, spillage, or dumping of hazardous, toxic, or petroleum substances at nearby properties. Orion did not attempt to enter nearby properties as they are private. Orion did not identify any RECs associated with nearby properties based on Subject Property reconnaissance. The following sections summarize observations of adjoining properties based on visibility from public rights-of-way and from the Subject Property.

##### 2650 South Willow Avenue (North)

UPS Freight operates a transportation facility to the north of the Subject Property. No evidence of outdoor ASTs, USTs, or waste storage was observed at the property during reconnaissance.

##### 2625 South Willow Avenue (Northeast)

Western Metal Service operates a metals fabrication company to the northeast of the Subject Property. No evidence of outdoor ASTs or USTs was observed during reconnaissance.

##### 2675 South Willow Avenue (Northeast)

Hill Crane Service operates a crane and rigging company to the northeast of the Subject Property. No evidence of outdoor ASTs, USTs, or waste storage was observed during reconnaissance.

##### 2755 North Willow Avenue (East)

Pacific Steel Group operates a reinforcing steel fabricating company to the east of the Subject Property. No evidence of outdoor ASTs, USTs, or waste storage was observed during reconnaissance.

2828 South Willow Avenue (South)

Hollywood Delivery Service operates a delivery and freight company to the south of the Subject Property. No evidence of outdoor ASTs, USTs, or waste storage was observed during reconnaissance.

2733 Vista Avenue (Southwest)

Team West Contracting Corporation operates a contracting service for cemetery maintenance and renovation, fence installation, and general construction to the southwest of the Subject Property. No evidence of outdoor ASTs or USTs was observed during reconnaissance.

Undeveloped Land (West)

The property adjoining the Subject Property to the west is undeveloped land. No evidence of outdoor ASTs or USTs was observed during reconnaissance.

## **4.2 Interviews**

Scannell did not identify any representatives to interview at the undeveloped Subject Property. Therefore, interviews were not conducted as part of this Phase I ESA. Orion does not consider the lack of interviews as a data gap for the purposes of this Phase I ESA.

## 5.0 RECORDS REVIEW

---

Orion requested historical regulatory and property information for the Subject Property through ERIS as summarized in Section 2.0. Orion reviewed the compiled documents and the results are summarized in the sections below. The complete ERIS report is in Appendix B.

### 5.1 Environmental Lien Search

ERIS searched available current land title records for environmental cleanup liens and other activity and use limitations such as engineering and institutional controls assigned to the Subject Property. According to ERIS, no environmental cleanup liens or AULs were identified for the Subject Property (APN 0258-171-57-0000).

### 5.2 Sanborn Map Review

Sanborn fire insurance maps are available for 12,000 communities in the U.S. from 1867 to present. Sanborn maps were initially produced for the insurance industry to provide fire risk information for buildings or other structures. According to ERIS, no Sanborn maps are available for the Subject Property.

### 5.3 Historical Aerial Photography Review

Orion reviewed a total of 23 historical aerial photographs taken between 1931 and 2020. Observations regarding the Subject Property history based on the photographs are summarized below.

Year	Notes
1931, 1938, 1948, 1952, 1954, 1959, 1966, 1974, 1975, 1980, and 1985	The Subject Property appears to be undeveloped with possible agricultural crops and orchards. A dirt road adjoins the Subject Property to the east, followed by undeveloped land and a residential property. Surrounding properties appear to be agricultural with select parcels comprising of orchards.
1989, 1995	The Subject Property appears to have two buildings constructed along the western portion of the property with an undeveloped portion to the east with possible agricultural crops or orchards. A paved road adjoins the Subject Property to the east with a driveway along the Subject Property. Nearby properties to the south and east appear.
2002, 2004, and 2009	The Subject property appears to have additional structures to the east of the buildings. Nearby properties to the north and west appear. The Subject Property and undeveloped portion of land to the east appear as they are today.

Year	Notes
2010	Row crops no longer appear in undeveloped portion of land to the east. Nearby properties to the south appear to have been further developed for apparent commercial/ industrial use.
2014, 2016, 2018, and 2020	Row crops no longer appear in the undeveloped land the to the west of the Subject Property. The adjoining properties and nearby properties to the north, south, east, and west appear to have been further developed for apparent industrial use. The Subject Property remains generally unchanged from the previous description.

#### 5.4 Historical Topographic Map Review

Orion reviewed a total of 16 USGS topographic maps (7.5- and 15-minute) of the area dating from 1896 to 2021. Orion did not identify any RECs as a result of the historical topographic map review. Observations regarding the Subject Property history based on topographic maps are summarized in the table below.

Year	Notes
1896	Roads are shown to the east, north, and south of the Subject Property. A railroad is shown approximately 1-mile to the north of the Subject Property.
1898	The Subject Property and surrounding areas remain generally unchanged from the previous description.
1901	The Subject Property and surrounding areas remain generally unchanged from the previous description.
1938	The map is incomplete and does not cover the Subject Property.
1942	Developed roads appear to the west and surrounding areas to the north, south, and east.
1943, 1953, 1954	The Subject Property and surrounding areas remain generally unchanged from the previous description.
1967	The surrounding area to the west appears to be more developed with possible residential developments approximately 1-mile from the Subject Property. The bulk fuel terminal appears to the northeast of the site.
1973	The Subject Property and surrounding areas remain generally unchanged from the previous description.
1975	The map is incomplete and does not cover the Subject Property.
1980	The surrounding area to the west appears to be more developed with additional residential developments approximately 0.6-mile from the Subject Property.
2015, 2018, 2021	The Subject Property and surrounding areas remain generally unchanged from the previous description.

## 5.5 City Directory Review

Orion reviewed historical City directory listings for the Subject Property and adjacent properties based on registries from 1965 to 2020. The Subject Property address first appeared in the 2001 listing as Revchem Plastics. In 2016, the Subject Property was registered as Revchem Composites. The following table summarizes registered owners and/or occupants for adjoining properties.

City Directory Listings for Adjoining Properties					
Address <sup>(a)</sup>	Direction Relative to Subject Property	Groundwater Gradient	Distance from Subject Property (miles)	Years	Registered Owners/Occupants
2650 South Willow Avenue	North	Upgradient	0.06	2011	Motor Cargo
2625 South Willow Avenue	Northeast	Cross gradient	0.1	2011-2020	Westo Industries
				2008-2020	Wadco Steel Sales
				2003-2020	Wadco Industries/Wadco Steel
2755 North Willow Avenue	East	Cross gradient	0.09	2008 -2020	C&M Steel Fabricators Inc
				2001-2003	Davidson J L Co
2675 South Willow Avenue	Northeast	Cross gradient	0.09	2003-2020	Hill Crane Svc
2828 South Willow Avenue	South	Downgradient	0.06	2008-2020	Hollywood Delivery Svc Inc

(a) All addresses are in the City of Perris unless noted otherwise.

