Notice of Exemption

To: Riverside County Clerk
2724 Gateway Drive
Riverside, CA 92507

Project Title: Hemet-Winchester Regional Odor Control Study
Project Location: Regional
City: Hemet and Winchester
County: Riverside

Description of Nature, Purpose, and Beneficiaries of Project:

Eastern Municipal Water District (District) is proposing the Hemet-Winchester Regional Odor Control Study (project) to evaluate the District's current odor control systems. The project would also provide recommendations to optimize and implement a stable and reliable abatement of odor, with consideration of variations in sewer flow rate now and in the future. Additionally, the District is looking to identify opportunities to reduce odor control chemical dosage wherever possible to minimize precipitates within sewers and Regional Water Reclamation Facility (RWRF) biosolids, and effectively manage annual operating budgets due to the rising costs of chemicals.

The beneficiaries of this project are the District's diverse customers, and the communities served. The District implements cost-effective projects and programs to manage wastewater and biosolids to achieve long-term, environmentally sustainable reuse.

Public Agency Approving and Carrying Out Project: Eastern Municipal Water District

Exempt Status:

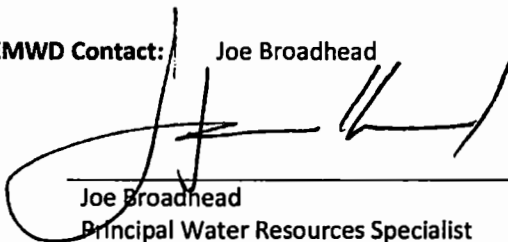

Statutory Exemption Section 15262; Public Resources Code 21102

Reasons why project is exempt:

This class of exemption covers projects involving only feasibility or planning studies for possible future actions which the Board has not approved, adopted, or funded; does not require the preparation of an EIR or Negative Declaration, but does require consideration of environmental factors. The project involves a regional feasibility study to provide recommendations for the optimization and implementation of stable and reliable abatement of odor.
