Present Land Use/Zoning/General Plan Designation:

Vacant/Open Space/Preservation (S-2)/Agriculture

Project Description: (please use a separate page if necessary)

The proposed project consists of issuance of a conditional use permit (CUP) to allow for the construction and operation of a 100-megawatt (MW) solar photovoltaic (PV) facility and a 200-MW battery energy storage system (BESS) within an Open Space/Preservation zone (S-2). The project is proposed to connect to the electrical grid via an off-site transmission line, which would extend to the west from the project site, connecting to the existing Imperial Irrigation District's (IID) 161-kilovolt (kV) "L" Line which traverses the project site.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X". If you have already sent your document to the agency please denote that with an "S".