In general, surrounding properties were listed under the current occupants observed during reconnaissance. Addresses in the vicinity of the Subject Property have generally been industrial and commercial facilities, which is consistent with findings from the historical aerial photograph review.

## 5.6 Database Review

ERIS identified 55 properties within ASTM-defined search radii in agency records. A complete list of these properties and records is in Table 1. Properties adjacent or nearby to the Subject Property that contained records related to historical or current environmental impacts, hazardous wastes, or regulatory violations are summarized in the table below, discussed in detail in this section, and shown on Figure 3. Properties that are unlikely to pose environmental risks to the Subject Property based on various conditions (i.e., distance

from Subject Property, groundwater flow direction, closed environmental cleanup cases, or absence of reported environmental regulatory violations) are not discussed in detail in this section. ERIS did not identify any records associated with the Subject Property.

Property	Address <sup>(a)</sup>	Direction Relative to Subject Property	Groundwater Gradient	Distance from Subject Property (miles)	Database <sup>(b)</sup>	Notes
Hill Crane Services	2675 South Willow Avenue	ENE	Upgradient	0.01	CERS TANK	Active EPA ID; petroleum AST; chemical storage facility; verified hazardous waste generator
					EMISSIONS	
					FINDS/FRS	
					HAZNET	
					RCRA NON GEN	
					SANBERN CUPA	
Pacific Steel Group	2755 South Willow Avenue	E	Cross Gradient	0.01	CERS HAZ	Small quantity generator, hazardous materials storage
					FINDS/FRS	
					HAZNET	
					RCRA NON GEN	
					SANBERN CUP	
UPS Freight Rialto	2650 South Willow Avenue	NNE	Upgradient	0.02	CERS TANK	Active EPA ID; chemical storage facility, petroleum AST; hazardous waste generator; history of violations
					RCRA NON GEN	
					SANBERN CUPA	
					TRIS	
Royal Truck Bodies Inc.	2661 South Lilac Avenue	WNW	Upgradient	0.02	EMISSIONS	NPDES permit <sup>(c)</sup> ; waste oil recycler; hazardous waste generator
					FINDS/FRS	
					HAZNET	
					SANBERN CUPA	
Leonard Trucking	2723 Vista Avenue	WSW	Cross Gradient	0.04	RCRA NON GEN	Verified non-hazardous waste generator
Alliance Shippers Inc.	2678 South Lilac Avenue	WNW	Upgradient	0.14	CERS TANK	Petroleum AST; generates hazardous waste; chemical storage facility; history of violations
					RCRA NON GEN	
					SANBERN CUPA	
					SANBERN CUPA	
ARCO Colton Terminal	2395 Riverside Avenue South	NE	Cross Gradient	0.47	CLEANUP SITES	Open cleanup program site; former leaking underground storage tank
					DELISTED LST	
					LUST	

(a) All addresses are in the City of Rialto unless noted.

- (b) Database abbreviations are defined as follows:
  - CERS HAZ – California Environmental Reporting System (CERS) Hazardous Waste Sites
  - CERS TANK – CERS tanks from the California Environmental Protection Agency (CalEPA) Regulated Site Portal
  - EMISSIONS - Toxic Pollutant Emissions Facilities
  - FIND/FRS – Facility Registry Service/Facility Index
  - HAZNET - Hazardous Waste Manifest Data
  - RCRA NON GEN - RCRA verified Non-Generator
  - SANBERN CUPA – San Bernardino County Certified Unified Program Agencies (CUPA)
  - CLEANUP SITES – GeoTracker Cleanup Program Sites
  - DELISTED LST – Delisted Leaking Storage Tanks
  - LUST – Leaking Underground Fuel Tank Report
- (c) National Pollutant Discharge Elimination System (NPDES).
- (d) Aboveground Storage Tank (AST).
- (e) Toxic Release Inventory.

In addition to the 55 properties discussed above, Orion reviewed available information from unplottable records provided in the ERIS database report. Unplottable records cannot be spatially placed on a map, but are potentially in the search area based on a partial street address, city, or zip code. Two unplottable records were assigned to Phil Dearing and the Former Crestmore Landfill. The unplottable record for Phil Dearing was a passenger train car derailment with no injuries on Lilac Street in Rialto in 1993. The nearest railroad crossing to Lilac Street from the site is approximately 0.8-mile northwest and upgradient. Based on the provided location description, Orion concluded that the Former Crestmore Landfill property is approximately 2-miles cross gradient of the Subject Property. Based on the distances from the Subject Property, Orion does not consider either unplottable record a REC.

### **5.6.1 Hill Crane Services**

*(0.01-mile upgradient/ cross gradient)*

Hill Crane Services located at 2675 South Willow Avenue northeast of the Subject Property. The facility has an EPA ID as a chemical storage facility and hazardous waste generator as well as aboveground petroleum storage. There is a history of compliance violations but all violations were returned to compliance. Orion does not consider this facility a REC to the Subject Property without lines of evidence indicating a release to the environment.

### **5.6.2 Pacific Steel Group**

*(0.01-mile cross gradient)*

Pacific Steel Group was listed as a small quantity generator. No waste manifest records or information related to types of wastes generated were available for this facility. As of April

2022, there was no history of compliance violations or environmental releases, therefore, Orion does not consider this facility a REC to the Subject Property.

### **5.6.3 UPS Freight Rialto** *(0.02-mile upgradient)*

UPS Freight Rialto located at 2650 South Willow Avenue is adjoining the Subject Property to the north. The facility has an EPA ID as a chemical storage facility and hazardous waste generator as well as aboveground petroleum storage. There is a history of compliance violations and hazardous materials incidents including spills of chemicals during transportation or loading. Orion does not consider this facility a REC to the Subject Property without lines of evidence indicating a release to the environment that may have impacted the Subject Property.

### **5.6.4 Royal Truck Bodies Inc.** *(0.02-mile cross gradient)*

Royal Truck Bodies, Inc., is enrolled with the South Coast Air Quality Management District for emissions and in the hazardous waste network. No waste manifest records or information related to types of wastes generated were available for this facility. Without indication of a release to the environment, Orion does not consider this facility a REC to the Subject Property.

### **5.6.5 Leonard Trucking** *(0.04-mile upgradient/ cross gradient)*

As of January 2022, there was no history of compliance violations or environmental releases for Leonard Trucking. Based on the absence of available records and the facility's cross gradient distance from the Subject Property, Orion does not consider this facility a REC.

