1810 East Hazelton Avenue
Stockton, California 95205

County Clerk
County of San Joaquin California
44 North San Joaquin Street, Suite 260
Stockton, California 95202

Project Title: Morada Acres Water System Rehabilitation Project

Project Location: See attached vicinity map

Description of Nature, Purpose, and Beneficiaries: See attached project description

Public Agency Approving Project: San Joaquin County Public Works Department

Name of Agency Carrying Out Project: San Joaquin County Public Works Department

This is to advise that the San Joaquin County Public Works Department has approved the above described project on 4/10/24 and has made the determination that the project is exempt due to the following:

Exempt Status (check one):

- Ministerial (Sec. 21080 (b) (1); 15268)
- Declared Emergency (Sec. 21080 (b) (3); 15269(a))
- Emergency Project (Sec. 21080 (B) (4); 15269(b) (c))
- Categorical Exemption: Existing Facilities (Sec. 15301(b), 15304(f))
- Statutory Exemption (Sec. 15282(l))

Reason(s) why project is exempt: The project will replace deficient portions of the existing water distribution system to decrease leaks.

MORADA ACRES WATER SYSTEM REHABILITATION PROJECT

Project Description

Project Location:

Morada Acres Maintenance District. See attached Vicinity Map.

Project Justification:

Morada Acres Maintenance District was formed in 1952 and currently serves water to 32 properties. Existing water mains were installed in 1955 and consists of 4" to 6" steel piping. The district has a existing steel hydropneumatics tank that was installed in 1961.

The existing water distribution system is aging causing water mains and service laterals to leak, and a leaking hydropneumatics tank. Residential water service connections are unmetered.

Scope of Work:

The project will consist of:

1. Rehabilitate the Morada Acres Maintenance District water system by replacing approximately 2,600 feet of pipelines along with necessary valves, 32 water service laterals, a hydropneumatics tank, 6 fire hydrants, and various pipeline appurtenances. In addition, the project will install new water meters on all service connections. All new piping will be installed within County Right of Way and the hydropneumatics tank will be installed on a County owned parcel.

