Project Description (Proposed actions, location, and/or consequences).

A request by Sarabjit Purewal for a Minor Use Permit/Coastal Development Permit (C-DRC2022-00025) to allow for the construction of an approximately 3,452-square-foot single-family residence with an attached 1,202-square-foot garage, 424-square-foot storage space, a 504-square-foot unconditioned art studio, and associated site improvements. The project would result in approximately 0.29 acre (12,632 square feet) of ground disturbance, including 540 cubic yards of cut and 220 cubic yards of fill on a 0.46-acre vacant parcel (Assessor's Parcel Number [APN] 074-483-009) located at the southern end of Madera Street, approximately 406 feet south of the Madera Street and San Ricardo Lane intersection, in the community of Los Osos (Figure 1) in the Residential Single-Family (RSF) land use designation in the Estero Planning Area (Coastal Zone).

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Biological Resources - Applicant shall retain a county department of planning and building approved environmental monitor (biologist), prior to ground disturbing activities environmental awareness training for construction personnel, inclusion in the Los Osos Habitat Conservation Plan, nesting bird survey by biologist prior to ground disturbing activity (outside of migratory breeding season (March-September)), northern legless and coast horned lizard surveys prior to ground disturbing activity, Kellogg's horkelia relocation and replanting.

Air Quality - Minimal ground disturbance, dust control plan, reseeding, construction vehicle speed shall not exceed 15 mph, street sweeping of excess soil material, fugitive dust monitoring, transport soils shall be covered, maintain all construction equipment in proper tune according to manufacturer's specifications, no idling of diesel equipment for more than 5 minutes, staging areas not located within 1000 feet of sensitive receptors, electrify equipment when feasible use, use gasoline powered or alternative fuel powered equipment when feasible.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.
