Santa Rosa, California 95403

From: Sonoma County Regional Parks
2300 County Center Drive, Suite 120A
Santa Rosa, California 95403

The Sonoma County Regional Parks Department, pursuant to Section 23A-11 of the Sonoma County Code, determines that the following project is exempt from the requirements of the California Environmental Quality Act:

HOOD MOUNTAIN REGIONAL PARK – Water System and Slide Repair

Project Title

Hood Mountain Regional Park 051-240-001

Project Location - Specific APN

Santa Rosa Sonoma

Project Location - City Project Location - County

Description of Nature, Purpose, and Beneficiaries of Project:

After recent storms, there was a small slide at Hood Mountain Regional Park and Open Space Preserve. There are two results:

- A break in the water line that feeds existing water tanks for fire suppression in the Preserve and provides water to a neighbor as part of Preserve establishment agreements.
- Sediment flow into Hood Creek, tributary to Sonoma Creek. The sediment has blocked about 2/3 of the channel including cutting flow to an existing spring box that feeds the water line described above.

Park Maintenance crews are working to restore water service and remove the sediment from the creek before it washes downstream. The project includes repairing the water line (not in the creek), restoring flow to the spring box in the creek, removing sediment from the creek, and stabilizing the landslide with a combination of straw wattles, jute blanket, and silt fence. Parks crews will use biodegradable silt fence and seeded jute blanket if they are able to locate them in a timely way or use standard, readily available construction materials. Silt fence will be backfilled with sediment removed from the water channel. The purpose of the project is to restore water service and protect water quality on the Preserve and in Sonoma Creek, an important salmonid stream.

Doc No.49-06062024-176

Reasons why project is exempt: Maintenance of the waterline and spring box that supplies emergency fire water to Hood Mountain Regional Park and Open Space Preserve and water to a neighbor is statutorily exempt as an emergency action per PRC §21080(b)(2) because it is necessary to restore water service. Removing the sediment from the creek and stabilizing the landslide is exempt per CEQA Guidelines §15301 (i) maintenance of . . . stream channels (clearing of debris) to protect fish and wildlife resources.
