**Project Title:** (RFFCP2022) WIP Capacity Subgrant - Eastern Madera County Fire Safe Council and Coarsegold Resource Conservation District (1706-RFFCP)

**Project Location – Specific:** General communication, outreach, and planning activities across parts of Madera County.

**Project Location - City:** None – feasibility planning. The community of North Fork is within the project area.

**Project Location - County:** Madera

### **Description of Nature, Purpose, and Beneficiaries of Project:**

The Sierra Nevada Conservancy would provide funding to the Eastern Madera County Fire Safe Council to collaborate with local communities, regional partners, private landowners and stakeholders to develop a priority plan to improve forest health and fire resiliency. The proposed activities will increase capacity to identify, prioritize, and develop potential future projects. Tasks conducted under these activities would include participating in training sessions, attending regional conferences, working to develop monitoring and evaluation plans, communicating and engaging with stakeholders, providing training to partners for staff growth, improving internal policies and procedures, developing a project and mapping database, and the gathering of pertinent data and information for the proposed plan development. The purpose is to engage with community and stakeholders to identify and prioritize potential future forest health and fire resiliency projects, along with a creating a project monitoring plan that will improve forest health and fire resiliency, facilitate greenhouse gas emissions reductions, and increase carbon sequestration.

### **Exempt Status:**

**Statutory Exemption:** Common Sense Exemption – CEQA Guidelines, Section 15061, subd. (b)(3) and Feasibility and Planning Studies under Pub. Resources Code, Section 21102 and CEQA Guidelines, Section 15262.

**Reasons why project is exempt:**

These activities are exempt under the commonsense exemption under Section 15061, subd. (b)(3) of the CEQA Guidelines which states that CEQA applies only to projects which have the potential for causing a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. This grant funding will support capacity building activities including training, coordination of meetings, improving internal policies and procedures, and community engagement as well as the gathering and sharing of data for early-stage planning and prioritization of currently unidentified, potential future projects related to forest health and fire resiliency. They are early-stage planning activities; no specific projects have yet been identified, nor have they been approved, adopted, or funded. There will be no ground or resource disturbance. Therefore, it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment. Additionally, the project would be statutorily exempt under CEQA Guidelines, section 15262 exempting feasibility and planning studies as the activity involves planning studies for possible future actions which the Sierra Nevada Conservancy Board has not approved, adopted, or funded. Further, there is no legally binding effect on later activities.
