The project consists of the permitting of a tattoo studio in an existing multi-tenant shopping center in the Shopping Center (SC) zoning district and therefore, would not result in significant cumulative environmental impacts. No cumulative impacts will result from the Project and successive projects of the same type and at the same place over time.

There are no known unusual circumstances that will have a significant effect on the environment.

4. *The project may result in damage to scenic resources, including but not limited to trees, historic buildings, rock outcroppings, or similar resources within a highway officially designated as a scenic highway;*

The Project is not located in the vicinity of a highway officially designated as a scenic highway. The project site is located in a developed, urban area and consists of a Use Permit for a tattoo shop in an existing multi-tenant shopping center; therefore, the project will not result in damage to scenic resources or similar resources within a highway that is officially designated as a scenic.

5. *The project is located on a site which is included on any list compiled pursuant to Section 65962.5 of the Government Code; or*

The Project site is not included on any list compiled pursuant to Section 65962.5 of the Government Code. Additionally, a search of the EnviroStor and GeoTracker databases was conducted and no hazardous material records were located on site; therefore, the Project will not have an impact related to being located on a hazardous waste site.
