Placerville, CA 95667

Project Title: El Dorado Irrigation District 2024 Water and Recycled Water Master Plan

Project Location - Specific: El Dorado Irrigation District Service Area

Project Location: Placerville

Project Location: El Dorado County

Description of Project: The El Dorado Irrigation District (District) proposes to adopt the 2024 Water and Recycled Water Master Plan (Master Plan), which identifies water and recycled water system capital improvement needs through the 2045 planning horizon. The Master Plan identifies transmission, storage, and treatment system deficiencies and recommends improvements to serve existing customers and continued additional connections from new development approved by El Dorado County. The Master Plan evaluates EID's potable and recycled water systems and provides a planning level evaluation of possible future capital improvement projects that may be needed through the 2045 planning horizon. The Master Plan also evaluates infrastructure capacity improvements for an estimated buildout demand condition since the useful service life of new infrastructure will extend beyond 2045. The scope of the Master Plan is limited to a planning study for possible future actions which the EID Board of Directors has not approved, adopted, or funded. Additionally, adoption of the Master Plan will not have a legally binding effect on later activities.

Name of Public Agency Approving and Carrying Out Project: El Dorado Irrigation District

Exempt Status:

Statutory Exemption - (CCR, Title 14, Section 15262)

Reasons why project is exempt: The project consists of a planning study of possible future actions which the El Dorado Irrigation District has not approved, adopted, or funded. Adoption of the Master Plan will not have a legally binding effect on later activities and future infrastructure improvements would be subject to subsequent CEQA review.
