Project Description (Proposed actions, location, and/or consequences).

The California Department of Transportation (Caltrans) proposes the La Franchi Safety Project on U.S. Highway 101 in Mendocino County between Post Miles R9.5 to 10.8. Project features include widening to accommodate standard shoulder widths and new left-turn and merge lanes, upgrading guardrail to current standards, replacing one (1) culvert, and constructing a new retaining system to realign the roadway in the northbound direction.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The project would have Less than Significant Impacts to Biological Resources, Energy, Greenhouse Gas, and Hydrology and Water Quality Resources.

No mitigation is proposed for this project.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.