### **5.6.6 Alliance Shipping Inc.** *(0.14-mile upgradient)*

Alliance Shipping Inc. located at 2678 South Lilac Avenue west/northwest of the Subject Property. The facility has an EPA ID as a chemical storage facility and hazardous waste generator as well as aboveground petroleum storage. There is a history of compliance violations but all violations were returned to compliance. Orion does not consider this facility a REC to the Subject Property without lines of evidence indicating a release to the environment.

### **5.6.7 ACRO Colton Terminal** *(0.47-mile cross gradient)*

ACRO Colton Terminal is located at 2395 Riverside Avenue northeast of the Subject Site. The terminal is an active cleanup site case with the Santa Ana Regional Water Quality Board undergoing active soil and groundwater cleanup due to a previous leaking underground storage tank (UST). Past uses at the terminal caused contamination include the storage of fuel and petrochemicals in aboveground and underground tanks and the transportation of fuel in pipelines and vehicles. Contaminants of concern at the terminal include gasoline, methyl tert-butyl ether, tert-butyl alcohol, and other fuel oxygenates. Several groundwater monitoring wells associated with the Colton Terminal are in close proximity to the Subject Property including well DW-71, which contained low levels (2.88 micrograms per liter) of the chlorinated solvent trichloroethene (TCE) as recently as May 2021. While the release to the environment is noteworthy, based on the facility's cross gradient distance from the Subject Property and low concentrations levels, Orion does not consider the terminal as a REC to the Subject Property.

### **5.7 Local Agency Review**

Orion contacted local agencies defined in Section 2.0 for records associated with the Subject Property. No records were available or on file for the Subject Property APNs at the time of this report.

### **5.8 Vapor Encroachment Screening**

Orion conducted a Tier 1 VES in conjunction with the Phase I ESA at the Subject Property using default Area of Concern parameters and minimum search distances defined in ASTM E2600-15. The Tier I VES was conducted to evaluate whether a VEC exists from subsurface contaminants at or near the Subject Property. Based on the volume of chemicals stored and used at the Subject Property that contain volatile organic compounds (VOCs), Orion considers potential VOC impacts from the Subject Property as a VEC. Details of the Tier 1 VES are included in Appendix E.

## **6.0 NON-SCOPE CONSIDERATIONS**

---

Non-scope issues as per Section 13 of the ASTM Standard E1527-21 were not addressed as part of this Phase I ESA as discussed in Section 1.3 of this report.

## 7.0 SUMMARY AND CONCLUSIONS

---

Orion Environmental Inc., at the request of Scannell Properties, LLC, performed a Phase I Environmental Subject Property Assessment and Tier 1 Vapor Encroachment Screening of the property located at 2720 South Willow Avenue in Rialto, California. The Subject Property is located in a developed area of Rialto predominantly characterized by industrial activities.

Orion reviewed aerial photographs and identified that historical activities at the Subject Property, adjoining, and nearby properties included large-scale orchards from at least the 1930's until the 1990's. Orchards are known to require heavy application of pesticides and herbicides resulting in a potential release of hazardous materials to the environment. After the orchards were removed, the Subject Property appears to have been used for small-scale crop growing and industrial use. Currently, the Subject Property contains two industrial buildings that store and manufacture resins and epoxies. Current site activities use and store significant quantities of chemicals containing VOCs that may impact shallow soils and cause an environmental exposure to future occupants of the Subject Property.

After completing the Phase I ESA, Orion has identified one REC and one VEC. Historical land use at the Subject Property, adjoining, and nearby properties included large-scale orchards from at least the 1930's until the 1990's. Orchards are known to require heavy application of pesticides and herbicides resulting in a potential release of hazardous materials to the environment. Additionally, the current land use involves the storing and mixing of a large volume of chemicals including acetones, ketones, xylenes, and dye materials. The large volume of chemicals stored and mixed on site could be a potential hazard and possible VEC. The historical presence of orchards and volume of chemicals on site warrants additional investigation. Based on the results of the Phase I ESA, Orion recommends conducting a Phase II ESA to evaluate the potential presence of pesticides and herbicides in shallow soil and volatile organic compounds in the soil vapor.

## 9.0 RELIANCE AND LIMITATIONS

---

Orion has prepared this report for the exclusive use of Scannell Properties, LLC, as it pertains to the property located at 2720 South Willow Road in Rialto, California. Any use of or reliance on this report by a third party shall be at such party's sole risk.

The scope of this ESA was limited to visual observation of surface conditions at the Subject Property, interviews with personnel familiar with the Subject Property, and a review of reasonably available relevant data. The data reviewed included reports and literature issued by federal, State, and local agencies. Orion has not conducted an independent investigation of the accuracy of these secondary sources and has assumed them to be accurate and complete. Sampling and analysis were not conducted for asbestos, radon, lead-based paint, and lead in drinking water. Investigations of the following conditions were not part of the scope of work and would not have been revealed by the investigation:

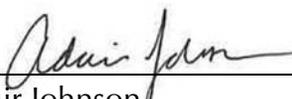

- Naturally occurring toxics
- Toxicity of substances common in current habitable environments, such as stored household products, building materials, and consumables
- Biological pathogens
- A contaminant plume below the ground surface originating from an offsite source
- Contaminants or contaminant concentrations that do not violate present regulatory standards but that may violate future such standards
- Unknown Subject Property contamination, such as "midnight dumping" or accidental spillage of waste other than the debris observed and noted in this report.

No warranty or guarantee concerning the findings and conclusions of this ESA is offered or intended. Rather, it is represented that the scope and performance of the professional services rendered are in accordance with the current state of practice being conducted in the Subject Property region by similarly qualified practitioners.

## **10.0 ENVIRONMENTAL PROFESSIONAL STATEMENT**

---

Orion declares that, to the best of our professional knowledge and belief, we meet the definition of “environmental professional” as defined in Part 312.10 of Title 40 of the Code of Federal Regulations (40 CFR). Orion personnel have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. We have developed and performed all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

**APPENDIX A**

**LIST OF FEDERAL AND STATE REGULATORY DATABASES**

## APPENDIX A

### LIST OF FEDERAL AND STATE REGULATORY DATABASES

---

Orion reviewed the following regulatory agency databases to obtain information on potential environmental liabilities. Search radii for each database are defined in ASTM International's *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process (E1527-21)* and *Standard Guide for Vapor Encroachment Screening on a Property Involved in Real Estate Transactions (E2600-15)*.