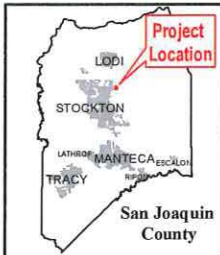

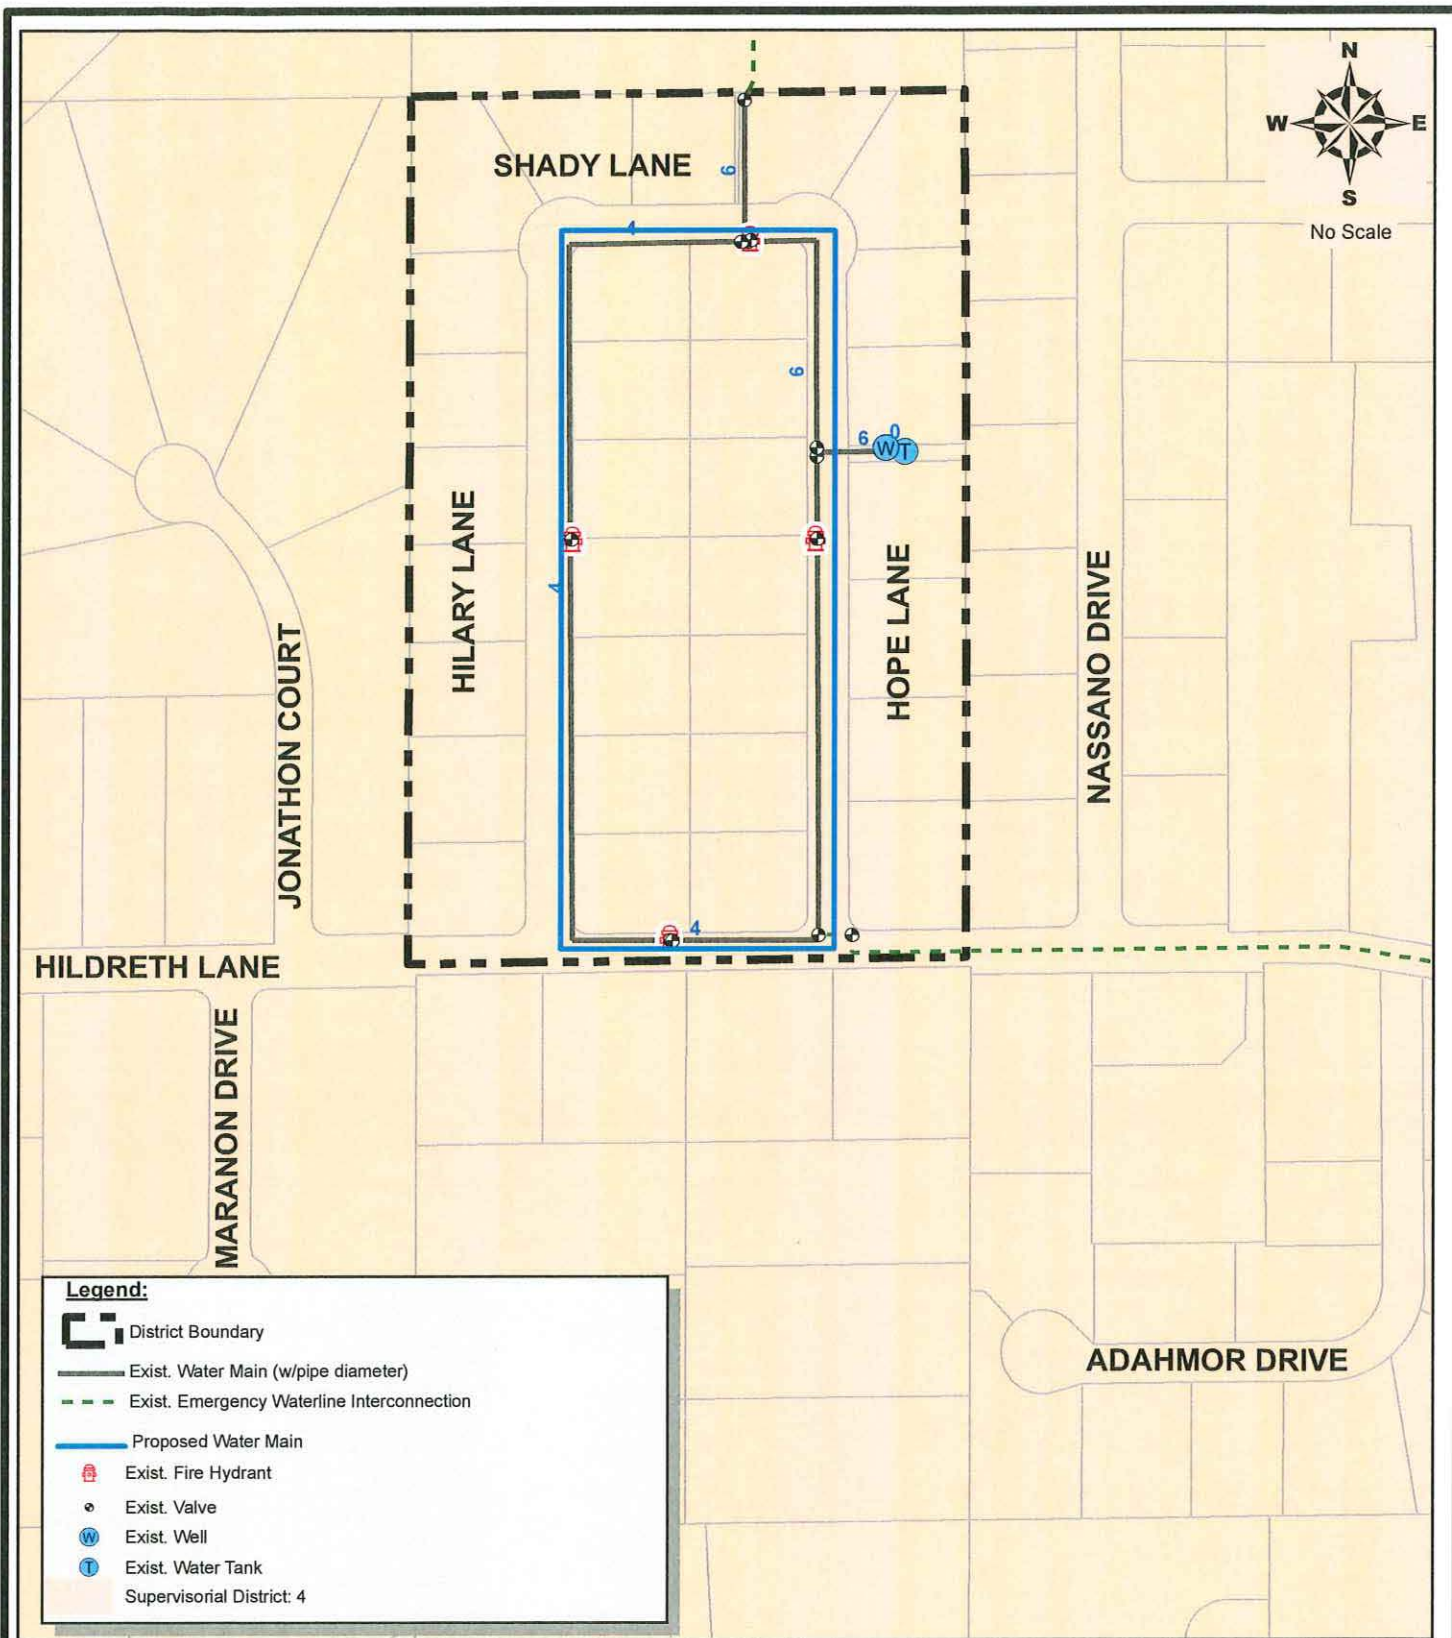

Environmental Setting:

In these portions of the San Joaquin County, land usage is primarily **residential with single family homes**.

There are many large trees adjacent to the project area. Nesting and migratory birds, protected by the Migratory Bird Treaty Act, may nest within these trees. Furthermore, the Swainson's Hawk, a raptor species of concern within the State of California and listed as threatened may nest adjacent to or within the project area. A pre-construction survey for nesting Swainson's Hawks and other migratory birds is recommended if construction is scheduled to occur from February 15th to September 1st.

Beneficiaries:

The public will see decreased maintenance needed for the water distribution system, resulting in smoother operations. Additionally, the district will conserve water by eliminating water losses through leaks in the water main.
