

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Mayberry Parker Bridge Improvements Project

Lead Agency: City of Pasadena Department of Public Works

Contact Name: Jeff Kuhn

Email: JKhun@cityofpasadena.net Phone Number: 6267447389

Project Location: City of Pasadena Los Angeles County
City *County*

Project Description (Proposed actions, location, and/or consequences).

The Mayberry Parker Bridge Access Improvement Project (Project) site encompasses approximately 0.61 acres located below and immediately to the north and south of the Colorado Street Bridge overpass of the Arroyo Seco Channel, in the northernmost portion of the Lower Arroyo Seco. The City of Pasadena Public Works Department, in coordination with the One Arroyo Foundation, proposes to: (1) provide new pedestrian access to the historic Mayberry Parker Bridge (Bridge), including placement of a steel pipe railing system onto the Bridge deck for safety and replacement a section of chain link fencing with tubular steel fencing; (2) rehabilitate existing trails to the north and south of the Bridge through stabilization (i.e., repair or replacement) of deteriorated trail segments, stairways, stone walls, and eroded slopes; and (3) provide a new high-visibility crosswalk between Desiderio Park and the Arroyo Seco at the Arroyo Boulevard and Westminster Drive intersection. The proposed improvements would be available for public use from sunrise to sunset, same as the Arroyo Seco as a whole. The proposed Project has been designed to provide improved physical facilities and open space resources to existing users of the Lower Arroyo Seco and is not anticipated to directly increase use of the area. The same locations and amounts of parking in the immediate area, similar circulation and access, and same types and extent of facilities would be provided with the sole exception of the high-visibility crosswalk. All aspects of Project design and implementation would be in conformance with the Lower Arroyo Seco Master Plan (Pasadena 2015a) and associated Arroyo Seco Design Guidelines, the City's Arroyo Seco Public Lands Ordinance and Historic Preservation Ordinance, and/or the Secretary of the Interior's Standards for the Treatment of Historic Properties with Guidelines for Preserving, Rehabilitating, Restoring, and Reconstructing Historic Buildings.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Biological Resources; Cultural Resources; Tribal Cultural Resources.

MM BIO-1; MM BIO-2; MM CUL-1; MM CUL-2; MM TCR-1; MM TCR-2; MM TCR-3.

See attached IS/MND to view descriptions of each mitigation measure.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

None.

Provide a list of the responsible or trustee agencies for the project.

Los Angeles Regional Water Quality Control Board (NPDES permitting/Construction General Permit)