- Federal sources:
  - National Priority List (NPL)
  - Delisted NPL
  - Comprehensive Environmental Response, Compensation, and Liability Information System (CERCLIS)
  - CERCLIS No Further Remedial Action Planned (NFRAP)
  - Resource Conservation and Recovery Act (RCRA) databases including:
    - RCRA corrective action sites (CORRACTS)
    - Hazardous waste treatment, storage, and disposal (TSD) facilities
    - TSD facilities with reported violations
    - Large and small quantity hazardous waste generators
  - Federal institutional control and engineering control registries
  - Emergency Response Notification System (ERNS) list of reported releases of oil and hazardous substances
  - Toxic Release Inventory System (TRIS)
- State sources:
  - Hazardous waste sites identified for investigation or remediation
  - State-equivalent NPL

## **Notice: IMPORTANT LIMITATIONS and YOUR LIABILITY**

**Reliance on information in Report:** This report DOES NOT replace a full Phase I Environmental Site Assessment but is solely intended to be used as database review of environmental records.

**License for use of information in Report:** No page of this report can be used without this cover page, this notice and the project property identifier. The information in Report(s) may not be modified or re-sold.

**Your Liability for misuse:** Using this Service and/or its reports in a manner contrary to this Notice or your agreement will be in breach of copyright and contract and ERIS may obtain damages for such mis-use, including damages caused to third parties, and gives ERIS the right to terminate your account, rescind your license to any previous reports and to bar you from future use of the Service.

**No warranty of Accuracy or Liability for ERIS:** The information contained in this report has been produced by ERIS Information Inc. ("ERIS") using various sources of information, including information provided by Federal and State government departments. The report applies only to the address and up to the date specified on the cover of this report, and any alterations or deviation from this description will require a new report. This report and the data contained herein does not purport to be and does not constitute a guarantee of the accuracy of the information contained herein and does not constitute a legal opinion nor medical advice. Although ERIS has endeavored to present you with information that is accurate, ERIS disclaims, any and all liability for any errors, omissions, or inaccuracies in such information and data, whether attributable to inadvertence, negligence or otherwise, and for any consequences arising therefrom. Liability on the part of ERIS is limited to the monetary value paid for this report.

**Trademark and Copyright:** You may not use the ERIS trademarks or attribute any work to ERIS other than as outlined above. This Service and Report (s) are protected by copyright owned by ERIS Information Inc. Copyright in data used in the Service or Report(s) (the "Data") is owned by ERIS or its licensors. The Service, Report(s) and Data may not be copied or reproduced in whole or in any substantial part without prior written consent of ERIS.

# Executive Summary

## Property Information:

**Project Property:** 84WRR - Willow Road Rialto  
2720 South Willow Avenue Bloomington CA 92316

**Project No:** 84WRR-1.1

**Coordinates:**

<b>Latitude:</b>	34.05185265
<b>Longitude:</b>	-117.37590477
<b>UTM Northing:</b>	3,767,969.05
<b>UTM Easting:</b>	465,307.02
<b>UTM Zone:</b>	UTM Zone 11S

**Elevation:** 990 FT

## Order Information:

**Order No:** 22032100779  
**Date Requested:** March 21, 2022  
**Requested by:** Orion Environmental, Inc.  
**Report Type:** Database Report

**Violation Notes:**

Returned to compliance on 08/10/2021. OBSERVATION: Hazardous materials were observed on site during the inspection that are not listed in the most current CERS inventory or are listed in lesser quantities. Also, the emergency response plan section does not contain the local, state, and federal agency emergency contact numbers in case of a release. CORRECTIVE ACTION: Submit a signed statement that updated Business Plan elements have been submitted into CERS.

**Violation Description:**

Failure to electronically update business plan within 30 days of any one of the following events:  
 A 100 percent or more increase in the quantity of a previously disclosed material.  
 Any handling of a previously undisclosed hazardous materials at or above reportable quantities.  
 A change of business address, business ownership, or business name.  
 A substantial change in the handler's operations that requires modification to any portion of the business plan.

**Violations**

Violation Date:	08/13/2019	Violation Source:	CERS
Violation Program:	APSA	Violation Division:	San Bernardino County Fire Department
Citation:	HSC 6.67 25270.4.5(a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5(a)		
Violation Notes:			

Returned to compliance on 08/22/2019. The facility's employees were unable to adequately demonstrate that an SPCC Plan has been prepared and implemented. CORRECTIVE ACTION: Sign the Certificate of Compliance indicating that an SPCC plan has been prepared.

**Violation Description:**

Failure to prepare a Spill Prevention, Control, and Countermeasures (SPCC) Plan.

**Violations**

Violation Date:	08/13/2019	Violation Source:	CERS
Violation Program:	HW	Violation Division:	San Bernardino County Fire Department
Citation:	HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)		
Violation Notes:			

Returned to compliance on 08/27/2019. The last documented hazardous waste disposal at this facility occurred on 01/11/2018. All hazardous waste containers that actively held hazardous waste did not have the accumulation start date denoted on the container. CORRECTIVE ACTION: Sign the Certificate of Compliance indicating that all hazardous waste that has exceeded the accumulation time frame for this facility, has been transported off site by a licensed hazardous waste transporter. Provide a copy of the hazardous waste disposal record to this Division.

**Violation Description:**

Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met:  
 (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms.

<i>Map Key</i>	<i>Number of Records</i>	<i>Direction</i>	<i>Distance (mi/ft)</i>	<i>Elev/Diff (ft)</i>	<i>Site</i>	<i>DB</i>
----------------	--------------------------	------------------	-------------------------	-----------------------	-------------	-----------

will be conducted for employees.

**Violation Description:**

Failure to ensure that all employees are thoroughly familiar with proper waste handling and emergency procedures, relevant to their responsibilities during normal facility operations and emergencies.

**Violations**

**Violation Date:** 07/01/2016  
**Violation Program:** APSA  
**Citation:** HSC 6.67 25270.4.5(a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5(a)  
**Violation Notes:**

Returned to compliance on 10/05/2016. The facility stores greater than 1,320 gallons of petroleum based liquid onsite. An SPCC plan or Tier I template forms must be established and available on site for review. Generate the SPCC plan or Tier I forms and submit a copy to this office within 30 days along with the signed Certificate of Compliance.

**Violation Description:**

Failure to prepare and implement a Spill Prevention Control and Countermeasure (SPCC) Plan.

**Violations**

**Violation Date:** 07/01/2016  
**Violation Program:** HW  
**Citation:** HSC 6.5 Multiple - California Health and Safety Code, Chapter 6.5, Section(s) Multiple  
**Violation Notes:**

Returned to compliance on 10/05/2016. Failure to note accumulation start date on labels (CCR 66262.34(f)(2)) The accumulation start date on some waste oil drums was last dated from 2013. Update the labels so the dates are current and reflect the beginning of accumulation within the next 30 days. Submit a signed Certificate of Compliance to verify compliance.

