Project Title: REHAB MULTIPLE TRANSPORTATION RELATED FACILITIES PROJECT

Lead Agency: Caltrans

Contact Name: Breeanna Kalson

Email: breeanna.kalson@dot.ca.gov Phone Number: 707-672-3593

Project Location: Ukiah and Boonville Mendocino County
City *County*

Project Description (Proposed actions, location, and/or consequences).

The project would improve two existing Caltrans Maintenance Stations (MS) in Mendocino County. At the Ukiah MS adjacent to US 101, work would include installing a permanent fuel island with canopy and demolishing and replacing a storage building. At the Boonville MS adjacent to SR 128, work would include replacing the existing substandard materials storage building with a new materials storage building. Additionally, both MSs would receive a new Level 2 and a Level 3 electric vehicle charging station. Associated work would include trenching for electrical conduit installation. The purpose of the project is to bring substandard maintenance station facilities up to current standards and facilitate compliance with Governor's Executive Order B16-14 and DGS Management Memo 13-04 regarding the purchase of zero emission vehicles. The project is needed in order to maintain safe and reliable access to fuel and materials on vital public transportation routes in northern California. All work would be performed on Caltrans property or within the Caltrans right of way. The project locations were identified on the Cortese List as sites with historic leaking underground storage tanks. Caltrans determined that an Initial Study should be prepared to adequately satisfy the requirements of CEQA.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

No potentially significant impacts were identified. No mitigation measures were included.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

No known areas of controversy have been identified.

Provide a list of the responsible or trustee agencies for the project.

Department of Toxic Substances Control
California Transportation Commission
