Project Description: (please use a separate page if necessary)

The proposal would allow a total cut and fill of 5,165 cubic yards of soil to be disturbed, including a 22,782 sq. ft. excess soil dispersal area, to construct building pads and a driveway for a new single-family dwelling, accessory dwelling unit, and a guest house associated with a Grading Permit application. Portions of driveway sections, main residence, and accessory dwelling unit are located on slopes that exceed 10 percent, and results in a driveway over 300 feet in length, which triggers a discretionary grading permit. No trees are proposed to be removed as part of the project.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.