**Violation Description:**

Hazardous Waste Generator Program - Operations/Maintenance - General

**Violations**

**Violation Date:** 07/01/2016  
**Violation Program:** HMRRP  
**Citation:** HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)  
**Violation Notes:**

Returned to compliance on 10/05/2016. The plan was last submitted to the CERS website on 9/25/13.

**Violation Description:**

Failure to annually review and electronically certify that the business plan is complete and accurate on or before the annual due date.

**Violations**

**Violation Date:** 08/13/2019  
**Violation Program:** HMRRP  
**Citation:** HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)  
**Violation Notes:**

Returned to compliance on 08/27/2019. The facility's employees were unable to adequately demonstrate that hazardous materials training is conducted. CORRECTIVE ACTION: Sign the Certificate of Compliance indicating that hazardous materials training has been conducted, and annual refresher training will be conducted for employees.

**Violation Description:**

<b>Map Key</b>	<b>Number of Records</b>	<b>Direction</b>	<b>Distance (mi/ft)</b>	<b>Elev/Diff (ft)</b>	<b>Site</b>	<b>DB</b>
----------------	--------------------------	------------------	-------------------------	-----------------------	-------------	-----------

Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.

**Description of Events:** A SMALL BOX OF POISON WAS LOCATED NEXT TO THE DOOR WHERE IT WAS BEING UNLOADED. A DOCKWORKER RAN THE BOX OVER CAUSING THE BOX TO POP RELEASING A GAS INTO THE AIR. A DOCKWORKER DRIVING BY CAUGHT WIND OF THE AIR IN HIS MOUTH CAUSING DIZZINESS AND MINOR DISCOMFORT. THE DOCK WAS IMMEDIATELY STOPPED AND MOVED TO A SAFE LOCATION TO AVOID ANY OTHER PROBLEMS.

**Recommend Actions Taken:** IN THE FUTURE WE WILL BE MORE CAUTIOUS IN HOW WE HANDLE LITTLE BOXES OF HAZMAT. MAKE SURE THEY ARE ON PALLETS TO AVOID FORKLIFT DAMAGE.

**Description of Events:** SUPERVISOR WAS INSIDE GETTING PAPERWORK AND WHEN HE RETURNED TO THE DOCK SAW PRODUCT LEAKING. IT WAS NEVER REPORTED TO THE SUPERVISOR WHEN IT OCCURED SO IT IS UNCLEAR EXACTLY WHAT HAPPENED.

**Recommend Actions Taken:** CORRECTIVE ACTION TO BE TAKEN IF IT IS FOUND WHO DAMAGED THE FREIGHT.

Description of Events:

OPENED THE TRAILER DOOR AND THERE WAS SOME POWDER RESIDUE ON THE FLOOR. SHIPMENT WAS A LARGE NYLON BAG SEWN SHUT. NO ACTUAL PUNCTURE IN THE BAG. ONLY A LITTLE LESS THAN A CUP WAS ON THE FLOOR. AFTER SPEAKING WITH HAZ MAT ONE IT WAS DETERMINED IT WAS PROBABLY SOME KIND OF MATERIAL PLACED IN THE BAG TO KEEP THE BEADS FROM STICKING TOGETHER.

Recommend Actions Taken:

NO ACTION TO BE TAKEN

<b>Description of Events:</b>	OPENED THE TRAILER DOOR AND THERE WAS SOME POWDER RESIDUE ON THE FLOOR. SHIPMENT WAS A LARGE NYLON BAG SEWN SHUT. NO ACTUAL PUNCTURE IN THE BAG. ONLY A LITTLE LESS THAN A CUP WAS ON THE FLOOR. AFTER SPEAKING WITH HAZ MAT ONE IT WAS DETERMINED IT WAS PROBABLY SOME KIND OF MATERIAL PLACED IN THE BAG TO KEEP THE BEADS FROM STICKING TOGETHER.					

**Recommend Actions Taken:** NO ACTION TO BE TAKEN

<b>Description of Events:</b>	A SMALL BOX OF POISON WAS LOCATED NEXT TO THE DOOR WHERE IT WAS BEING UNLOADED. A DOCKWORKER RAN THE BOX OVER CAUSING THE BOX TO "POP" RELEASING A GAS INTO THE AIR. A DOCKWORKER DRIVING BY CAUGHT WIND OF THE AIR IN HIS MOUTH CAUSING DIZZINESS AND MINOR DISCOMFORT. THE DOCK WAS IMMEDIATELY STOPPED AND MOVED TO A SAFE LOCATION TO AVOID ANY OTHER PROBLEMS.					
<b>Recommend Actions Taken:</b>	IN THE FUTURE WE WILL BE MORE CAUTIOUS IN HOW WE HANDLE LITTLE BOXES OF HAZMAT. MAKE SURE THEY ARE ON PALLETS TO AVOID FORKLIFT DAMAGE.

<b>Violation Program:</b>	HW	<b>Violation Division:</b>	San Bernardino County Fire Department
<b>Citation:</b>	HSC 6.5 Multiple - California Health and Safety Code, Chapter 6.5, Section(s) Multiple		
<b>Violation Notes:</b>			

Returned to compliance on 04/18/2018. Failure to determine if waste is hazardous waste (CCR 66262.11) Hazardous waste determination not made for (3) 55 gal drums of unknown.

**Violation Description:**

Hazardous Waste Generator Program - Operations/Maintenance - General

**Violations**

<b>Violation Date:</b>	07/07/2020	<b>Violation Source:</b>	CERS
<b>Violation Program:</b>	HW	<b>Violation Division:</b>	San Bernardino County Fire Department
<b>Citation:</b>	HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)		
<b>Violation Notes:</b>			

Returned to compliance on 07/30/2020. OBSERVATION: At time of inspection, the accumulation time for the (1) 55 gal drum of waste fuel could not be determined. During the inspection, the question was posed to Mr. Marchant regarding the amount of time the waste fuel was onsite. Mr. Marchant could not determine the accumulation time onsite. Because there were no hazardous waste manifests available for review nor an accumulation start date on the drum, it was determined that the (1) 55 gal drum of waste fuel has exceeded the 180 days on site. CORRECTIVE ACTION: Using a licensed hazardous waste hauler, properly dispose of the (1) 55 gal drum of waste fuel. Submit a copy of the manifest to this Division to document proper

disposal.

**Violation Description:**

Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met:

- (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms.
- (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f).
- (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.

