Project Title: California Aqueduct Subsidence Program - Subsidence and Groundwater Monitoring Proje

Project Applicant: Department of Water Resources

Project Location (include county): Kern County along the California Aqueduct

Project Description:

The proposed Project involves the installation of groundwater and subsidence monitoring stations that would provide real-time data to monitor groundwater levels and other spatial information as they relate to ground subsidence. The data would be used to help inform how subsidence is affecting the Aqueduct and would assist in maintaining infrastructure of the State Water Project (SWP). The proposed Project involves ground disturbance such as drilling to a maximum depth of approximately 5 to 2,800 feet below ground surface (bgs), site preparation activities such as vegetation removal and grading from the
