**Review Period:** May 10, 2024- June 8, 2024

The Amador County Transportation Commission (ACTC) has prepared this notice to inform agencies and interested parties that it is releasing an Initial Study and Proposed Mitigated Negative Declaration (IS/MND) pursuant to the California Environmental Quality Act (CEQA) to the Amador County Regional Transportation Plan 2024 Update.

### **Project Description:**

As required by State law, the RTP is a program-level planning document to be updated and submitted to the California Transportation Commission (CTC) and Caltrans every five (5) years. However, the ACTC elected to adopt a 4-year schedule to better align with the 8-year Housing Element schedule that is required of local jurisdictions. The purpose of the RTP is to identify the region's short-term and long-range (20-year) transportation needs and to establish policies, programs, and projects designed to meet those needs. Additionally, projects that are included in the RTP are prioritized for funding through the Regional Transportation Improvement Program (RTIP), which are then submitted to the CTC for programming every two (2) years as part of the State Transportation Improvement Program (STIP).