**Violations**

**Violations**

Violation Date: 07/19/2019  
 Violation Program: HMRRP  
 Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)  
 Violation Notes:

Violation Source: CERS  
 Violation Division: San Bernardino County Fire Department

Returned to compliance on 07/19/2019. OBSERVATION: Observed 20 forklift batteries containing sulfuric acid , and facility also generates, (1) 55-gallon drum of flammable waste, (1) 55-gallon drum of corrosive waste, and(1) 55-gallon drum of paint related waste that were not observed on site, facility had disposal records for the waste being hauled of. CORRECTIVE ACTION: Update the hazardous materials inventory via CERS, CERS ID#10051789, by adding 340-gallons of sulfuric acid (forklift batteries), (1) 55-gallon drum of flammable waste, (1) 55-gallon drum of corrosive waste, (1) 55-gallon drum of paint related waste.

**Violation Description:**

Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.

**Violations**

**Violation Date:** 07/11/2019 **Violation Source:** CERS  
**Violation Program:** HMRRP **Violation Division:** San Bernardino County Fire Department  
**Citation:** HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)  
**Violation Notes:**

Returned to compliance on 10/29/2019. OBSERVATION: The emergency response plan submitted via CERS on 5/19/2017 was missing the phone number for the local CUPA. CORRECTIVE ACTION: Update the emergency response plan via CERS, by adding (909) 386-8425 or (800) 33-TOXIC as the phone number for the local CUPA. Submit the certificate of compliance signed to this Department once the emergency response plan has been updated.

**Violation Description:**

Failure to establish and electronically submit an adequate emergency response plan and procedures for a release or threatened release of a hazardous material.

**Violations**

**Violation Date:** 07/06/2016 **Violation Source:** CERS  
**Violation Program:** HMRRP **Violation Division:** San Bernardino County Fire Department  
**Citation:** HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)  
**Violation Notes:**

Returned to compliance on 07/09/2019.

**Violation Description:**

Failure to complete and electronically submit a business plan when storing/handling a hazardous material at or above reportable quantities.

**Violations**

**Violation Date:** 07/11/2019 **Violation Source:** CERS  
**Violation Program:** HMRRP **Violation Division:** San Bernardino County Fire Department  
**Citation:** HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)  
**Violation Notes:**

Returned to compliance on 10/29/2019. OBSERVATION: The business plan was last submitted electronically via CERS, CERS ID#10040395, on 5/19/2017. CORRECTIVE ACTION: Review and certify the business plan and electronically submit a copy of the facilities business plan via CERS. Submit the certificate of compliance signed to this Department once the business plan has been submitted via CERS.

**Violation Description:**

Failure to annually review and electronically certify that the business plan is complete and accurate on or before the annual due date.

**Eval General Type:** Compliance Evaluation Inspection  
**Eval Type:** Industrial Storm Water Compliance Evaluation  
**Eval Division:** Water Boards  
**Eval Program:** INDSTW  
**Eval Source:** SMARTS  
**Eval Notes:**

Weather: warm and clear. Yard is used for cutting and other industrial processes and for storing steel rods out in the open. Neglected litter and debris observed near the gate at Vista Avenue. Observed open scrap metal waste bins and chiller unit leaking into an exposed area of the yard. Discussed lack of sampling; Contact reports that yard floods from runoff through the fence to the north from the adjacent business. Downstream drainage was altered with the construction of two new buildings on the south side. Commingling is immediate and they cannot get a set of samples that is representative. Site plan in SWPPP (undated) doesn't show drainage. I agreed to investigate drainage problem.; Note: data in [EVAL Notes] field for some records is truncated from the source.

**Eval Date:** 11/07/2019

**Violations**

Violation Date: 03/21/2018 Violation Source: CERS  
 Violation Program: HMRRP Violation Division: San Bernardino County Fire Department  
 Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)  
 Violation Notes:

Returned to compliance on 05/04/2018. OBSERVATION: The hazardous materials inventory submitted to CERS on 2/7/18 is not consistent with what was observed on site. Hazardous materials such as propane and the used oil were underreported. CORRECTIVE ACTION: Submit an accurate and complete hazardous materials inventory into the California Environmental Reporting System (CERS).

**Violation Description:**

Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.

**Violations**

Violation Date: 03/30/2021 Violation Source: CERS  
 Violation Program: APSA Violation Division: San Bernardino County Fire Department  
 Citation: HSC 6.67 25270.4.5(a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5(a)  
 Violation Notes:

Returned to compliance on 07/22/2021. OBSERVATION: Observed a ~330-gallon single walled AST of new oil and a ~280-gallon single walled AST of used oil without adequate secondary containment. CORRECTIVE ACTION:

**Violation Description:**

Failure to provide and maintain secondary containment for bulk storage tank installations (except for mobile refuelers and other non-transportation-related tank trucks) sufficient to hold the capacity of the largest container and sufficient freeboard for precipitation.

**Violations**

Violation Date: 10/19/2015 Violation Source: CERS  
 Violation Program: HW Violation Division: San Bernardino County Fire Department  
 Citation: HSC 6.5 Multiple Sections - California Health and Safety Code, Chapter 6.5, Section(s) Multiple Sections  
 Violation Notes:

Returned to compliance on 12/15/2015. Hazardous waste accumulation time exceeded (CCR 66262.34(a)) At time of inspection, there was no way of determining the exact time the waste material has been on site.

**Violation Description:**

<b>Map Key</b>	<b>Number of Records</b>	<b>Direction</b>	<b>Distance (mi/ft)</b>	<b>Elev/Diff (ft)</b>	<b>Site</b>	<b>DB</b>

**Citation:** HSC 6.67 25270.4.5(a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5(a)  
**Violation Notes:**

Returned to compliance on 07/22/2021. OBSERVATION: Monthly and annual tank integrity inspections are not being conducted as required by the SPCC plan and tank industry standards. The interstitial space of the 10,000-gallon diesel fuel AST was not being inspected. CORRECTIVE ACTION: Submit copies of completed monthly & annual tank integrity inspections and monthly portable container inspections.

**Violation Description:**

Failure to test or inspect each aboveground container for integrity based on industry standards as discussed in the SPCC Plan:  
1. On a regular schedule.  
2. After making material repairs.  
3. Use non-destructive testing.  
4. Inspect each container's supports, foundations, and outside for signs of deterioration, discharges, or accumulation of oil inside diked areas.

**Violation Notes:**

Returned to compliance on 07/22/2021. OBSERVATION: The SPCC plan did not have a signed Management Approval page. CORRECTIVE ACTION: Submit a copy of the signed Management Approval page.

**Violation Description:**

"Failure to prepare an SPCC Plan which fulfills all basic requirements that include:  
1. The SPCC Plan must be prepared in accordance with good engineering practices.  
2. Have full approval of management at a level of authority to commit the necessary resources to fully implement the SPCC Plan.  
3. Prepare the SPCC Plan in writing.  
4. Follow the sequence of the SPCC rule or include a cross-reference.  
5. If the SPCC Plan calls for additional procedures, methods, or equipment not yet fully operational, discuss the items in separate paragraphs."

