DETERMINATION FORM (rev. 06/2022)**

<u>Project Information</u>	
Project Name (if applicable): TMS Electrical System Upgrades	
DIST-CO-RTE: 10-MER-5	PM/PM: 15.5
EA: 10-1S370	Federal-Aid Project Number: n/a
<u>Project Description</u>	
<p>The California Department of Transportation (Caltrans) proposes a project to improve the Highway Management System (HMS) on Interstate 5 in Merced County at postmile 15.5. This project specifically focuses on replacing a Changeable Message Sign (CMS) located near Santa Nella, approximately 0.4 miles north of Etcheverry Road. All construction activities associated with this project will be confined within the existing state right-of-way. The existing CMS on I-5 is in poor condition and outdated. This project addresses this critical need to ensure reliable operation of the HMS. A functioning HMS is essential for Meeting Senate Bill (SB-1) targets, which mandate a 90% reduction in traffic fatalities and severe injuries by 2027. The need for this project is to provide Caltrans and the traveling public with real-time communication regarding road conditions, traffic accidents and other critical information.</p>

Continuation sheet:

General:

- Environmental reevaluation will be required if the scope of the project changes to include additional areas or activities, or if previously unknown cultural or other sensitive resources are discovered. Contact the Environmental Office if project changes occur or sensitive resources discovered.

Cultural:

- If cultural materials are discovered at the job site, do not disturb the resources and immediately:
 - Stop all work within a 60-foot radius of the discovery
 - Protect the discovery area
 - Notify the Engineer
 - The Department investigates. Do not move cultural materials or take them from the job site. Retain a qualified archaeologist to assess the significance of the find. Do not resume work within the discovery area until authorized.
- If human remains are discovered, State Health and Safety Code Section 7050.5 states that further disturbances and activities shall cease in any area or nearby area suspected to overlie remains, and the County Coroner contacted. Pursuant to Public Resources Code Section 5097.98, if the remains are thought to be Native American, the coroner will notify the Native American Heritage Commission (NAHC) who will then notify the Most Likely Descendent (MLD). At that time the landowner will work with the MLD on the respectful treatment and disposition of the remains. Further provisions of PRC 5097.98 are to be followed as applicable.

Hazardous Waste:

- The Caltrans Standard Special Provision, 7-1.02K(6)(j)(iii), which pertains to Earth Material Containing Lead shall be added to the construction contract. A lead compliance plan prepared by a Certified Industrial Hygienist (CIH) is required and all soil must remain on-site.

No permits required for this project.