**Violation Notes:**

Returned to compliance on 05/04/2018. OBSERVATION: The SPCC plan cites industry standard STI SP001 for integrity testing and documented inspections of all their tanks. Per STI SP001 at a minimum, facility shall conduct monthly and annual inspections and a 20 year formal external inspection for the (1) 10,000 gal aboveground storage tank of new red dye diesel. At time of inspection, documented monthly and annual inspections were not conducted/available for review. CORRECTIVE ACTION: Submit a signed statement indicating that tests and inspections of containers are being properly conducted on a regular schedule or after repair.

**Violation Description:**

"Failure to test or inspect each aboveground container for integrity based on industry standards as discussed in the SPCC Plan:  
1. On a regular schedule.  
2. After making material repairs.  
3. Use non-destructive testing.  
4. Inspect each container's supports, foundations, and outside for signs of deterioration, discharges, or accumulation of oil inside diked areas."

**Violation Notes:**

Returned to compliance on 05/04/2018. OBSERVATION: The facility's Discharge Notification Form in the SPCC plan is missing the local CUPA's emergency phone number, (909) 386-8425. CORRECTIVE ACTION: Submit a signed statement indicating that the SPCC plan has been revised to include all required information and procedures to report an oil discharge.

**Violation Description:**

Failure to include in the SPCC Plan:  
1. A contact list and phone numbers for the facility response coordinator, National Response Center, cleanup contractors with an agreement for response, and all Federal, State, and local agencies who must be contacted in case of a discharge  
2. Information and procedures that would enable a person reporting an oil discharge to relate all information as described in 40 CFR 112.7(a)(4), unless facility submitted a Facility Response Plan.

<b>Violation Notes:</b>			

Returned to compliance on 05/04/2018. OBSERVATION: At time of inspection, appropriate secondary containment was not provided for the (1) 280 gal used oil container and the (1) 330 gal new engine oil container located outside of the maintenance building. The (1) 280 gal used oil container was stored on an approximately 55 gal spill pallet. The SPCC plan stated that the (1) 330 gal new engine oil container is single walled and does not have adequate secondary containment. The secondary means of containment should hold the entire capacity of the largest single container and sufficient freeboard to contain precipitation. CORRECTIVE ACTION: Submit a signed statement indicating that secondary containment has been provided and maintained for bulk storage tanks.

**Violation Description:**

Failure to provide and maintain secondary containment for bulk storage tank installations (except for mobile refuelers and other non-transportation-related tank trucks) sufficient to hold the capacity of the largest container and sufficient freeboard for precipitation.

<b>Violation Notes:</b>			

Returned to compliance on 05/04/2018. OBSERVATION: The oil type and storage capacity of storage containers containing petroleum product in the SPCC plan is not consistent with the facility's current business operations. Items such as (1) 1,000 gal aboveground storage tank of new clear diesel and (2) 55 gal drums of new engine oil were not listed in the SPCC plan oil storage inventory. CORRECTIVE ACTION: Submit a signed statement indicating that the SPCC plan has been revised to address the type of oil and storage capacity of storage containers.

**Violation Description:**

Failure to address in the SPCC Plan the type of oil and storage capacity for each fixed container, and either the type of oil and storage capacity for each mobile or portable container, or an estimate of the potential number of mobile or portable containers, the types of oil, and anticipated storage capacities.

**Violation Notes:**

**Violation Source:** CERS  
**Violation Division:** San Bernardino County Fire Department

Returned to compliance on 07/22/2021. OBSERVATION: Observed four 55-gallon drums of new oils and one 55-gallon drum of used oil on site during the inspection that are not listed in the current SPCC plan inventory. CORRECTIVE ACTION: Submit a signed statement that the SPCC plan has been revised to include all 55-gallon or greater containers containing petroleum products.

**Violation Description:**

Failure to address in the SPCC Plan the type of oil and storage capacity for each fixed container. For mobile or portable containers, either provide the type of oil and storage capacity, or an estimate of the potential number of mobile or portable containers, the types of oil, and anticipated storage capacities.

**Violations**

**Violation Date:** 03/30/2021  
**Violation Program:** HW  
**Citation:** 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)  
**Violation Notes:**

**Violation Source:** CERS  
**Violation Division:** San Bernardino County Fire Department

Returned to compliance on 07/26/2021. OBSERVATION: Observed 55-gallon drums of used oil, drained used oil filters, and waste aerosol cans missing complete hazardous waste labels. Drums of waste absorbent and waste coolant also did not have complete labels but these containers were empty at the time of the inspection. CORRECTIVE ACTION: Submit photographs showing that all containers of hazardous waste have been properly labeled.

**Violation Description:**

Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

**Violations**

**Violation Date:** 03/21/2018  
**Violation Program:** APSA  
**Citation:** HSC 6.67 25270.4.5(a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5(a)  
**Violation Notes:**

**Violation Source:** CERS  
**Violation Division:** San Bernardino County Fire Department

Returned to compliance on 05/04/2018. OBSERVATION: Facility shall conduct annual spill prevention briefings for all oil-handling personnel. The SPCC plan stated that the briefings shall be conducted by management and documented. At time of inspection, documented annual spill prevention briefings were not being conducted/available for review. CORRECTIVE ACTION: Submit a signed statement indicating that spill prevention briefings are conducted at least once a year.

**Violation Description:**

Failure to conduct spill prevention briefing for oil-handling personnel at least once a year to assure adequate understanding of the SPCC Plan.

**Citation:** HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)  
**Violation Notes:**

OBSERVATION: No hazardous waste removals occurred during the 2020 year. The hazardous wastes observed on site have been stored for longer than 180 days. CORRECTIVE ACTION: Submit a copy of hazardous waste manifests showing that the wastes currently on site have been removed.

**Violation Description:**

Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met:

- (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms.
- (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f).
- (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.

**Violation Notes:**

Returned to compliance on 07/08/2021. OBSERVATION: OBSERVED NO TRAINING RECORDS FOR OIL HANDLING PERSONNEL. MANAGER STATED HE RECEIVED NO TRAINING. CORRECTIVE ACTION: COMPLETE AND MAINTAIN TRAINING RECORDS IN ACCORDANCE WITH YOUR SPCC PLAN. SUBMIT A STATEMENT WITHIN 30 DAYS INDICATING THAT OIL PERSONNEL HAVE BEEN TRAINED.

**Violation Description:**

Failure to provide the following training to all oil-handling personnel:

1. Operation and maintenance of equipment to prevent discharges.
2. Discharge procedure protocols.
3. Applicable pollution control laws, rules, and regulations.
4. General facility operations.
5. Contents of the SPCC Plan.

**Citation:** HSC 6.67 25270.4.5 (a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5 (a)

**Violation Notes:**

Returned to compliance on 08/10/2021. OBSERVATION: OBSERVED 100-GALLON PORTABLE SINGLE WALLED TANK NOT DISCLOSED ON THE SPCC PLAN. CORRECTIVE ACTION: IMMEDIATELY DISCONTINUE USE AND EMPTY 100 GALLON PORTABLE DIESEL CONTAINER AND PERMANENTLY CLOSE OR AMEND SPCC PLAN TO REFLECT ADDITIONAL INVENTORY. SUBMIT SIGNED CERTIFICATE OF COMPLIANCE WITHIN 30 DAYS

**Violation Description:**

Failure to amend the SPCC Plan within 6 months:

1. When the facility has had a change in design, construction, operation, or maintenance which affects the facility's discharge potential. AND/OR
2. To include more effective proven technology at the time of the 5-year SPCC Plan review and evaluation.

**Violations**

<b>Violation Date:</b>	07/08/2021	<b>Violation Source:</b>	CERS
<b>Violation Program:</b>	APSA	<b>Violation Division:</b>	San Bernardino County Fire Department
<b>Citation:</b>	HSC 6.67 25270.4.5(a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5(a)		

**Violation Notes:**

Returned to compliance on 08/10/2021. OBSERVATION: A ~100-gallon portable tank used to store diesel fuel was observed on site that is not included in the SPCC plan inventory. CORRECTIVE ACTION: Submit a copy of disposal documentation showing that the tank has been removed or a signed statement that the tank has been added to the SPCC plan inventory and spill prevention measures.

**Violation Description:**

Failure to address in the SPCC Plan the type of oil and storage capacity for each fixed container.

For mobile or portable containers, either provide the type of oil and storage capacity, or an estimate of the potential number of mobile or portable containers, the types of oil, and anticipated storage capacities.

**Violations**

**Violation Notes:**

Returned to compliance on 08/19/2021. OBSERVATION: ANNUAL INSPECTIONS AND COMPLETE MONTHLY INSPECTIONS OF ABOVEGROUND STORAGE TANKS (AST) IN ACCORDANCE WITH SPCC PLAN WERE NOT BEING CONDUCTED. OBSERVED ONLY MONTHLY INSPECTIONS PERFORMED, BUT THE INSPECTION FORMS DID NOT MEET THE STI SP-001 ELEMENTS FOR MONTHLY INSPECTION. NO ANNUAL INSPECTION TEMPLATE WAS OBSERVED IN SPCC PLAN. NO INSPECTION OF AST OF INTERSTITIAL SPACE WAS PERFORMED OR LISTED IN INSPECTION REPORT. CORRECTIVE ACTION: IMMEDIATELY PROVIDE MONTHLY AND ANNUAL INSPECTIONS WHICH MEET THE REQUIREMENTS OF STI SP-001. SUBMIT A SIGNED CERTIFICATE OF COMPLIANCE WITHIN 30 DAYS.

**Violation Description:**

"Failure to test or inspect each aboveground container for integrity based on industry standards as discussed in the SPCC Plan:

1. On a regular schedule.
2. After making material repairs.

<b>Map Key</b>	<b>Number of Records</b>	<b>Direction</b>	<b>Distance (mi/ft)</b>	<b>Elev/Diff (ft)</b>	<b>Site</b>	<b>DB</b>

**Violation Division:** San Bernardino County Fire Department  
**Violation Notes:**

Returned to compliance on 07/08/2021. OBSERVATION: OBSERVED NO OVERFILL PREVENTION DEVICE USED TO PREVENT DISCHARGES IN USE. SPCC PLAN REFLECTS STICK LEVEL GAUGE OR EQUIVALENT USED TO DETERMINE READINGS. MANAGER WAS NOT ABLE TO PROVIDE STICK LEVEL GAUGE OR EQUIVALENT DEVICE USED FOR OVERFILL PREVENTION. CORRECTIVE ACTION: SUBMIT STATEMENT DETAILING USE AND TRAINING OF AN APPROVED DEVICE USED FOR OVERFILL PREVENTION IN ACCORDANCE WITH YOUR SPCC PLAN WITHIN 30 DAYS.

**Violation Description:**

- Failure to engineer or update each container installation in accordance with good engineering practice to avoid discharges and/or failure to provide at least one of the following devices on each container installation:
1. An audible or visual high liquid level alarm.
  2. High liquid level pump cutoff devices.
  3. Audible or code signal communications between tank gauger and pumping station.
  4. A fast response system for determining liquid levels, such as computers, telepulse or direct vision gauges.

**Violation Notes:**

OBSERVATION: The current SPCC plan emergency contact list does not include a licensed clean up contractor. CORRECTIVE ACTION: Submit a copy of an updated emergency contact list which includes a licensed valid clean up contractor.

**Violation Description:**

Failure to include in the SPCC Plan:

1. A contact list and phone numbers for the facility response coordinator, National Response Center, cleanup contractors with an agreement for response, and all Federal, State, and local agencies who must be contacted in case of a discharge
2. Information and procedures that would enable a person reporting an oil discharge to relate all information as described in 40 CFR 112.7(a)(4), unless facility submitted a Facility Response Plan.

**Violation Notes:**

Returned to compliance on 06/03/2016.

**Violation Description:**

Failure to test or inspect aboveground tanks for integrity by a person qualified in accordance with industry standards.

**Violations**

**Violation Date:** 07/08/2021 **Violation Source:** CERS  
**Violation Program:** APSA **Violation Division:** San Bernardino County Fire Department  
**Citation:** HSC 6.67 25270.4.5(a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5(a)  
**Violation Notes:**

Returned to compliance on 08/19/2021. OBSERVATION: The current SPCC plan describes conducting monthly and annual tank integrity inspections per the STI SP001 standard, however, currently, the facility is conducting only a monthly inspection. Also, the monthly inspection form does not address inspecting the interstitial space (space between the inner tank and outer concrete shell) for liquids. CORRECTIVE ACTION: Submit a copy of a completed annual inspection checklist or a signed statement that the SPCC plan has been revised to describe a measure of environmental equivalence to replace conducting a separate annual inspection, as well as a statement that the interstitial space is being inspected monthly and has been included in the monthly inspection checklist.

**Violation Description:**

Failure to test or inspect each aboveground container for integrity based on industry standards as discussed in the SPCC Plan:

1. On a regular schedule.
2. After making material repairs.
3. Use non-destructive testing.
4. Inspect each container's supports, foundations, and outside for signs of deterioration, discharges, or accumulation of oil inside diked areas.
